The Secretary of the Treasury has not yet given a witee of lany intention to withdraw, this popular Louis from Sale at Par. and until ten days notige is a giften. the undersigned! at TGENERIL BURSCRIPTION AGENT," will continue to supply the published it is a supply

The whole amount of the Acom authorized is Five Hun red Millions of Dollars. NEARLY FOUR HUNDRED, MILLIONS HAWE BEEN ALREADY BUBSCRIBED FOR AND PAID INTO THE TREA-SURY, mostly within the last seven months. The large demand from abroad, and the rapidly increasing house demand for the us the basis for circula tion by National Banking Associations now organ-iting in all parts of the country, will, in a very short period, absorb the balances: Sales have lately ranged from ten to fifteen millions weekly, frewell known that the Secretary of the Treasury has ample as deunsailing resources in the Duties on Imports and Internal Revenues, and in the issue of the Interest bearing Legal Tender Treasury Notes. it is almost a certainty that he will not find it ne-essary, for Alling hime to come! to seek a market for any other long or permanent Loans, THE IN-TEREST AND PRINCIPALOF WHICH ARE PAY-

ABLE IN GOLD.

Prudence and self-interest must force the minds of the contemplating the formation of National Banking Associations, as well as the minds of all who have idle money on their hands, to the prompt conclusion that they should less us time in sub-ser bing to this most pepular Loan. It will soon be beyond their reach, and advance to a handsome premium, as was the result with the "Seven Thirty" Lean, when it was all sold and sould no longer be subserfed for at pur. IT 18 A SIX PERCENT LOAN, THE INTEREST

AND PRINCIPAL PAYABLE IN COIN. THUS TIELDING OVER NINE PER CENT: PER ANNUM

at the present rate of premium on min.

The Government requires all duties on imports to be paid in Gold; these duties for a long time pass amounted to over a Quarter of a Million of Dollars daily, a sum meanly three times greater than that required in the payment of the interest on all the 5-20's and other permanent Loans. So that it is heped that it was private Column the Treasury, at no distant day, will enable the United States to resume specie payments them all fightlines ? December 1 to the Loan is delied 5-20 from the fact that Bonds

right to pay them off in Gold at par, at any time

after & years.
THE INTEREST IS PAID HALF-YEARLY, viz: en the first days of November and May.

Subscribers can have Coupon Bonds, which are
Payable to Bearer, and are Sar, \$100 \$500, and
\$1000; or Registered Bonds of same denominations, and in addition \$5,000, and \$10,000. Banking purposes and for investments of Trust, menies the Registered Bonds are preferable.

The Great

AMERICAN TEA COMPANY. 151 Vesey Street, New York; Since its organization, has created a new era in the

Wholesaling Teas in this Country.

They have introduced their selections of Teas, and are selling them at not over Two Cents (.02 Cents) per pound above Cost, never deviating from the ONE PRICE asked.

Another peculiarity of the company is that their TEA TASTER not only devotes his time to the selection of their Teas as to quality, value, and particular styles for particular localities of country, but he helps the Tea buyer to choose out of their enormous stock such TEAS as are best adapted to his peculiar wants, and not only this, but points out to him the best barguins. It is easy to see the incalculable advantage a TEA BUYER has in this establishment over all others. If he is no judge of Tea, or the MARKET, if his time is valuable, he has old the benefits of a well organized system of doing business, of an immense capital, of the judgment of a professional Tea Taster, and the knowledge of superior salesmen.

This enables al Tea buyers-no matter if they are thousands of miles from this market to purchase on as good terms here as the New York mer-

Parties can order Teas and will he served by us s well as though they came themselves, being sure to get original packages, frue weights and tares; and the Teas are warranted as represented.

\$100 REWARD! for a medicine that Coughs, Influenza, Tickling in the Throat, Whooping Cough, or relieve Consumptive Cough, as quick as

COE'S COUGH BALSAM.

Over Five Thousand Bottles have been sold in its native town, and not a single instance of its failure s known.

We have, in our possession, any quantity of cer-tificates, some of them from EMINENT PHYSICI-ANS, who have used it in their practice, and given it the preeminence over any other compound.

It does not Dry up a Cough,

but loosens it, so as to enable the patient to expectorate freely. Two or three doses will invariably cure Tickling in the Thront. A half bottle has of ten completely cured the most stubbonn cough, and yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be adminig tered to children of any age. In cases of CROUF we will guarantee a cure, if taken in season.

No family should be without It.

It is within the reach of all, the price being only 25 Cents And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this knowing its merits, and feel confident that one trial will secure for it a home in every household.

Do not waste away with Coughing, when so small an investment will cure you. It may be had of

any respectable Druggist in town, who will furnish you with a circular of genuine certificates of cures it has made. C. G. CLARK & CO., Proprietors. New Haven, Ct.

EMEDY FOR HARD TIMES. A Rare Opportunity in the Best Market, and Most Delightful and Healthful Climate in the Union. Only thirty miles South of Philadelphia, on a Railroad; being a Rich, Heavy Soil, and Highly Productive Wheat Land; Amongst the Best in the Garden State

of New Jersey. It consists of 20,000 acres of GOOD land, divided into Farms of different sizes to suit the purchaser-FROM 20 ACRES AND UPWARDS—and is sold at the rate of from \$15 to \$20 per acre for the farm land, payable one-fourth cash, and the balance by quarteryearly installments, with legal interest, within the

term of four years.

The Soil is, in great part, a Rich Clay Loam, suitable for Wheat, Grass and Potatoes—also a dark and rich sandy loam, suitable for corn, sweet-potatoes, tobacco, all kinds of vegetables and root crops, and the finest varieties of fruit, such as Grapes, Pears, Peaches, Apricots, Nectarines, Blackberries, Melens and other fruits, best adapted to the Philadelphia and New York Markets. In respect to the soil and crops there can be no mistake, as visitors can examine both, and none are expected to buy before so doing, and finding these statements correct-under hese circumstances, unless these statements were correct, there would be no use in their being made. It is considered the best Fruit soil in the Union. [See Reports of Solon Robinson, Esq., of the New York Tribune, and the well-known agriculturist.

William Parry, of Cinnaminson, New Jersey, which will be furnished inquirers.] The Market .-- By looking over a map the reader will perceive that it enjoys the best market in the Union, and has direct communication with New York and Philadelphia twice a day, thing only thirty-two miles from the latter. Produce 1: this market brings double the price that it does in locations distant from the cities. In this location it can be put into market the same morning it is gathered, and for what the farmer sells he gets the highest price: whilst groceries and other articles he purchases he gets at the lowest price. In the West, what he sells brings him a pittance, but for what he buys he pays two prices. In locating here the settler has many other advantages. He is within a few hours, by railroad, of all the great cities of New England and the Middle States. He is near his old friends and associations. He has school for his children, di-

and he is near a large city.
The Climate is delightful; the winters being salubrious and open, whilst the summers are no warmer than in the North. The location is upon the line of latitude with northern Virginia.

vine service, and all the advantages of civilization.

Persons Wanting a change of Climate for Health, would be much benefitted in Vineland. The mildness of the climate and its bracing influence, makes it excellent for all pulmonary affections, dyspepsia or general debility. Visitors will notice a difference in a few days. Chills and fevers are unknown. Conveniences at Hand .- Building material is plen

ty. Fish and oysters are plenty and cheap.
Visitors must expect, however, to see a new place. Why the Property has not been Settled Before?— This question the reader naturally asks. It is because it has been held in large tracts by families not disposed to sell, and being without railroad facilities they had few inducements. The Railroad has just been opened through the property this season, for

the first time. Visitors are shown over the land in a carriage. free of expense, and afforded time and opportunity for thorough investigation. Those who come with a view to settle, should bring money to secure their

purchases, as locations are not held upon refusal. The Safest thing in Hard Times, where people have been thrown out of employment or business, and possess some little means or small incomes, is to start themselves a home. They can buy a piece of land at a small price, and earn more than wakes in improving it, and when it is done it is a certain independence and no iscs. A few acres in fruit trees will insure a comfortable living. The land is put down to hard times, and all improvements can be made at a chealer rate than most any other time.

The whole trace, with six miles front on the railroad, is being laid out with fine and spacious avenues, with a town in the centre-five acre lots in the town sett at "rom \$150 to \$200; two and a-half acre lets, at from \$80 to \$120, and town lots 50 feet front by 150 feet deep, at \$100—payable one half cash and the chalance within a year. It is only upon farins of twenty acres, or more, that four years'

To Manufacturers, the town affords a fine opening for the Shoe manufacturing business, and other ar ticles, being near Philadelphia, and the surrounding country has a large population, which affords a good market.

This settlement, in the course of several years, will be one of the most beautiful places in the country, and most agreeable for a residence

It is intended to make it a Vine and Fruit growing country, as this culture is the most profitable and the best adapted to the market. Every advantage and convenience for settlers will be introduced which will insure the prosperty of the place. The hard times throughout the country will be an advan tage to the settlement, as it compels people to resort to agriculture for a living.

Large numbers of people are purchasing, and the

people who desire the best location should visit the place at once.

Improved Land is also for sale.

TIMBER.-Land, can be bought with or without limber. The Timber at market valuation. The title is indisputable. Warrantee Deeds given dear of all incumbrance, when the money is paid

Boarding conveniences at hand. Letters promptly answered, and Reports of Solon Robinson and Wm. Parry sent, together with the Vineland Rural'"

Route to the Land :- Leave Walnut street wharf. Philadelphia, at 9 o'clock, A. M., and 4 P. M., (unless there should be a change of hour,) for Vineland, on the Glassboro' and Millville Railroad. When you leave the cars at Vineland Station, just opened, inquire for

CHAS. K. LANDIS. Postmaster,

Vineland P. O., Cumberland Co., N. J. P. S -- There is a change of cars of Glassboro'. Also beware of sharpers on the cars from New York and Philadelphia to Vineland, inquiring your business, destination. &c. December 3, 1861-8mos.

ISSOLUTION OF PARTNERSHIP. Notice is hereby given that the co-partner-ship subsisting since April 1, 1861, between A. L. lawin and James M. Inwin. of Greencastle, Frankin county, Pa., under the firm and style of A. L lawin & Son, has been this day dissolved by mutual consent. The Books and Accounts of the late firm are in the hands of A. L. IRWIN for collection. All persons indebted to the late firm, are requested to nake immediate payment.

A. L. IRWIN, JAMES M. IRWIN. Greencastle, May 7, 1863.

The undersigned have this day (May 7. 1863. formed a copartnership, under the name and styl-of IRWIN & RHOADS, and having purchased the whole stock of goods, lately belonging to A. L. Inwin & Son, respectfully inform the people of Green castle and surrounding country, that they will continue the business on the South-east corner of the Public Square, where they invite all persons need ing Hardware, Oils and Paints to give them a call and examine their stock. Most of the goods have been purchased before the advance in prices in the cities, and will be sold greatly below their present value. Persons in need of Building Hardware, can obtain it at this house, cheaper than any where else in the county. Come where you can always get the worth of your money JAMES M. IRWIN,

CHARLES W. RHODES. Greencastle, May-12, 1863.-tf.

SALE BILLS PRINTED HERE, NEATLY AND within a two hours' cide out of Philadelphia.

Report of Solon Robinson,

OF THE NEW YORK TRIBUNE, UPON VINELAND SETTLEMENT. The following is an extract from the report of Solon Robinson, Esq., published in the New York Tribune, in reference to Vineland. All persons can re d this report with interest.

Advantages of Farming near Home-Vineland-Remarks upon Marl-Soil its great Fertility-The Cause of Fertility-Amount of Crops Produced-

Practical Evidence.

It is certainly one of the most extensive fertile tracts, n an almost level position, and suitable condition for pleasant furming that we know of this side of the western prairies. We found some of the oldest farms apparently just as profitable productive as when first cleared of forest fifty or a hundred years ago.

The geologist would soon discover the cause of this

continued fertility. The whole country is a marine deposit, and all through the soil we found evidences

calcareous substances, generally in the form of

indurated calcareous marl, showing many distinct forms of ancient shells, of the tertiary formation; and this marly substance is scattered all through the soil, in a very comminuted form, and in the exact condition most easily assimilated by such plasauts the farmer desires to cultivate. Marl, in all its forms, has been used to fertilize crops in England, from the time it was occupied by the Romans; and in France and Germany a mark bed is counted on as a valuable bed of manure, that can be dug and carted and spread over the field .-How much more valuable then it must be, when found

already mixed through the soil, where new particles will be turned up and exposed, and transformed to the owner's use every time he stirs the earth. Having then satisfied our minds of thecause, they will not be excited with wonder at seeing indubitable evidence of fertility in a soil which in other situations, baving the same general characteristics or at least appearances, is entirely unrenumerative except as its productiveness is promoted by artificial fertil-

ization. A lew words about the quality and value of this land for cultivation, of which we have some strong

proof. Our first visit was to William D. Wilson, Franklin township, Gloucester county, who purchased some eight miles north of Millville, about three years ago, for the purpose of establishing a steam mill, to work up the timber into lumber, to send off by the new railrond, as well as the firewood and coal, for which he built a branch track a mile and a half long. He also furnished sixteen miles of the road with ties, and has no doubt made the mill profitable, though his main object was to open a farm, having become convinced that the soil was valuable for cultivation. In this he has not been disappointed, as some of him crops prove. For instance, last year, the second time of cropping, 306 hushels of potatoes on one acre, worth 60 cents a bushel in the field. This year seven acres, without minure, produced 356 bushels of oats. In one field, the first crop was potatoes, planted among the roots, and yielded 75 bushels.— The potatoes were dug, and wheat sown, and yielded 16 bushels; and the stubble turned under and sown to buckwheat, which yielded 33\gamma hushels; and then the ground was sown to clover and timothy,

which gave as a first crop 2\frac{1}{4} tons per acre.

The fertilizers applied to these crops were first, ashes from clearings: second, 225 pounds of superphosphate of lime; third, 200 pounds Peruvian guano; then 50 bushels of slaked lime has been spread upon the clover since it was mowed, and turned in for wheat.

Mr. Wilson's growing crops, and the wheat stub-ble of the present season, all indicate his land as

productive as any part of the State. At Mary Barrow's, an old style Jersey woman farmer several miles south of Mr. Wilson's, we were so particularly struck with the fine appearance of . field of corn, that we stopped to inquire of the hired man how it was produced. We found that the land had been the year but one before in wheat, sown with clover, and this cut one season, and has spring plowed once, with one "poor old nag," and planted with corn.

"Yes, but you manured high, we suppose?" we said interrogatively, and got this reply: - 'Waal, you see, we couldn't a done that i 'cause

we hadn't but forty one-horse loads altogether, for 28 acres, and we wanted the most on't for the truck.

The truck consisted of beets, carrots, cabbage. cucumbers, melons, &c., and a very productive patch of Lima beans, grown for marketing. So we were satisfied that the soil was not . Ifertile, even unaided by clover, which had fed the corn, because the "truck patch" had not been in cultivation long enough to

bliterate all signs of the forest. O the large farm of Andrew Sharp, five miles north of Millville, from half to a mile east of the railroad, and just about in the centre of Vineland. Mr. Sharp commenced work here in December. 1858, upon 270 acres. In less than three years, he has got 234 acres cleared and in crops this season, as well inclosed and divided into several fields, with cedar rail or pole fence; has built a two-story dwelling, about 36 by 40 feet, and a smaller house for farm laborers, and a stable and

grunary and some other out buildings.

Considerable part of the land was cleared for the plow at \$9 an acre, and on some of it the first crop was buckwheat, limed with 50 bushels in powder per acre. This crop may be put in July 4th to 20th, and vields 20 to 30 bushels per acre, harvested in November; when the land being sowed with 150 lbs of Peruvian guano and seeded with rye, yielded 12 to 15 bushels per acre and \$10 worth of straw. The ryestubble turned, after knocking off a large growth of oak sprouts, and dressed again with guano and seeded to wheat, gave 15 or 16 bushels. The crop which he was threshing while we were there promises more, of a very plump grain, and the straw is

very heavy. We went over the stubble, and found the clover and timothy, from seed sowed last spring, on the wheat without harrowing. looking as well as we ever saw it upon any old cultivated farm, and with a little work done in the winter to clear off some roots and rotten stumps, and setting stakes to mark per-manent ones, he will be able to cut the crop the next year with a mowing machine, and we will guarantee wo tons per acre, if he will give the overplus if it averruns the estimate.

Part of the land was planted with potatoes for a first crop, which yielded 120 bushels per acre. It was then limed with 50 bushels per acre, and seeded with wheat and clover, yielded and average of over 15 bushels per acre, and the clover now looks beau-

Other portions have been planted with corn as a first crop, which yielded 30 bushels of yellow "int corn, and the second crop 40 bushels, and the third crop, treated to 150 bs. of guano, we are sure no one would estimate below 40 bushels per acre.

[The reader will recollect that the writer is now speaking of land perfectly new, and which can scarcely be considered in good arable condition -

In other cases, the corn crop of last year was followed with oats this season, not yet threshed, but will average probably 40 to 50 bushels. Sweet potatoes, beans, melons, and, in fact, all garden veg-etables, as well as young peach and other fruit trees planted this year show very plainly that this long neglected tract of land should remain so no longer, and there is now a strong probability that it will not; for under the auspices of Mr Landis, it will be divided into small lots, with roads located to accommodate all—the surveyor is now busy at this work-and all purchasers will be required to build neat comfortable houses, and either fence their lots in uniformity, or agree to live without fence, which would be preferable, by which means a good population will be secured, who will establish churches, schools, stores, mills, mechanic shops and homes-homes of American farmers, surrounded by gardens, orchards, fields and comforts of civilized life.

If may one, from any derangement of husiness, is desi: ous of changing his pursuits of life, or who s from any cause desirous to find a new location and chean home in the country, and who may read and helieve what we have truly stated, he will do well to go and see for himself what may be seen

SOLON ROBINSON,
