New Advertisements.

THE Secretary of the Treasury has not yet given notice of any intention to withdraw this popular Loan from Sale at Par, and until ten days noular Losu from Carle and are and are days no-fice is given, the undersigned, a "GENERAL SUBSCRIPTION AGENT," will continue to supply

the public.
The whole amount of the Loan authorized is Five Hun ired Millions of Dollars. NEARLY FOUR HUNDRED MILLIONS HAVE BEEN ALREADY SUBSCRIBED FOR AND PAID INTO THE TREA-SURY, mostly within the last seven months. The large demand from abroad, and the rapidly increasing home demand for use as the basis for circula tion by National Banking Associations now organtion by Astronau Banania Associations now organ-ping in all parts of the country, will, in a very short period, absorb the balance. Sales have late-ly ranged from ten to fifteen millions weekly, freently exceeding three millions daily, and it is well known that the Secretary of the Treasury has ample a d un ailing resources in the Duties on Imports and Internal Revenues, and in the issue of the Interest bearing Legal Tender Treasury Notes, it is almost a certainty that he will not find it ne cessary, for a long time to come, to seek a market for any other long or permanent Loans, THE INTEREST AND PRINCIPAL OF WHICH ARE PAY

ABLE IN GOLD. Prudence and self-interest must force the minds of those contemplating the formation of National Banking Associations, as well as the minds of all who have idle money on their hands, to the prompt cosclusion that they should lose no time in sub seribing to this most popular Loan. It will soon be beyond their reach, and advance to a handsome mium, as was the re-ult with the "Seven Thirty Loan, when it was all sold and could no longer be

subscribed for at par.
IT IS A SIX PER CENT LOAN, THE INTEREST AND PRINCIPAL PAYABLE IN COIN, THUS YIELDING OVER NINE PER CENT. PER ANNUM at the present rate of premium on soin.

The Government requires all duties on imports to be paid in Gold; these duties for a long time past amounted to over a Quarter of a Million of Dollars daily, a sum nearly three times greater than that required in the payment of the interest on all the 5-20's and other permanent Loans. So that it is hoped that the surplus Coin in the Treasury, at no distant day, will enable the United States to resume specie payments upon all liabilities.

The Loan is called 5-20 from the fact that Bonds may run for 20 years, yet the Government has a right to pay them off in Gold at par, at any time

THE INTEREST IS PAID HALF-YEARLY. viz: on the first days of November and May.

Subscribers can have Coupon Bonds, which are payable to bearer, and are \$5, \$100, \$500, and \$1000; or Registered Bonds of same denominations, and in addition, \$5, 00, a.d. \$10,000. For

Banking purposes and for envestments of Trust-monies the Registered Bonds are preferable. These 5-20's can be taxed by States, cities, towns, or counties, and the Government tax on them is

only one-and a-half per cent .. on the amount of in come, when the income of the holder exceeds Six Hund ed dollars per annum; all other investments such as income from Mortgages, Railroad Stock and Bonds etc., must pay from three to five per cent. tax on the income. Sanks and Bankers throughout the Country will

continue to dispose of the Bonds; and all orders by mail, or otherwise promptly attended to. The inconvenience of a few days' delay in the delivery of Bon s is unavoidab e, the demand being so great; but as interest commences from the day subscription, no loss is occasioned, and every effort is being made to diminish the delay.

JAY COOKE, Subscription Agent, 114 South Thi d St., Philadelphia. Dec. 8, 1893-31.

CITRAY -Came to the residence of the sub scriber, residing in Antrim township, about miles from Greencastle, on the road leading from Shady Grove to Middleburg, about two miles from he latter place, on the 12th of Nov. inst., a BAY HORSE, with a star in the forehead, and a small white anot on his nose. His hind feet are white-He is supposed to be shout 12 years old. The owner is requested to come forward, prove property. pay charges, and take him away JOHN HELFRICK.

GREAT DISCOVERY! KUNKEL'S Bitter Wine of Iron.

For the cure of weak stomachs, general debility, indigestion, diseases of the nervous system, constipa tion, acidi y of the stomach, and for all cases requiring a tonic.

This wine includes the most agreeable and efficient Salt of Iron we possess; Citrate of Magnetic Oxide combined, with the most energetic of vegetable ton-ics. Yellow Peruvian Bark. The effect in many cases of debility, loss of appetite, and general pros-tration of an efficient Salt of Iron, combined with our valuable Nerve Tonic, is most happy. It augments the appetite raises the pulse, takes off muscular flabbiness, removes the palor of debitity, and gives a florid vigor to the countenance.

Do you want something to strengthen you? Do you want a good appetite?
Do you want to build up your constitution?
Do you want to feel well?

Do you want to get rid of nervousness?

Do you want energy?

Do you want to leep well? Do you want a brisk and vigorous feeling?

f you do, try Kunkel's Bitter Wine of Iron!

This truly valuable Tonic has been so thoroughly ested hy all classes of the community that it is now leemed indispensable as a tonic medicine. It costs but little, purifies the blood, and gives tone to the stomach, renovates the system, and prolongs life I now only ask a trial of this valuable tonic.

COUNTERFEITS. BEWARE OF COUNTERFEITS .- AS KUNKEL'S BITTER WINE OF IRON is the only sure and effectual remedy in the known world for Dyspepsia and Debility, and as there are a number of imitations offered to the public, we would caution the community to purchase none but the genuine article, manufactured by S. A. KUNKEL, and has his stamp on the top of the cork of every bottle. The very fact that others are attempting to imitate this valuable remedy

proves its worth and speaks volumes in its favor. The BITTER WINE OF IRON is put up in 75 cent and \$1 bottles, and sold by all respectable druggists throughout the country. Be particular that every bottle bears the fac simile of the proprietor's signa-

The Great

AMERICAN TEA COMPANY. 51 Versey Street, New York;

Since its organization, has created a new era in the

Wholesaling Teas in this Country. They have introduced their selections of Teas, and

are selling them at not over Two Cents (.02 Cents) per pound above Cost, never deviating from the ONE PRICE asked.

Another peculiarity of the company is that their THA TASTER not only devotes his time to the selection of their Tens as to quality, value, and particular styles for particular localities of country. but he helps the TEA buyer to choose out of their enormous stock such TEAS as are best adapted to his peculiar wants, and not only this, but points out to him the best bargains. It is easy to see the incalculable advantage a Ten Buyen has in this establishment over all others. If he is no judge of TEA, or the MARKET, if his time is valuable, he has all the benefits of a well organized system of doing business, of an immense apital, of the judgment of a professional Tea Taster, and the knowledge of superior salesmen.

This enables all Tea buyers-no matter if they are thousands of miles from this market-to pur chase on as good terms here as the New York mer-

Parties can order Tess and will be served by us as well as though they came themselves, being sure to get original packages, true weights and tares; and the Teas are warranted as represented.

We issue a Price List of the Company's Teas. which will be sent to all who order it: comprising Hyson, Young Hyson, Imperial, Gunpowder, Twankay and Skin.

Oolong, Souchong, Orange and Hyson Pekoe. Japan Tea of every description, colored and uncolored.

This list has each kind of Tea divided into Four Classes. namely: CARGO, high CARGO, FINE, FINEST, that every one may understand from deseription and the prices annexed that the Company are determined to undersell the whole Tea trade. We guarantee to sell all our Teas at not over TWO CENTS (.O2 Cents) per pound above cost, he-

lieving this to be attractive to the many who have heretofore been paying Enormous Profits. . Great American Tea Company.

Importers and Jobbers, Sept. 15, 1868-3m.] No. 51 Yesey St., N. Y.

VINELAND. TO ALL WANTING FARMS New Settlement of Vineland.

EMEDY FOR HARD TIMES. A Rure Opportunity in the Best Market, and Most De-

lightful and Healthful Climaie in the Umon. Only thirty miles South of Philadelphia, on a Railroad; being a Rich, Heavy Soil, and Highly Productive Wheat Land; Amongst the Best in the Garden State

of New Jersey. It consists of 20,000 acres of GOOD land, divided into Farms of different sizes to suit the purchaser-FROM 20 ACRES AND UPWARDS—and is sold at the rate of from \$15 to \$20 per acre for the farm land, payable one-fourth cash, and the balance by quarter-yearly installments, with legal interest, within the term of four years.

The Soil is, in great part, a Rich Clay Loam, suitable for Wheat, Grass and Potatoes—also a dark and rich sandy leam, suitable for corn, sweet potatoes, tobacco, all kinds of vegetables and root crops, and the finest varieties of fruit, such as Grapes, Pears, Peaches, Apricots, Nectarines, Blackberries, Melens and other fruits, best adapted to the Philadelphia and New York Markets. In respect to the soil and crops there can be no mistake, as visitors can examine both, and none are expected to buy before so doing, and finding these statements correct—under these circumstances, unless these statements were correct, there would be no use in their being made. It is considered the best Fruit soil in the Union.

[See Reports of Solon Robinson, Esq., of the New York Tribune, and the well-known agriculturist. William Parry, of Cinnaminson, New Jersey, which will be furnished inquirers.]

The Market.--By looking over a map the reader will perceive that it enjoys the best market in the Union, and has direct communication with New York and Philadelphia twice a day, being only thirty-two miles from the latter. Produce: this market brings double the price that it does in locations distant from the cities. In this location it can be put into market the same morning it is gathered, and for what the farmer sells he gets the highest price: whilst groceries and other articles he purchases he gets at the lowest price. In the West, what he sells brings him a pittance, but for what he buys he pays two prices. In locating here the settler has many other advantages. He is within a few hours, by railroad of all the great cities of New England and the Middle States. He is near his old friends and associations. He has school for his children, divine service, and all the advantages of civilization.

and he is near a large city.

The Climate is delightful; the winters being sa lubrious and open, whilst the summers are no warm er than in the North. The location is upon the line of latitude with northern Virginia.

Persons Wanting a change of Climate for Health. would be much benefitted in Vineland. The mildness of the climate and its bracing influence, makes it excellent for all pulmonary affections, dyspensia or general debility. Visitors will notice a difference in a few days. Chills and fevers are unknown. Conveniences at Hand .- Building material is plen-

ty. Fish and oysters are plenty and cheap.
Visitors must expect, however, to see a new place. Why the Property has not been Settled Before?-This question the reader naturally asks. It is because it has been held in large tracts by families not disposed to sell, and being without railroad facilities they had few inducements. The Railroad has just

been opened through the property this season, for

Visitors are shown over the land in a carriage. free of expense, and afforded time and opportunity for thorough investigation. Those who come with a view to settle, should bring money to secure their purchases, as locations are not held upon refusal. The Safest thing in Hard Times, where people have been thrown out of employment or business, and possess some little means or small incomes, is to start themselves a home. They can buy a piece of land at a small price, and earn more than wases in improving it, and when it is done it is a certain in dependence and no 1938. A few acres in fruit trees will insure a comfortable living. The land is put down to hard times, and all improvements can be

made at a cheaper rate than most any other time. The whole tract, with six miles front on the rail road, is being laid out with fine and spacious avenues, with ' town in the centre-five acre lots in the town set; at "rom \$150 to \$200; two and a-half acre lots, at from \$80 to \$120, and town lots 50 feet front by 150 feet deep, at \$100-payable one-half cash and the balance within a year. It is only upon farms of twenty acres, or more, that four years'

To Manufacturers, the town affords a fine opening or the Shoe manufacturing business, and ticles, being near Philadelphia, and the surrounding country has a large population, which affords a good market.

This settlement, in the course of several years. will be one of the most beautiful places in the coun-

try, and most agreeable for a residence.

It is intended to make it a Vine and Fruit growing country, as this culture is the most profitable and the best adapted to the market. Every advantage and convenience for settlers will be introduced which will insure the prosperty of the place. The hard times throughout the country will be an advan tage to the settlement, as it compels people to resort to agriculture for a living.

Large numbers of people are purchasing, and the people who desire the best location should visit the

place at once. Improved Land is also for sale.

TIMBER.-Land can be bought with or without Timber. The Timber at market valuation. The title is indisputable. Warrantee Deeds given clear of all incumbrance, when the money is paid.

Boarding conveniences at hand. Letters promptly answered, and Reports of Solon Robinson and Wm. Parry sent, together wist the Vineland Rural."

Route to the Land :- Leave Walnut street wharf. Philadelphia, at 9 o'clock, A. M., and 4 P. M., (unless there should be a change of hour,) for Vineland. on the Glassboro' and Millville Railroad. When you leave the cars at Vineland Station, just opened.

inquire for CHAS. K. LANDIS. Postmaster. Founder of the Colony, Vineland P. O., Cumberland Co., N. J. P. S -- There is a change of cars of Glassboro' .-

Also heware of sharpers on the cars from New York and Philadelphia to Vineland, inquiring your busi ness, destination, &c. December 3, 1861-8mos.

ISSOLUTION OF PARTNERSHIP. Notice is hereby given that the co-partner ship subsisting since April 1, 1861, between A. L. IRWIN and JAMES M. IRWIN, of Greencastle, Franktin county, Pa., under the firm and style of A. L IRWIN & Son, has been this day dissolved by mutual consent. The Books and Accounts of the late firm are in the hands of A. L. IRWIN for collection. Ali persons indebted to the late firm, are requested to make immediate payment.

A. L. IRWIN, JAMES M. IRWIN. Greencastle, May 7, 1863.

The undersigned have this day (May 7, 1863. formed a copartnership, under the name and stylof IRWIN & RHOADS, and having purchased the whole stock of goods, lately belonging to A. L. IR win & Son, respectfully inform the people of Green eastle and surrounding country, that they will coninue the business on the South-east corner of the Public Square, where they invite all persons need ing Hardware, Oils and Paints to give them a cal and examine their stock. Most of the goods have been purchased before the advance in prices in the cities, and will be sold greatly below their present value. Persons in need of Building Hardware, can obtain it at this house, cheaper than any where else

worth of your money. JAMES M. IRWIN. CHARLES W. RHODES.

Cause of Fertility-Amount of Crops Produced-

It is certainly one of the most extensive fertile tracts.

in an almost level position, and suitable condition for pleasant farming that we know of this side of the western prairies. We found some of the oldest farms apparently just as profitable productive as when first cleared of forest lifty or a hundred years ago.

The geologist would soon discover the cause of this continued fertility. The whole country is a marine

leposit, and all through the soil we tound evidences

of calcareous substances, generally in the form of indurated calcareous marl, showing many distinct

forms of ancient shells, of the tertiary formation;

and this marly substance is scattered all through the

Practical Evidence.

be turned up and exposed, and transformed to the owner's use every time he stirs the earth. Having then satisfied our minds of the cause, they will not be excited with wonder at seeing indubitable evidence of fertility in a soil which in other situations, having the same general characteristics or at least appearances, is entirely unrenumerative except as its productiveness is promoted by artificial tertil-

A few words about the quality and value of this land for cultivation, of which we have some strong proof.

Our first visit was to William D. Wilson, Franklin township, Gloucester county, who purchased some eight miles north of Millville, about three years ago, for the purpose of establishing a steam mill, to work up the timber into lumber, to send off by the new radrond, as well as the firewood and coal, for which he built a branch track a mile and a half long. He also furnished sixteen miles of the road with ties. and has no doubt made the mill profitable, though his main object was to open a farm, having become convinced that the soil was valuable for cultivation. In this he has not been disappointed, as some of his crops prove. For instance, last year, the second time of cropping, 306 bushels of potatoes on one acre, worth 60 cents a bushel in the field. This year seven acres, without manure, produced 356 bushels of oats. In one field, the first crop was polatoes, planted among the roots, and yielded 75 bushels.— The potatoes were dug, and wheat sown, and yielded 16 bushels; and the stubble turned under and sown to buckwheat, which yielded 33% bushels; and then the ground was sown to clover and timothy, which gave as a first crop 21 tons per acre.

The tertilizers applied to these crops were first, ashes from clearings: second, 225 pounds of super-phosphate of lime; third, 200 pounds Peruvian guano; then 50 bushels of slaked lime has been spread upon the clover since it was moved, and turned in

Mr. Wilson's growing crops, and the wheat stubble of the present season, all indicate his land as productive as any part of the State.

At Mary Barrow's, an old style Jerscy woman farmer, several miles south of Mr. Wilson's, we we: so particularly struck with the fine appearance of & field of corn, that we stopped to inquire of the hine; man how it was produced. We found that the land had been the year but one before in wheat, sown with clover, and this cut one season, and last spring plowed once, with one "poor old nag," and planted

"Yes, but you manured high, we suppose?" we said interrogatively, and got this reply: "Waal, you see, we couldn't a done that; 'cause we hadn t but forty one-horse loads altogether, for

23 acres, and we wanted the most on't for the it ek. The truck consisted of beets, carrots, cabbage, cucumbers, melons, &c., and a very productive putch of Lima beans, grown for marketing. So we were satisfied that the soil was not afertile, even unaided by clover, which had fed the coin, because the "truck patch" had not been in cultivation long enough to

obliterate all signs of the forest. Our next visit was to the large farm of Andrew tharp, five miles north of Milville, from half to a mile east of the railroad, and just about in the centre of Vineland. Mr. Sharp commenced work here in December, 1858, upon 270 acres. In less than three years, he has got 234 acres cleared and in crops this season, as well inclosed and divided into several fields, with cedar rail or pole fence; has built a two-story dwelling, about 36 by 40 feet, and a smaller house for farm labovers, and a stable, and granary and some other out buildings.

Considerable part of the land was cleared for the plow at \$9 an acre, and on some of it the first crop was buckwheat, limed with 50 bushels in powder per acre. This crop may be put in July 4th to 20th, and yields 20 to 30 bushels per acre, harvested in November; when the land being sowed with 150 bs of Peruvian guano and seeded with rye, yielded 12 to 15 bushels per acre and \$10 worth of straw. The ryeistubble turned. after knocking off a large growth of oak sprouts, and dressed again with guano and seeded to wheat, gave 15 or 16 bushels. The crop which he was threshing while we were there promises more, of a very plump grain, and the straw is very heavy.

We went over the stubble, and found the clover and timothy, from seed sowed last spring, on the wheat without harrowing. looking as well as we ever saw it upon any old cultivated farm, and with a little work done in the winter to clear off some roots and rotten stumps, and setting stakes to mark permanent ones, he will be able to cut the crop the next year with a mowing machine, and we will guarantes two tons per acre, if he will give the overplus if it over-

Part of the land was planted with potatoes for a first crop, which yielded 120 bushels per acre. It was then limed with 50 bushels per acre, and seeded with wheat and clover, yielded and average of over 15 hushels per acre, and the clover now looks beau-

Other portions have been planted with corn as a first crop, which yielded 30 bushels of yellow fint corn, and the second crop 40 bushels, and the third crop, treated to 150ths, of guano, we are sure no one would estimate below 40 bushels per acre.

The reader will recollect that the writer is now speaking of land perfectly new, and which can carcely be considered in good arable condition -

In other cases, the corn crop of last year was followed with oats this senson, not yet threshed, but will average probably 40 to 50 bushels. Sweet potatoes, beans, melons, and, in fact, all garden veg-etables, as well as young peach and other fruit trees planted this year show very plainly that this long neglected tract of land should remain so no longer, and there is now a strong probability that it will not; for under the auspices of Mr Landis. it will be divided into small lots, with roads located to accommodate all—the surveyor is now busy at this work—and all purchasers will be required to build neat comfortable houses, and either fence their lots in uniformity, or agree to live without fence, which would be preferable, by which means a good population will be secured, who will estab-lish churches, schools, stores, mills, mechanic shores and homes—homes of American farmers, surrounded by gardens, orchards, fields and comforts of civ-

in the county. Come where you can always get the If may one, from any derangement of business. is desirous of changing his pursuits of life, or who is from any cause desirous to find a new location and cleap home in the country, and who may read and believe what we have truly stated, he will do well to go and see for himself what may be seen
