J. A. HAUS. Greencastle, Oct. 13, 1863.

REAT DISCOVERY!

KUNKEL'S
Bitter Wine of Iron, For the cure of weak stomachs, general debility, indigestion, diseases of the nervous system, constipation, acidity of the stomach, and for all cases requiring a tonic.

This wine includes the most agreeable and efficient Salt of Iron we possess; Citrate of Magnetic Oxide combined, with the most energetic of vegetable tonics. Yellow Peruvian Bark. The effect in many cases of debility, loss of appetite, and general prostration of an efficient Salt of Iron, combined with our valuable Nerve Tonic, is most happy. It augments the appetite. raises the pulse, takes off muscular flabbiness, removes the palor of debitity, and gives a florid vigor to the countenance.

Do you want semething to strengthen you? Do you want a good appetite?

Do you want to build up your constitution?
Do you want to feel well? Do you want to get rid of nervousness?

Do you want energy? Do you want to sleep well?

Do you want a brisk and vigorous feeling? If you do, try

Kunkel's Bitter Wine of Iron! This truly valuable Tonic has been so thoroughly tested by all classes of the community that it is now deemed indispensable as a tonic medicine. It costs but little, purifies the blood, and gives tone to the stomach, renovates the system, and prolongs life I now only ask a trial of this valuable tonic.

COUNTERFEITS.

BEWARE OF COUNTERFEITS .- As KUNKEL'S BITTER Wine or Iron is the only sure and effectual remedy in the known world for Dyspessia and Debility, and as there are a number of imitations offered to the public, we would caution the community to pur-chase none but the genuine article, manufactured by S. A. KUNKEL, and has his stamp on the top of the cork of every bottle. The very fact that others are attempting to imitate this valuable remedy

proves its worth and speaks volumes-in its favor. The BITTER WINE OF IRON is put up in 75 cent and S1 bottles, and sold by all respectable druggists throughout the country. Be particular that every bottle bears the fac simile of the proprietor's signa-

The Great

AMERICAN TEA COMPANY, 51 Versey Street, New York;

Since its organization, has created a new era in the

Wholesaling Teas in this Country.

They have introduced their selections of Teas, and are selling them at not over Two Cents (.02 Cents) pound above Cost, never deviating from the ONE PRÍCE asked:

Another peculiarity of the company is that their TEA TASTER not only devotes his time to the selec tion of their Teas as to quality, value, and particular styles for particular localities of country, but he helps the TEA buyer to choose out of their enormous stock such TEAS as are best adapted to his peculiar wants, and not only this, but points out to him the best bargains. It is easy to see the incalculable advantage a TEA BUYER has in this establishment over all others. If he is no judge of TEA, or the MARKET. if his time is valuable, he has all the benefits of a well organized system of doing business, of an immense capital, of the judgment of a professional Tea Taster,

and the knowledge of superior salesmen. This enables all Tea buyers-no matter if they are thousands of miles from this market-to purchase on as good terms here as the New York mer

Parties can order Teas and will be served by us as well as though they came themselves, being sure to get original packages, true weights and tares; and the Teas are warranted as represented.

We issue a Price List of the Company's Teas, which will be sent to all who order it; comprising Hyson, Young Hyson, Imperial, Gunpowder, Twankay and Skin.

Oolong, Souchong, Orange and Hyson Pekoe. Japan Tea of every description, colored and uncolored.

This list has each kind of Tea divided into Four Classes, namely: CARGO, high CARGO, FINE, FINEST, that every one may understand from description and the prices annexed that the Company are determined to undersell the whole Tea trade.

We guarantee to sell all our Teas at not over TWO CENTS (.02 Cents) per pound above cost. believing this to be attractive to the many who have

heretofore been paying Enormous Profits. Great American Tea Company. Importers and Jobbers,

VINELAND. TO ALL WANTING FARMS. New Settlement of Vineland.

EMEDY FOR HARD TIMES.

A Rare Opportunity in the Best Market, and Most De-lightful and Healthful Climate in the Union. Only thirty miles South of Philadelphia, on a Railroad; being a Rich, Heavy Soil, and Highly Productive Wheat Land; Amongst the Best in the Garden State

of New Jersey. It consists of 20,000 acres of GOOD land, divided into Farms of different sizes to suit the purchaser-FROM 20 ACRES AND UPWARDS—and is sold at the rate of from \$15 to \$20 per acre for the farm land, payable one-fourth cash, and the balance by quarteryearly installments, with legal interest, within the term of four years.

The Soil is, in great part, a Rich Clay Loam, suitable for Wheat, Grass and Potatoes—also a dark and rich sandy loam, suitable for corn, sweet-potatoes, obacco, all kinds of vegetables and root crops, and the finest varieties of fruit, such as Grapes, Pears, Peaches, Apricots, Nectarines, Blackberries, Melens and other fruits, best adapted to the Philadelphia and New York Markets. In respect to the soil and crops there can be no mistake, as visitors can examne both, and none are expected to buy before so doing, and finding these statements correct-under these circumstances, unless these statements were correct, there would be no use in their being made. It is considered the best Fruit soil in the Union.

[See Reports of Solon Robinson, Esq., of the New York Tribune, and the well-known agriculturist, William Parry, of Cinnamiuson, New Jersey, which will be furnished inquirers.]

The Market.--By looking over a map the reader will perceive that it enjoys the best market in the Union, and has direct communication with New York and Philadelphia twice a day, I sing only thirty-two miles from the latter. Produce : this market brings double the price that it does in locations distant from the cities. In this location it can be put into market the same morning it is gathered, and for what the farmer sells he gets the highest price: whilst groceries and other articles he purchases he gets at the lowest price. In the West, what he sells brings him a pittance, but for what he buys he pays two prices. In locating here the settler has many railroad, of all the great cities of New England and the Middle States. He is mear his old friends and associations. He has school for his children, divine service, and all the advantages of civilization.

The Climate is delightful; the winters being salubrious and open, whilst the summers are no warmer than in the North. The location is upon the line of latitude with northern Virginia.

Persons Wanting a change of Climate for Health, would be much benefitted in Vineland. The mildness of the climate and its bracing influence, makes described the for all pulmonary affections, dyspepsia or general debility. Visitors will notice a difference in a few days. Chills and fevers are unknown.

Conveniences at Hand.—Building material is plen-

ty. Fish and oysters are plenty and cheap.
Visitors must expect, however, to see a new place.
Why the Property has not been Settled Before?— This question the reader naturally asks. It is because it has been held in large tracts by families not lisposed to sell, and being without railroad facilities they had few inducements. The Railroad has just been opened through the property this season, for

Visitors are shown over the land in a carriage free of expense, and afforded time and opportunity for thorough investigation. Those who come with a view to settle, should bring money to secure their purchases, as locations are not held upon refusal.

The Safest thing in Hard Times, where people have been thrown out of employment or business, and possess some little means or small incomes, is to start themselves a home. They can buy a piece of land at a small price, and earn more than wages in improving it, and when it is done it is a certain in-Fringes, dependence and no 1988. A few acres in fruit trees will insure a comfortable living. The land is put down to hard times, and all improvements can be

made at a cheaper rate than most any other time. The whole tract, with six miles front on the rail-road, is being laid out with fine and spacious avenues, with town in the centre—five acre lots in the town set at from \$150 to \$200; two and a-half acre lots, at from \$80 to \$120, and town lots 50 feet front by 150 feet deep, at \$100—payable one-half cash and the balance within a year. It is only upon farms of twenty acres, or more, that four years'

To Manufacturers, the town affords a fine opening for the Shde manufacturing business, and other ar- Sharp, five miles north of Millville, from half to a ticles, being near Philadelphia, and the surrounding mile east of the railroad, and just about in the cencountry has a large population, which affords a tre of Vineland. Mr. Sharp commenced work here

This settlement, in the course of several years. will be one of the most beautiful places in the country, and most agreeable for a residence. It is intended to make it a Vine and Fruit grow ing country, as this culture is the most profitable and the best adapted to the market. Every advantage and convenience for settlers will be introduced which will insure the prosperty of the place. The hard times throughout the country will be an advan-

tage to the settlement, as it compels people to resort o agriculture for a living. Large numbers of people are purchasing, and the people who desire the best location should visit the olace at once.

Improved Land is also for sale. TIMBER.—Land can be bought with or without limber. The Timber at market valuation. The title is indisputable. Warrantee Deeds giver

lear of all incumbrance, when the money is paid. Boarding conveniences at hand. Letters promptly answered, and Reports of Solon Robinson and Wm. Parry sent, together with the

Report of Solon Robinson, OF THE NEW YORK TRIBENE, UPON THE

VINELAND SETTLEMENT. The following is an extract from the report of Solon Robinson, Esq., published in the New York Tribune, in reference to Vineland. All persons can

re d this report with interest.

Advantages of Farming near Home—Vineland—Remarks upon Marl—Soil, its great Fertility—The Cause of Fertility—Amount of Crops Produced— Practical Evidence.
It is certainly one of the most extensive feetile tructs.

n an almost level position, and suitable condition for in an almost ever position, and suitable condition for pleasant furning that we know of this side of the western prairies. We found some of the oldest furns appearently just as profitable productive as when first cleared of forest fifty or a hundred years ago.

The geologist would soon discover the cause of this

continued fertility. The whole country is a marine deposit, and all through the soil we found evidences of calcareous substances, generally in the form of indurated calcareous marl, showing many distinct forms of ancient shells, of the tertiary formation; and this marly substance is scattered all through the soil, in a very comminuted form, and in the exact condition most easily assimilated by such plasants the farmer desires to cultivate. Murl, in all its forms, has been used to fertilize

crops in England, from the time it was occupied by the Romans; and in France and Germany a mark

bed is counted on as a valuable bed of manure, that

can be dug and carted and spread over the field .- How much more valuable then it must be, when found already mixed through the soil, where new particles will be turned up and exposed, and transformed to the owner's use every time he stirs the earth. Having then satisfied our minds of the cause, they will not be excited with wonder at seeing indubitable evidence of fertility in a soil which in other situations, having the same general characteristics or at

ization A few words about the quality and value of this land for cultivation, of which we have some strong

least appearances, is entirely unrenumerative except

as its productiveness is promoted by artificial fertil-

Our first visit was to William D. Wilson, Franklin lownship, Gloucester county, who purchased some eight miles north of Millville, about three years ago. for the purpose of establishing a steam mill, to work up the timber into lumber, to send off by the new ailroad, as well as the firewood and coal, for which he built a branch track a mile and a half long. He also furnished sixteen miles of the road with ties, and has no doubt made the mill profitable, though his main object was to open a farm, having become convinced that the soil was valuable for cultivation. In this he has not been disappointed, as some of his crops prove. For instance, last year, the second time of cropping, 306 bushels of pointoes on one acre, worth 60 cents a bushel in the field. This year seven acres, without manure, produced 556 bushels f oats. In one field, the first crop was potatoes, planted among the roots, and yielded 75 bushels,-The potatoes were dug, and wheat sown, and yielded 16 bushels? and the stubble turned under and sown to buckwheat, which yielded 323 bushels; and then the ground was sown to clover and timothy,

which gave as a first crop 2\frac{1}{4} tons per acre.

The fertilizers applied to these crops were first, ashes from clearings; second, 225 pounds of super-phosphate of lime; third, 200 pounds Peruvian guano; then 50 bushels of slaked lime has been spread upon the clover since it was moved, and turned in

Mr. Wilson's growing crops, and the wheat stubble of the present season, all indicate his land as

productive as any part of the State.

At Mary Barrow's, an old style Jersey woman farmer; several miles south of Mr. Wilson's, we were so particularly struck with the fine appearance of sield of corn, that we stopped to inquire of the hires man how it was produced. We found that the land had been the year but one before in wheat, sown with clover, and this cut one season, and last spring plowed once, with one "poor old nag," and planted "Yes, but you manured high, we suppose?" we

said interrogatively, and got this reply: - "Waal, you see, we couldn't a done that; 'cause we hadn t but forty one-horse loads altogether, for 23 acres, and we wanted the most on't for the truck.

The truck consisted of beets, carrots, cabbage, cucumbers, melons, &c., and a very productive patch of Lima beans, grown for marketing. So we were

satisfied that the soil was not afortile, even unaided by clover, which had fed the coin, because the "truck patch" had not been in cultivation long enough to obliterate all signs of the forest.

in December, 1858, upon 270 acres. In less than three years, he has got 234 acres cleared and in crops this season, as well inclosed and divided into several fields, with cedar rail or pole fence; has built a two-story dwelling, about 36 by 40 feet, and a smaller house for farm laborers, and a stable and grapary and some other out buildings.

Considerable part of the land was cleared for the plow at \$9 an acre, and on some of it the first crop was buckwheat, limed with 50 bushels in powder per acre. This crop may be put in July 4th to 20th, and yields 20 to 30 bushels per acre, harvested in November; when the land being sowed with 150lbs of Peruvian guano and seeded with rye, yielded 12 to 15 bushels per acre and \$10 worth of straw. The rye stubble turned, after knocking off a large growth of oak sprouts, and dressed again with guano and seeded to wheat, gave 15 or 16 bushels. The crop which he was threshing while we were there promises more, of a very plump grain, and the straw is

very heavy. We went over the stubble, and found the clover and timothy, from seed sowed last spring, on the wheat without harrowing, looking as well as we ever saw it upomany old cultivated farm, and with a little work done in the winter to clear off some roots and rotten stumps, and setting stakes to mark permanent ones, he will be able to cut the crop the next year with a mowing machine, and we will guarantee two tons per acre, if he will give the overplus if it over-

Part of the land was planted with potatoes for a first crop, which yielded 120 bushels per acre. It was then limed with 50 bushels per acre, and seeded with wheat and clover, yielded and average of over 15 bushels per acre, and the clover now looks beau-

Other portions have been planted with corn as a first crop, which yielded 30 bushels of yellow fint corn, and the second crop 40 bushels, and the third crop, treated to 150lbs, of guano, we are sure no one would estimate below 40 bushels per acre. [The reader will recollect that the writer is now

speaking of land perfectly new, and which can scarcely be considered in good arable condition — In other cases, the corn grop of last year was folowed with oats this season, not yet threshed, but

will average probably 40 to 50 bushels. Sweet potatoes, beans, melons, and, in fact, all garden veg-etables, as well as young peach and other fruit trees planted this year show very plainly that this long neglected tract of land should remain so no onger, and there is now a strong probability that it will not; for under the nuspices of Mr Landis, it will be divided into small lots, with roads located o accommodate all—the surveyor is now busy at his work—and all purchasers will be required to build neat comfortable houses, and either fence heir lots in uniformity, or ugree to live without fence, which would be preferable, by which means a good population will be secured, who will estabish churches, schools, stores, mills, mechanic shops and homes-homes of American farmers, surrounded by gardens, erchards, fields and comforts of civ-

If may one, from any derangement of business. is desirous of changing his pursuits of life, or who is from any cause desirous to find a new location and cheap home in the country, and who may read and believe what we have truly stated, he will do well to go and see for himself what may be seen within a two hours ride out of Philadelphia.

SOLON ROBINSON.
