HUMAN MISERY.

A Lecture on the Nature, Treatment and Radical Cure of Seminal Weakness, or Spermatorrhoen, induced from Self-Abuse; Involuntary Emissions, Impotency, Nervous Debility, and Impediments to Marriage generally; Consumption, Epilepsy and Fits; Mental and Physical Incapacity, de.-By Robt. J. Culverwell, M. D., Author of "The Green Book," &c.

The world-renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Self-abuse may be effectually removed without medicine, and without dangrous surgical operations, beugies, instruments, rings, or cordinis, pointing out a mode of cure at once certain and effectual, by which every sufferer, one matter what his condition may be, may cure him-self cheaply, privately and radically. This lecture will prove a boon to thousands and thousands. Sent under seal, in a plain envelope, to any ad-

dress, on receipt of six cents, or two postage stamps, by addressing the publishers,

# GREAT DISCOVERY! KUNKEL'S Bitter Wine of Iron.

For the cure of weak stomachs, general debility, indigestion, diseases of the nervous system, constipa-tion, acidity of the stomach, and for all cases re-

quiring a tonic. This wine includes the most agreeable and efficient Salt of Iron we possess; Citrate of Magnetic Oxide combined, with the most energetic of vegetable tonics. Yellow Peruvian Bark. The effect in many cases of debility, loss of appetite, and general prostration of an efficient Salt of Iren, combined with our valuable Nerve Tonic, is most happy. It augments the appetite, raises the pulse, takes off mns cular flabbiness, removes the palor of debitity, and

gives a florid vigor to the countenance. Do you want something to strengthen you?

Do you want a good appetite?

Do you want to build up your constitution?

Do you want to feel well?

Do you want to get rid of nervousness? Do you want energy?

Do you want to eleep well? Do you want a brisk and vigorous feeling? you do, try

### Kunkel's Bitter Wine of Iron!

This truly valuable Tonic has been so theroughly ested by all classes of the community that it is now deemed indispensable as a tenic stedicine. It costs but little, purifies the blood, and gives tone to the stomach, renovates the system. and prolongs life I now only ask a trial of this valuable tonic. COUNTERFEITS.

BEWARE OF COUNTERFRITS .- As KUNKEL'S BITTER WINE or IRON is the only sure and effectual remedy in the known world for Dyspessia and Debility, and as there are a number of imitations offered to the public, we would caution the community to purchase none but the genuine article, manufactured by S. A. KUNKEL, and has his stamp on the top of the cork of every bottle. The very fact that others are attempting to imitate this valuable remedy proves its worth and speaks volumes in its favor.

The BITTER WINE of IRON is put up in 75 cent and \$1 bottles, and sold by all respectable druggists throughout the country. Be particular that every hottle bears the fac simile of the proprietor's signa-

General Depot, 118 Macket st., Harrisburg. Pa. For sale in Greencastle, by J. H. HOSTETTER, and all respectable dealers throughout the county. Prepared and sold. Wholesale and Retail, by KUNKEL & BORTHER.

Apothecarys, 118 Market Street, [Nov9,'63-6m] Harrisburg.

# 5-20'S.

THE Secretary of the Treasury has not yet given notice of any intention to withdraw this popular Loan from Sale at Par, and until ten days no ttee is given, the undersigned, a. "GENERAL SUBSCRIPTION AGENI," will continue to supply

the public. The whole amount of the Loan authorized is Five Hundred Millions of Dollars. NEARLY FOUR HUNDRED MILLIONS HAVE BEEN ALREADY SUBSCRIBED FOR AND PAID INTO THE TREA-NURY, mostly within the last seven months. The large demand from abroad, and the rapidly increas ing home demand for use as the basis for circula tion by National Banking Associations now organ izing in all parts of the country, will, in a very short period, absorb the balance. Sales have lateshort period, absorb the balance. ly ranged from ten to tifteen millions weekly, frequently exceeding three millions daily, and it is well known that the Secretary of the Treasury has ample and unfailing resources in the Duties on Imports and Internal Revenues, and in the issue of the Interest bearing Legal Tender Treasury Notes, Stoves. Among them are the Continental, Noble it is almost a certainty that he will not find it ne cessary, for a long time to come, to seek a market for any other long or permanent Loans, THE INTEREST AND PRINCIPAL OF WHICH ARE PAY-ABLE IN GOLD.

Prudence and self-interest must force the minds of these contemplating the formation of National Banking Associations, as well as the minds of all who have idle money on their hands, to the prompt conclusion that they should lose no time in subseribing to this most popular Loan. It will soon be beyond their reach, and advance to a handsome premium, as was the result with the "Seven Thirty" Loan, when it was all sold and could no longer be

subscribed for at par. IT IS A SIX PER CENT LOAN, THE INTEREST AND PRINCIPAL PAYABLE IN COIN, THUS YIELDING OVER NINE PER CENT. PER ANNUM

at the present rate of premium on min. The Government requires all duties on imports to be paid in Gold; these duties for a long time past amounted to over a Quarter of a Million of Dollars daily, a sum nearly three times greater than that required in the payment of the interest on all the 5-20's and other permanent Loans. So that it is heped that the sarplus Coin in the Treasury, at no distant day, will enable the United States to resume

specie payments upon all lisbilities. The Loan is called 5-20 from the fact that Bonds may run for 20 years, yet the Government has a right to pay them off in Gold at par, at any time

after 5 years.
THE INTEREST IS PAID HALF-YEARLY, viz:

on the first days of November and May.
Subscribers can have Coupon Bonds, which are
payable to bearer, and are \$5°, \$100, \$500, and \$1000; or Registered Bonds of same denominations, and in addition. \$5,000, and \$10,000. For Banking purposes and for investments of Trustmonies the Registered Bonds are preferable.

These 5-20's can be taxed by States, cities, towns, or counties, and the Government tax on them is only one-and-a-half per cent., on the amount of income, when the income of the holder exceeds Six Hundred dollars per annum; all other investments such as income from Mortgages, Railroad Stock and Bonds, etc., must pay from three to five per

cent, tax on the income. Manks and Bankers throughout the Country will continue to dispose of the Bonds; and all orders by mail, or otherwise promptly attended to.

The inconvenience of a few days' delay in the delivery of Bon's is unavoidab'e, the demand being sa great; but as interest commences from the day of subscription, no loss is occasioned, and every effort is being made to diminish the delay.

JAY COOKE,

Subscription Agent, 114 South Third St., Philadelphia. Dec. 8, 1893-31.

SALE BILLS PRINTED HERE, NEATLY AND be furnished.

AMERICAN TEA COMPANY, TO ALL WANTING FARMS. 51 Vesey Street, New York;

Since its organization, has created a new era in the A history of

Wholesaling Teas in this Country. They have introduced their selections of Teas, and are selling them at not over Two Cents (.02 Cents) per pound above Cost, never deviating from the ONE PRICE asked.

Another peculiarity of the company is that their TEA TABLER not only devotes his time to the selection of their Teas as to quality, value, and particu lar styles for particular localities of country, but he helps the TEA buyer to choose out of their enormous stock such TEAS as are best adapted to his peculiar wants, and not only this, but points out to him the best bargains. It is easy to see the incalculable advantage a TEA BUYER has in this establishment over all others. If he is no judge of Tea, or the Marker. if his time is valuable, he has all the benefits of a well organized system of doing business, of an immense capital, of the judgment of a professional Tea Tuster, and the knowledge of superior salesmen.

This enables at Tea buyers—no matter if they are thousands of miles from this market—to purchase on as good terms here as the New York mer-

Parties can order Teas and will be served by us as well as though they came themselves, being sure get original packages, true weights and tares and the Teas are warranted as represented.

We issue a Price List of the Company's Teas. which will be sent to all who order it; comprising Hyson, Young Hyson, Imperial, Gunpowder, Twankay and Skin.

Oolong, Southong, Orange and Hyson Peko. Japan Tea of every description, colored and uncolored This list has each kind of Tea divided into Four Classes. namely: CARGO, high CARGO, FINE,

FINEST, that every one may understand from de-

scription and the prices annexed that the Company

are determined to undersell the whole Tea trade. We guarantee to sell all our Teas at not over TWO CENTS (.02 Cents) per pound above cost, believing this to be attractive to the many who have heretofore been paying Enormous Profits.

Great American Tea Company,

### New Settlement of Vineland. EMEDY FOR HARD TIMES.

A Rare Opportunity in the Best Market, and Most Delightful and Healthful Climate in the Union. Only thirty miles South of Philadelphia, on a Railroad; being a Rich, Heavy Soil, and Highly Productive Wheat Land; Amongst the Best in the Garden State

of New Jersey. It consists of 20,000 acres of GOOD land, divided nto Farms of different sizes to suit the purchaserrrow 20 acres and upwards—and is sold at the rate of from \$15 to \$20 per sere for the farm land, payable one-fourth cash, and the balance by quar yearly installments, with legal interest, within the erm of four years.

The Soil is, in great part, a Rich Clay Loam, suitable for Wheat, Grass and Potatoes-also a dark and rich sandy loam, suitable for corn, sweet-potatoes, obacco, all kinds of vegetables and root crops, and the finest varieties of fruit, such as Grapes, Pears, Peaches, Apricots, Nectarines, Blackberries, Melens and other fruits, best adapted to the Philadelphia and New York Markets. In respect to the soil and crops there can be no mistake, as visitors can examine both, and none are expected to buy before so doing, and finding these statements correct—under these circumstances, unless these statements were correct, there would be no use in their being made. It is considered the best Fruit soil in the Union.

[See Reports of Solon Robinson, Esq., of the New York Tribune, and the well-known agriculturist, William Parry, of Cinnaminson, New Jersey, which will be furnished inquirers.]

The Market. -- By looking over a map the reader will perceive that it enjoys the best market in the Union, and has direct communication with New York and Philadelphia twice a day, being only thirty-two miles from the latter. Produce : this market brings double the price that it does in locations distant from the cities. In this location it can be put into market the same morning it is gathered, and for what the farmer sells he gets the highest price: whilst groceries and other articles he purchases he gets at the lowest price. In the West, what he sells brings him a pittance, but for what he buys he pays two prices. In locating here the settler has many other advantages. He is within a few hours, by railroad, of all the great cities of New England and the Middle States. He is near his old friends and associations. He has school for his children, divine service, and all the advantages of civilization,

and he is near a large city.

The Climate is delightful; the winters being salubrious and open, whilst the summers are no warmer than in the North. The location is upon the line of latitude with northern Virginia.

Persons Wanting a change of Climate for Health, would be much benefitted in Vineland. The mildness of the climate and its bracing influence, makes it excellent for all pulmonary affections, dyspepsia or general debility. Visitors will notice a difference in a few days. Chills and fevers are unknown. Conveniences at Hand .- Building material is plen-

y. Fish and oysters are plenty and cheap. Visitors must expect, however, to see a new place. Why the Property has not been Settled Before?— This question the reader naturally asks. It is be-

cause it has been held in large tracts by families not disposed to sell, and being without railroad facilities they had few inducements. The Railroad has just been opened through the property this season, for the first time.

Visitors are shown over the land in a carriage, free of expense, and afforded time and opportunity for thorough investigation. Those who come with a view to settle, should bring money to secure their

purchases, as locations are not held upon refusal. The Safest thing in Hard Times, where people have been thrown out of employment or business, and possess some little means or small incomes, is to start themselves a home. They can buy a piece of land at a small price, and earn more than wases in improving it, and when it is done it is a certain independence and no 1343. A few acres in fruit trees will insure a comfortable living. The land is put down to hard times, and all improvements can be made at a cheaper rate than most any other time.

The whole tract, with six miles front on the railroad, is being laid out with fine and spacious avenues, with a town in the centre-five acre lots in the town sell at from \$150 to \$200; two and a-half acre lots, at from \$80 to \$120, and town lots 50 feet front by 159 feet deep, at \$100-payable ene-half cash and and balance within a year. It is only upon farms of twenty zeres, or more, that four years'

time is given. To Manufacturers, the town affords a fine opening country has a large population, which affords a good market.

This settlement, in the course of several years, will be one of the most beautiful places in the country, and most agreeable for a residence.

It is intended to make it a Vine and Fruit grow ing country, as this culture is the most profitable and the best adapted to the market. Every advantage and convenience for settlers will be introduced which will insure the prosperty of the place. The hard times throughout the country will be an advantage to the settlement, as it compels people to resort

o agriculture for a living.

Large numbers of people are purchasing, and the people who desire the best location should visit the

place at once.
Improved Land is also for sale. TIMBER.-Land can be bought with or without

Timber. The Timber at market valuation.

The title is indisputable. Warrantee Deeds given lear of all incumbrance, when the money is paid. Boarding conveniences at hand. Letters promptly answered, and Reports of Solon

Robinson and Wm. Parry sent, together with the "Vineland Rural." Route to the Land :- Leave Walnut street wharf, Philadelphia, at 9 o'clock, A. M., and 4 P. M., (unless there should be a change of hour,) for Vineland. on the Glassboro' and Millville Railroad. When you leave the cars at Vineland Station, just opened,

inquire for CHAS. K. LANDIS. Postmaster, Founder of the Colony Vineland P. O., Cumberland Co., N. J. P. S -- There is a change of cars of Glassboro'. Also beware of sharpers on the cars from New York

and Philadelphia to Vineland, inquiring your busiess, destination. &c. December 3, 1861-8mos. DISSOLUTION OF PARTNERSHIP. -Notice is hereby given that the co-partner-ship subsisting since April 1, 1861, between A. L. IRWIN and JAMES M. IRWIN, of Greencastle, Franktin county, Pa., under the firm and style of A. L

lawin & Son, has been this day dissolved by mutual

consent. The Books and Accounts of the late first

are in the hands of A. L. IRWIN for collection.

persons indebted to the late firm, are requested to nake immediate payment. A. L. IRWIN, JAMES M. IRWIN.

Greencastle, May 7, 1863. The undersigned have this day (May 7, 1863.

formed a coparinership, under the name and stylf Irwin & Rhoads, and having purchased the whole stock of goods, lately belonging to A. L. In WIN & Son, respectfully inform the people of Green castle and surrounding country, that they will con inue the business on the South-east corner of the Public Square, where they invite all persons need ing Hardware. Oils and Paints to give them a cal. and examine their stock. Most of the goods have been purchased before the advance in prices in the cities, and will be sold greatly below their present value. Persons in need of Building Hardware, can bhtain it at this house, cheaper than any where else in the county. Come where you can always get the worth of your money.

JAMES M. IRWIN. CHARLES W. RHODES. Greencastle, May 12, 1863.-tf.

Report of Solon Robinson,

OF THE NEW YORK TRIBENE, UPON THE VINELAND SETTLEMENT The following is an extract from the report of Solon Robinson, Esq., published in the New York Tribune, in reference to Vineland. All persons can

re. d this report with interest.

Advantages of Farming near Home—Vineland—Remarks upon Marl—Soil, its great Fertility—The Cause of Fertility-Amount of Crops Produced-Practical Evidence.

It is certainly one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the uestern prairies. We found some of the oldest farms opporently just as profitable productive as when first cicared

of forest fifty or a hundred years ago.

The geologist would soon discover the cause of this continued fertility. The whole country is a marine. deposit, and all through the soil we found evidences of calcareous substances, generally in the form of indurated calcareous mari, showing many distinct forms of ancient shells, of the tertiary formation; and this marly substance is scattered all through the soil, in a very comminuted form, and in the exact condition most easily assimilated by such plasants the farmer desires to cultivate.

Marl, in all its forms, has been used to fertilize crops in Eugland, from the time it was occupied by the Romans; and in France and Germany a mark bed is counted on as a valuable bed of manure, that can be dug and carted and spread over the field.—
How much more valuable then it must be, when found already mixed through the soil, where new particles will be turned up and exposed, and transformed to the owner's use every time he stirs the earth.

Having then satisfied our minds of the cause, they will not be excited with wonder at seeing indubitable evidence of fertility in a soil which in other situations, having the same general characteristics or at least appearances, is entirely unrenumerative except as its productiveness is promoted by artificial fertilization.

A Tew words about the quality and value of this land for cultivation, of which we have some strong

Our first visit was to William D. Wilson, Franklin township, Gloucester county, who purchased some eight miles north of Millville, about three years ago, for the purpose of establishing a steam mill, to work up the timber into lumber, to send off by the new railroad, as well as the firewood and coal, for which he built a branch track a mile and a half long. He also furnished sixteen miles of the road with ties. and has no doubt made the mill profitable, though his main object was to open a farm, having become convinced that the soil was valuable for cultivation. In this he has not been disappointed, as some of his crops prove. For instance, last year, the second time of cropping, 306 bushels of pointoes on one acre, worth 60 cents a bushel in the field. This year seven acres, without manure, produced 356 bushels of oats. In one field, the first crop was potatoes, planted among the roots, and yielded 75 bushels.— The potatoes were dug, and wheat sown, and yielded 16 bushels; and the stubble turned under and sown to buckwheat, which yielded 23% bushels; and then the ground was sown to clover and timothy,

which gave as a first crop 21 tons per acre.

The fertilizers applied to these crops were first, askes from clearings: second, 225 pounds of super-phosphate of lime; third, 200 pounds Peruvian gu-ano; theu 50 bushels of slaked lime has been spread upon the clover since it was mowed, and turned in for wheat.

Mr. Wilson's growing crops, and the wheat atub-

ble of the present season, all indicate his land as productive as any part of the State. At Mary Barrow's, an old style Jersey woman farmer, several miles south of Mr. Wilson's, we were so particularly struck with the fine annearance of a field of corn, that we stopped to inquire of the hires man how it was produced. We found that the land had been the year but one before in wheat, sown with clover, and this cut one season, and last spring plowed once, with one "poor old nag," and planted

with corn. "Yes, but you manured high, we suppose?" we said interrogatively, and got this reply: -"Waal, you see, we couldn't a done that; 'cause

we hadn t but forty one-horse loads altogether, for 23 acres, and we wanted the most on't for the truck. The truck consisted of beets, carrots, cabbage, cucumbers, melons, &c., and a very productive patch of Lima beans, grown for marketing. So we were satisfied that the soil was not infertile, even unaided by clover, which had fed the corn, because the "truck

patch" had not been in cultivation long enough to obliterate all signs of the ferest. Our next visit was to the large farm of Andrew ive miles north of M ticles, being near Philadelphia, and the surrounding mile east of the railroad, and just about in the centre of Vineland. Mr. Sharp commenced work here in December, 1858, upon 270 acres. In less than three years, he has got 234 acres cleared and in crops this season, as well inclosed and divided into several fields, with cedar rail or pole fence; has built a two-story dwelling, about 36 by 40 feet, and

a smaller house for farm laborers, and a stable and granary and some other out buildings. Considerable part of the land was cleared for the plow at \$9 an acre, and on some of it the first crop was buckwheat, limed with 50 bushels in powder per acre. This crop may be put in July 4th to 20th, and yields 20 to 30 bushels per acre, harvested in November; when the land being sowed with 150lbs of Peruvian guano and seeded with rye, yielded 12 to 15 bushels per acre and \$10 worth of straw. The ryeistubble turned, after knocking off a large growth of oak sprouts, and dressed again with guano and seeded to wheat, gave 15 or 16 bushels. The crop which he was threshing while we were there promises more, of a very plump grain, and the straw is

very heavy. We went over the stubble, and found the clover and timothy, from seed sowed last spring, on the wheat without harrowing, looking as well as we ever saw it upon any old cultivated farm, and with a little work done in the winter to clear off some roots and rotten stumps, and setting stakes to mark permanent ones, he will be able to cut the crop the next year with a mowing machine, and we will guarantee two tons per acre, if he will give the overplus if it overruns the estimate.

Part of the land was planted with potatoes for a first crop, which yielded 120 bushels per acre. It was then limed with 50 bushels per acre, and seeded with wheat and clover, yielded and average of over 15 bushels per acre, and the clover now looks beau-Other portions have been planted with corn as a first crop, which yielded 30 bushels of yellow 2int corn, and the second crop 40 bushels, and the third

erop, treated to 150ths. of gnano, we are sure no one would estimate below 40 bushels per acre. The reader will recollect that the writer is now speaking of land perfectly new, and which can carcely be considered in good arable condition -

Ep.]

In other cases, the corn crop of last year was followed with oats this season, not yet threshed, but will average probably 40 to 50 bushels. Sweet potatoes, beans, melons, and, in fact, all garden veg-etables, as well as young peach and other fruit trees planted this year show very plainly that this long neglected tract of land should remain so no longer, and there is now a strong probability that t will not; for under the auspices of Mr Landis, it will be divided into small lots, with roads located o accommodate all-the surveyor is now busy at this work-and all purchasers will be required to build nest comfortable houses, and either fence their lots in uniformity, or agree to live without fence, which would be preferable, by which means a good population will be secured, who will establish churches, schools, stores, mills, mechanic shops and homes-homes of American farmers, surrounded by gardens, erchards, fields and comforts of civ-

If may one, from any derangement of business. is desirous of changing his pursuits of life, or who is from any cause desirous to find a new location and cheap home in the constry, and who may read and believe what we have truly stated, he will do well to go and see for himself what may be see-
