# **S**.

THE Secretary of the Treasury has not yet given notice of any intention to withdraw this popwhar Loan from Sale at Par, and until ten days notice is given, the undersigned, a GENERAL SUBSCRIPTION AGENT," will continue to supply

The whole amount of the Loan authorized is Five Hundred Millions of Dollars. NEARLY FOUR HUNDRED MILLIONS HAVE BEEN ALREADY SUBSCRIBED FOR AND PAID INTO THE TREA-SURY, mostly within the last seven months. The large demand from abroad, and the rapidly increasing home demand for use as the basis for circula tion by National Banking Associations now organising in all parts of the country, will, in a very short period, absorb the balance. Sales have lately ranged from ten to fifteen millions weekly, frequently exceeding three millions daily, and it is well known that the Secretary of the Treasury has ample a d un'aiting resources in the Duties on Imports and Internal Revenues, and in the issue of the Interest bearing Legal Tender Treasury Notes. it is almost a certainty that he will not find it neeessary, for a long time to come, to seek a market fer any other long or permanent Loans, THE IN-TEREST AND PRINCIPAL OF WHICH ARE PAY ABLE IN GOLD.

Prudence and self-interest must force the minds of these confemplating the formation of National Banking Associations, as well as the minds of all who have idle money on their hands, to the prompt conclusion that they should lose no time in subser bing to this most popular Loan. It will soon be beyond their reach, and advance to a handsome premium, as was the result with the "Seven Thirty" Lean, when it was all sold and could no longer be

subscribed for at par.
IT IS A SIX PER CENT LOAN, THE INTEREST AND PRINCIPAL PAYABLE IN COIN, THUS YIELDING OVER NINE PER CENT. PER ANNUM

at the present rate of premium on soin. The Government requires all duties on imports to be paid in Gold; these duties for a long time past west corner of the Public Square, next door to amounted to over a Quarter of a Million of Dollars daily, a sum nearly three times greater than that required in the payment of the interest on all the 20's and other permanent Loans. So that it is keped that the surplus Coin in the Treasury, at no distant day, will enable the United States to resume

specie payments upon all liabilities.

The Loan is called 5-20 from the fact that Bonds may run for 20 years, yet the Government has a right to pay them off in Gold at par, at any time

after 5 years.
THE INTEREST IS PAID HALF-YEARLY, viz:

on the first days of November and May.
Subscribers can have Coupon Bonds, which are payable to bearer, and are \$5%, \$100, \$500, and \$1000; or Registered Bonds of same decomina-tions, and in addition. \$5,000, and \$10,000. For Banking purposes and for investments of Trustmonies the Registered Bonds are preferable.

These 5-20's can be taxed by States, cittes, towns, or counties, and the Government tax on them is enty one-and-a-half per cent.. on the amount of income, when the income of the holder exceeds Six Hundred dollars per annum; all other investments such as income from Mortgages, Railroad Stock and Bonds, etc., must pay from three to five per cent. tax on the income.

Manks and Bankers throughout the Country will centinue to dispuse of the Bonds; and all orders by mail. or otherwise promptly attended to. The inconvenience of a few days' delay in the delivery of Bonds is unavoidable, the demand being

so great; but as interest commences from the day of subscription, no loss is occasioned, and every effert is being made to diminish the delay. JAY COOKE,

Subscription Agent,
114 South Third St., Philadelphia.
Dec. 8, 1868-3t.

COPPER and Brass Kettles, of all sizes, for sale cheap, at

The Great

AMERICAN TEA COMPANY 51 Vesey Street, New York;

Since its organization, has created a new era in the history of

Wholesaling Teas in this Country. They have introduced their selections of Teas, and are selling them at not over Two Cents (.02 Cents) per pound above Cost, never deviating from the ONE PRICE asked.

Another peculiarity of the company is that their THA TASTER not only devotes his time to the selectien of their Teas as to quality, value, and particuhar styles for particular localities of country, but he helps the TEA buyer to choose out of their enormous stock such TEAS as are best adapted to his peculiar wonts, and not only this, but points out to him the best bargains. It is easy to see the incalculable add vantage a Tea Buyen has in this establishment over all others. If he is no judge of TEA. or the MARKET if his time is valuable, he has all the benefits of a well organized system of doing business, of an immense capital, of the judgment of a professional Tea Tuster, and the knowledge of superior salesmen.

This enables al Tea buyers no matter if they are thousands of miles from this market to purchase on as good terms here as the New York mer

Parties can order Tens and will be served by us se well as though they came themselves, being sure get original packages, true weights and tares; and the Tens are warranted as represented.

We issue a Price List of the Company's Teas which will be sent to all who order it: comprising Hyson, Young Hyson, Imperial, Gunpowder, Twankay and Skin.

Oolong, Southong, Orange and Hyson Peko, Tapan Tea of every description, colored and uncolored This list has each kind of Ten divided into Four Classes, namely: CARGO, high CARGO, FINE FINEST, that every one may understand from de scription and the prices annexed that the Company are determined to undersell the whole Tea trade.

We guarantee to sell all our Tens at not over TWO CENTS (.02 Cents) per pound above cost, helieving this to be attractive to the many who have heretofore been paying Enormous Profits. Great American Tea Company,

Importers and Jobbers, Sopt. 15, 1868-Sm.] No. 51 Vesey St., N. Y. \$100 REWARD! for a medicine that

Coughs, Influenza, Tickling in the Throat, Whooping Cough, or relieve Consumptive Cough, as quick as

#### COE'S COUGH BALSAM.

Over Five Thousand Bottles have been sold in its ative town, and not a single instance of its failure is kuewn.

We have, in our possession, any quantity of cer-tificates, some of them from EMINENT PHYSICI-ANS, who have used it in their practice, and given it the preeminence over any other compound.

It does not Dry up a Cough, but lossens it, so as to enable the patient to expecterate freely. Two or three doses will invariably cure Tickling in the Throat. A half bottle has often completely cured the most STUBBORN COUGH, and yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age. In cases of CROUP we will guarantee a cure, if taken in season.

### No family should be without It.

It is within the reach of all, the price being only 25 Cents And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this knowing its merits, and feel confident that one trial will secure for it a home in every household.

Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable Druggist in town, who will furnish you with a circular of genuine certificates of cures it has made. C. G. CLARK & CO.,

DAVID H. HUTCHISON. WELLS COVERLY. OVERLY & HUTCHISON Have become the Proprietors of the UNITED STATES HOTEL, near the Railroad Depot at HAR-RISBURG, Pa. This popular and commodious Hotel has been newly refitted and furnished throughout its parlors and chambers, and is now ready for

the reception of guests.

The traveling public will find the United States Hotel the most convenient, in all particulars of any Hotel in the State Capital, on account of its access to the railroad, being immediately between the two great depots in this city Harrisburg, August 4, '63-3m.

### GREENCASTLE SEMINARY.

## MALE AND FEMALE

HE subscriber will open a Male and Female Semi-I nary at Greencastle, on the first Monday of October next. Instruction will be given in all the Branches usually taught in a first class school. MUSIC and other Ornamental Branches will be taught by an experienced Female Teacher. A limited number of pupils will be received into the family of the Principal, as Boarders. For terms and further information, address JOS. S. LOOSE. Greenoastle, Sept. 22, 1868,-2m.

DISSOLUTION OF PARTNERSHIP. Notice is hereby given that the partnership beretofore existing between M. S. Gordon & David Bock, of Greencastle, under the style of M. S. Gordon & Co., was by mutual consent, dissolved on the Slat day of December, 1868. All debts owing to the said partnership are to be paid and received by M. S. Gordon: and all demands on the said partmership are to be presented to him for payment.
M. S. GORDON,

M. S. Gondon will still continue the business of East Baltimore Street, at the old stand. Thankful fer past patronage he still solicits a continuance of M. S. GORDON.

DAVID BOCK,

Greencastle, January 5, 1863.-tf.

VINEEAND. TO ALL WANTING FARMS New Settlement of Vineland.

EMEDY FOR HARD TIMES. A Rare Opportunity in the Best Market, and Most Delightful and Healthful Climate in the Union. Only thirty miles South of Philadelphia, on a Railroad; being a Rich, Heavy Soil, and Highly Productive Wheat Land; Amongst the Best in the Garden State

of New Jersey. It consists of 20,000 acres of GOOD land, divided into Farms of different sizes to suit the purchaser-FROM 20 ACRES AND UPWARDS—and is sold at the rate of from \$15 to \$20 per acre for the farm land, payable one-fourth cash, and the balance by quarteryearly installments, with legal interest, within the term of four years.

The Soil is, in great part, a Rich Clay Loam, suitable for Wheat, Grass and Potatoes—also a dark and rich sandy leam, suitable for corn, sweet-potatoes, tobacco, all kinds of vegetables and root crops, and the finest varieties of fruit, such as Grapes, Pears, Peaches, Apricots, Nectarines, Blackberries, Melons and other fruits, best adapted to the Philadelphia and New York Markets. In respect to the soil and crops there can be no mistake, as visitors can examine both, and none are expected to buy before so doing, and finding these statements correct-under these circumstances, unless these statements were correct, there would be no use in their being made. It is considered the best Fruit soil in the Union.

[See Reports of Solon Robinson, Esq., of the New York Tribune, and the well-known agriculturist, William Parry, of Cinnaminson, New Jersey, which

will be furnished inquirers.] The Market. -- By looking over a map the reader will perceive that it enjoys the best market in the Union, and has direct communication with New York and Philadelphia twice a day, being only thirty-two miles from the latter. Producer this market brings double the price that it does in locations distant from the cities. In this location it can be put into market the same morning it is gathered, and for what the farmer sells he gets the highest price: whilst groceries and other articles he purchases he gets at the lowest price. In the West, what he sells brings him a pittance, but for what he buys he pays two prices. In locating here the settler has many other advantages. He is within a few hours, by railroad, of all the great cities of New England and the Middle States. He is near his old friends and associations. He has school for his children, divine service, and all the advantages of civilization,

and he is near a large city.

The Climate is delightful; the winters being salubrious and open, whilst the summers are no warmer than in the North. The location is upon the line of latitude with northern Virginia.

Persons Wanting a change of Climate for Health, would be much benefitted in Vineland. The mild. ness of the climate and its bracing influence, makes it excellent for all pulmonary affections, dyspepsia or qeneral debility. Visitors will notice a difference in a few days. Chills and fevers are unknown. Conveniences at Hand.—Building material is plen-

y. Fish and oysters are plenty and cheap. Visitors must expect, however, to see a new place. Why the Property has not been Settled Before?— This question the reader naturally asks. It is because it has been held in large tracts by families not disposed to sell, and being without railroad facilities they had few inducements. The Railroad has just been opened through the property this season, for

the first time. Visitors are shown over the land in a carriage free of expense, and afforded time and opportunity for thorough investigation.' Those who come with a view to settle, should bring money to secure their purchases, as locations are not held upon refusal.

The Safest thing in Hard Times, where people have been thrown out of employment or business. and possess some little means or small incomes, is to start themselves a home. They can buy a piece of land at a small price, and earn more than wayes in improving it, and when it is done it is a certain independence and no 1088. A few acres in fruit trees will insure a comfortable living. The land is put down to hard times, and all improvements can be

made at a cheaper rate than most any other time. The whole true, with six miles front on the rail-road, is being laid out with fine and spacious avenues, with tewn in the centre—five acre lots in the town sell at tem \$150 to \$200; two and a-half acre lots, at from \$80 to \$120, and town lots 50 feet front by 150 feet deep, at \$100-payable ene-half cash and bite balance within a year. It is only upon farms of twenty acres, or more, that four years'

"To Manufacturers, the town affords a fine opening for the Shoe manufacturing business, and other articles, being near Philadelphia, and the surrounding country has a large population, which affords a

good market. This settlement, in the course of several years, will be one of the most beautiful places in the country, and most agreeable for a residence.

It is intended to make it a Vine and Fruit growing country, as this culture is the most profitable and the best adapted to the market. Every advan-tage and convenience for settlers will be introduced which will insure the prosperty of the place. The hard times throughout the country will be an advantage to the settlement, as it compels people to resort

to agriculture for a living.
Large numbers of people are purchasing, and the people who desire the best location should visit the place at once.

Improved Land is also for sale. TIMBER.-Land can be bought with or without Timber. The Timber at market valuation.

The title is indisputable. Warrantee Deeds given clear of all incumbrance, when the money is paid. Boarding conveniences at hand. Letters promptly answered, and Reports of Solon Robinson and Wm. Parry sent, together with the

Route to the Land :- Leave Walnut street wharf, Philadelphia, at 9 o'clock, A. M., and 4 P. M., (unless there should be a change of hour,) for Vineland, on the Glassboro' and Millville Railroad. When you leave the cars at Vineland Station, just opened,

inquire for CHAS. K. LANDIS. Postmaster,

Founder of the Colony, Vineland P. O., Cumberland Co., N. J. P. S -- There is a change of cars of Glassboro'. Also beware of sharpers on the cars from New York and Philadelphia to Vineland, inquiring your business, destination, &c.

December 3, 1861-8mos. I ISSOLUTION OF PARTNERSHIP. Notice is hereby given that the co-partner-ship subsisting since April 1, 1861, between A. L. IRWIN and JAMES M. IRWIN, of Greencastle, Frank in county, Pa., under the firm and style of A. L IRWIN & Son, has been this day dissolved by mutual consent. The Books and Accounts of the late firm are in the hands of A. L. IRWIN for collection. All persons indebted to the late firm, are requested to make immediate payment.

A. L. IRWIN, JAMES M. IRWIN.

Greencastle, May 7, 1863.

The undersigned have this day (May 7, 1863, formed a copartnership, under the name and styl RHOADS, and having purchased the whole stock of goods, lately belonging to A. L. In win & Son, respectfully inform the people of Green castle and surrounding country, that they will con tinue the business on the South-east corner of the Public Square, where they invite all persons need ing Hardware, Oils and Paints to give them a cal and examine their stock. Most of the goods have heen purchased before the advance in prices in the cities, and will be sold greatly below their presents value. Persons in need of Building Hardware, can obtain it at this house, cheaper than any where else in the county. Come where you can always get the worth of your money. JAMES M. IRWIN,

CHARLES W. RHODES. Greencastle, May 12, 1863.-if.

SALE BILLS PRINTED HERE, NEATLY AND within a two hours ride out of Philadelphia.

Report of Solon Robinson. OF THE NEW YORK TRIBUNE, UPON THE

VINELAND SETTLEMENT The following is an extract from the report of Solon Robinson, Esq., published in the New York Tribune, in reference to Vineland. All persons one read this report with interest.

Advantages of Farming near Home-Vineland-Remarks upon Marl-Soil, its great Fertility-The Cause of Fertility-Amount of Crops Produced-Practical Evidence.

It is certainly one of the most extensive fertile tracts, n an almost level position, and suitable condition for pleasant furming that we know of this side of the western prairies. We found some of the oldest farms apparently just as profitable productive as when first cleared of forest fifty or a hundred years ago.

The geologist would soon discover the cause of this continued fertility. The whole country is a marine deposit, and all through the soil we found evidences of calcareous substances, generally in the form of indurated calcareous marl, showing many distinct forms of ancient shells, of the tertiary formation; and this marly substance is scattered all through the soil, in a very comminuted form, and in the exact condition most easily assimilated by such plasants the farmer desires to cultivate.

Marl, in all its forms, has been used to fertilize crops in England, from the time it was occupied by the Romans; and in France and Germany a murl bed is counted on as a valuable bed of manure, that can be dug and carted and spread over the field.— How much more valuable then it must be, when found already mixed through the soil, where new particles will be turned up and exposed, and transformed to the owner's use every time he stirs the earth. Having then satisfied our minds of the cause, they

will not be excited with wonder at seeing indubitable evidence of fertility in a soil which in other situations, having the same general characteristics or at least appearances, is entirely unrenumerative except as its productiveness is promoted by artificial fertil-

A few words about the quality and value of this land for cultivation, of which we have some strong

Our first visit was to William D. Wilson, Franklin township, Gloucester county, who purchased some eight miles north of Millville, about three years ago, for the purpose of establishing a steam mill, to work up the timber into lumber, to send off by the new railroad, as well as the firewood and coal, for which he built a branch track a mile and a half long. He also furnished sixteen miles of the road with ties, and has no doubt made the mill profitable, though his main object was to open a farm, having become convinced that the soil was valuable for cultivation. In this he has not been disappointed, as some of his crops prove. For instance, last year, the second time of cropping, 306 bushels of potatoes on one acre, worth 60 cents a bushel in the field. This year seven acres, without manure, produced 356 bushels of oats. In one field, the first crop was potatoes, planted among the roots, and yielded 75 bushels.— The potatoes were dug, and wheat sown, and yielded 16 bushels; and the stubble turned under and sown to buckwheat, which yielded 33% bushels; and then the ground was sown to clover and timothy.

which gave as a first crop 24 tons per acre.

The fertilizers applied to these crops were first. ashes from clearings: second, 225 pounds of super-phosphate of lime; third, 200 pounds Peruvian gu ano; then 50 bushels of slaked lime has been spread upon the clover since it was mowed, and turned in

Mr. Wilson's growing crops, and the wheat stubble of the present season, all indicate his land as productive as any part of the State.

At Mary Barrow's, an old style Jersey woman farmer, several miles south of Mr. Wilson's, we were so particularly struck with the fine appearance of . field of corn, that we stopped to inquire of the hires man how it was produced. We found that the land had been the year but one before in wheat, sown with clover, and this cut one season, and last suring plowed once, with one "poor old nag," and planted with corn.

"Yes, but you manured high, we suppose?" we said interrogatively, and got this reply:-"Waal, you see, we couldn't a done that; 'cause we hadn't but forty one-horse loads altogether, for

23 acres, and we wanted the most on't for the truck. The truck consisted of beets, carrots, cabbaze, cucumbers, melons, &c., and a very productive patch of Lima beans, grown for marketing. So we were satisfied that the soil was not infertile, even unaided by clover, which had fed the corn, because the "truck patch" had not been in cultivation long enough to obliverate all signs of the forest.

Our next visit was to the large farm of Andrew Sharp, five miles north of Millville, from half to a mile east of the railroad, and just about in the centre of Vineland. Mr. Sharp commenced work here in December, 1858, upon 270 acres. In less than three years, he has got 234 acres cleared and in crops this season, as well inclosed and divided inte several fields; with cedar rail or pole fence; has built a two-story dwelling, about 36 by 40 feet, and a smaller house for farm laborers, and a stable and

granary and some other out buildings.

Considerable part of the land was cleared for the plow at \$9 an acre, and on some of it the first crop was buckwheat, limed with 50 bushels in powder per acre. This crop may be put in July 4th to 20th, and yields 20 to 30 bushels per acre, harvested in November; when the land being sowed with 150lbs of Peruvian guano and seeded with ryc, yielded 12 to 15 bushels per acre and \$10 worth of straw. The ryestubble turned, after knocking off a large growth of oak sprouts, and dressed again with guano and seeded to wheat, gave 15 or 16 bushels. The crop which he was threshing while we were there promises more, of a very plump grain, and the straw is

very heavy.
We went over the stubble, and found the clover and timothy, from seed sowed last spring, on the wheat without harrowing, looking as well as we ever saw it upon any old cultivated farm, and with a little work done in the winter to clear off some roots and rotten stumps, and setting stakes to mark permanent ones, he will be able to cut the crop the next year with a mowing machine, and we will guarantee two tons per acre, if he will give the overplus if it overruns the estimate.

Part of the land was planted with potatoes for a first crop, which yielded 120 bushels per acre. It was then limed with 50 bushels per acre, and seeded with wheat and clover, yielded and average of over 15 bushels per acre, and the clover now looks beau-

Other portions have been planted with corn as a

first crop, which yielded 30 bushels of yellow fint

corn, and the second crop 40 bushels, and the third crop, treated to 150fbs. of guana, we are sure no one would estimate below 40 bushels per acre. [The reader will recollect that the writer is now speaking of land perfectly new, and which can

carcely be considered in good arable condition -

ED.] In other cases, the corn crop of last year was followed with oats this season, not yet threshed, but will average probably 40 to 50 bushels. Sweet potatoes, beans, melons, and, in fast, all garden vegetables, as well as young peach and other fruit trees planted this year show very plainly that this long neglected tract of land should remain so no longer, and there is now a strong probability that it will not; for under the auspices of Mr Landis, it will be divided into small lors, with roads located to accommodate all-the surveyor is now busy at this work and all purchasers will be required to build neat comfortable houses, and either fence their lots in uniformity, or agree to live without fence, which would be preferable, by which means a good population will be secured, who will establish churches, schools, stores, mills, mechanic shops and homes-homes of American farmers, surrounded by gardens, crohards, fields and comforts of civ-

ilized life. If any one, from any derangement of business, is desirous of changing his pursuits of life, or whe is from any cause desirous to find a new location and ol cap home in the country, and who may read und believe what we have truly stated, he will do well to go and see for himself what may be seen
