Corps. Enlisted for the defense of the State, they were at an early date-consequent upon the exigencies of the hour-transferred by the Governor to the General Government, and for three years they have participated, and wen fame in every batile fought by the glorious Army of the Potomae .---The last day of their service was a day of blood of May, they handsomely repulsed a ferocious attack on the part of the rebels, and captured a goodly number of prisoners.

The high estimation in which the Pennsylvania Reserves is held by the public is manifested by the grand reception which they met with everywhere. On their arrival at Harrisburg all business was suspended, and everybody joined in a general welcome. Oh ! how those patriotic hearts must have dirilled with joy, in experiencing how highly their services have been appreciated by a generous Commonwealth. At Philadelphia their reception was no less grand than at Harrisburg; and at Pittsburg. tos, two regiments were reseived with unprecedented honors. This is all as it should be. We can never repay the debt of gratitude and honor which we owe these patriots but by a lifetime of universal homage and gratitude.

The Pennsylvauia Reserves have participated in every skirmish and battle-every victory and reverse which occurred with the Army of the Potomac since the initiation of the war. Their maiden battle was Drainsville and their last Bethesda Church. On the Peninsula, before Richmond, at Ball Run. averywhere to-day, lie bleaching the bones of some of the martyred heroes of this glorious corps. All honor to the Pennsylvania Reserves; and it will be a lasting source of fame to have belonged to this far-famed legion. They enlisted fifteen thousand and return fifteen hundred ! What a glorious tithe!

U. S. 10-40 BONDS .- These Bonds are issued under the Act of Congress of March 8 1864, which provides that all Bonds issued under this Act shall be EXEMPT FROM TAXATION by Five Trains Daily to and Four from or under any state or municipal authority. Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are and victory. At Bethesda Church, on the 30th day TO BE REDEEMED IN COIN, at the pleasure of the Government, at any period not less than ten nor more than forty years from their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually and on all other Bonds semiannually. The interest is payable on the first days of March and September in each year.

> Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U.S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin-(or in United States notes, or the notes of National Banks, adding fifty per cent. for premium.) or receive them drawing interest from the date of subscription and leposit. As these Bonds are

Exempt from State or Municipal Taxation,

their value is increased from one to three per cent. per annum, according to the rate of tax lovies in various parts of the country. At the present rate of premium on gold they pay

OVER EIGHT PERCENT. INTEREST in currency, and are of equal convenience as a permaneut or temporary investment.

It is believed that no securities offer so great inducements to lenders as the various descriptions of U. S. Bonds In all other forms of indebtedness, the faith or ability of private parties or stock compaties or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1364. was \$768,975,000. The interest on this debt for the coming fiscal year will be \$45,937,126, while the customs revenue in gold for the current fiscal year. ending June 30th, 1864, has been so far at the rate of over \$100,000,000 per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,-000 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United States Treasury until March 26, but in the first three weeks sf April the subscriptions averaged more than TEN MILLIONS A WEEK.

Subscriptions will be received by the First National Bank of Philadelphia, Pa. Second National Bank of Philadelphia Pa.

Third National Bank of Philadelphia, Pa. AND BY ALL OTHER NATIONAL BANKS which are depositaries of Public money, and all

the first time. Visitors are shown over the land in a carriage, for thorough investigation. Those who come with The Safest thing in llard Times, where people have been thrown out of employment or business, and possess some little means or small incomes, is to start themselves a home. They can buy a piece of land at a small price, and earn more than wages in improving it, and when it is done it is a certain independence and no 1955. A few acres in fruit trees will insure a comfortable living. The land is put down to hard-times, and all improvements can be made at a cheaper rate than most any other time. The whole tract, with six miles front on the railroad, is being laid out with fine and spacious avenues, with a town in the centre-five acre lots in the town seli aufrom \$150 to \$200; two and a-half acre lots, at from \$50 to \$120, and town lots 50 feet front by 150 feet deep, at \$100—payable one-half cash and the balance within a year. It is only upon farms of twenty acres, or more, that four years' time is given. To Manufacturers, the town affords a fine opening for the Shoe manufacturing business, and other ar-ticles, being near Philadelphia. and the surrounding country has a large population, which affords a good narket. This settlement, in the course of several years, will be one of the most beautiful places in the country, and most agreeable for a residence. It is intended to make it a Vine and Fruit growing country, as this culture is the most profitable and the best adapted to the market. Every advantage and convenience for settlers will be introduced which will insure the prosperty of the place. The hard times throughout the country will be an advautage to the settlement, as it compels people to resort to agriculture for a living.

Report of Selon Robinson, THE NEW YORK TRIBUNE, UPON THE

VINELAND SETTLEMENT

Bey" The following is an extract from the report of Solon Robinson, Esq., published in the New York Tribune, in reference to Vineland. All persons can read this report with interest. Advantages of Farming near Home-Vineland-Re-

marks upon Marl-Soil, its great Fertility-The Cause of Fertility-Amount of Crops Produced-Practical Evidence. It is certainly one of the most extensive fertile tracts,

in an almost level position, and suitable condition for pleasant farming that we know of this side of the weet-ern prairies. We found some of the oldest farms apparently just as profitable productive as when first cleared of forest fifty or a hundred years ago. The geologist would soon discover the cause of this

continued fertility. The whole country is a marine deposit, and all through the soil we found evidences of calcareous substances, generally in the form of indurated calcareous marl, showing many distinct forms of ancient shells, of the tertiary formation ; and this marly substance is scattered all through the soil, in a very comminuted form, and in the exact condition most easily assimilated by such plasants he farmer desires to cultivate.

Marl, in all its forms, has been used to fertilize crops in England, from the time it was occupied by he Romans; and in France and Germany a marl EMEDY FOR HARD TIMES. bed is counted on as a valuable bed of manure, that A Rare Opportunity in the Best Market, and Most Decan be dug and carted and spread over the field .---How much more valuable then it must be, when found already mixed through the soil, where new particles will being a Rich, Heavy Soil, and Highly Productive be turned up and exposed, and transformed to the owner's use every time he stirs the earth.

Having then satisfied our minds of the cause, they of New Jersey. It consists of 20,000 acres of GOOD land, divided will not be excited with wonder at seeing indubitable into Farms of different sizes to suit the purchaserevidence of fertility in a soil which in other situations, having the same general characteristics or at FROM 20 ACRES AND UPWARDS-and is sold at the rate of from \$15 to \$20 per acre for the farm land, pay- | least appearances, is entirely unrenumerative except as its productiveness is promoted by artificial fertilable one-fourth cash, and the balance by quarteryearly installments, with legal interest, within the lization.

A few words about the quality and value of this The Soil is, in great part, a Rich Clay Loam, suit-able for Wheat, Grass and Potatoes—also a dark and proof.

rich sandy loam, suitable for corn, sweet-potatoes, Our first visit was to William D. Wilson, Franklin township, Gloucester county, who purchased some eight miles north of Millville, about three years age, tobacco, all kinds of vegetables and root crops, and the finest varieties of fruit, such as Grapes, Pears, Peaches, Apricots, Nectarines, Blackberries, Melons for the purpose of establishing a steam mill, to work up the timber into lumber, to send off by the new and other fruits, best adapted to the Philadelphia and New York Markets: In respect to the soil and railroad, as well as the firewood and coal, for which he built a branch track a mile and a half long. crops there can be no mistake, as visitors can exam-He also furnished sixteen miles of the road with ties, ine both, and none are expected to buy before so doand has no doubt made the mill profitable, though ing, and finding these statements correct-under these circumstances, unless these statements were his main object was to open a farm, having become convinced that the soil was valuable for cultivation. correct, there would be no use in their being made. In this he has not been disappointed, as some of his [See Reports of Solon Robinson, Esq., of the crops prove. For instance, last year, the second New York Tribune, and the well-known agriculturist, time of cropping, 306 bushels of potatoes on one acre, worth 60 cents a bushel in the field. This year William Parry, of Cinnaminson, New Jersey, which will be furnished inquirers.] The Market.---By looking over a map the reader seven acres, without manure, produced 856 bushels The Market.---By looking over a map the reader of oals. In one field, the first crop was potatoes, will perceive that it enjoys the best market in the Un-ion, and has direct communication with New York The potatoes were dug, and wheat sown, and yieldand Philadelphia twice a day, being only thirty-two ed 16 bushels; and the stubble turned under and sown to buckwheat, which yielded 333 bushels; miles from the latter. Produce r this market brings double the price that it does in locations distant and then the ground was sown to clover and timothy,

from the cities. In this location it can be put into which gave as a first crop 21 tons per acre. market the same morning it is gathered, and for what the farmer solls he gets the highest price: The fertilizers applied to these crops were first, ashes from clearings: second, 225 pounds of superwhilst groceries and other articles he purchases he gets at the lowest price. In the West, what he sells brings him a pittance, but for what he buys he pays two prices. In locating here the settler has many for wheat.

other advantages. He is within a few hours, by Mr. Wilson's growing crops, and the wheat stubrailroad, of all the great cities of New England and ble of the present season, all indicate his land as the Middle States. He is near his old friends and productive as any part of the State. associations. He has school for his children, di- At Mary Barrow's, an old style

At Mary Barrow's, an old style Jersey woman vine service, and all the advantages of civilization, farmer, several miles south of Mr. Wilson's, we were and he is near a large city. The Climate is delightful; the winters being sa-field of corn, that we stopped to inquire of the hires lubrious and open, whilst the summers are no warm-er than in the North. The location is upon the had been the year but one before in wheat, sown man how it was produced. We found that the land with clover, and this cut one season, and last spring Persons Wanting a change of Climate for Health, would be much benefitted in Vineland. The mildplowed once, with one "poor old nag," and planted with corn.

"Yes, but you manured high, we suppose ?" we

we hadn't but forty one-horse loads altogether, fer 23 acres, and we wanted the most on't for the truck.

The truck consisted of beets, carrots, cabbage, encumbers, melons, &c., and a very productive pate Visitors must expect, however, to see a new place. of Lima beans, grown for marketing. So we were satisfied that the soil was not infertile, even unsided Why the Property has not been Settled Before?-This question the reader naturally asks. It is because it has been held in large tracts by families not by clover, which had fed the corn, because the "truck disposed to sell, and being without railroad facilities | patch" had not been in cultivation long enough to obliterate all signs of the forest. they had few inducements. The Railroad has just

Our next visit was to the large farm of Andrew been opened through the property this season, for Sharp, five miles north of Millville, from half to a mile east of the railroad, and just about in the con free of expense, and afforded time and opportunity for thorough investigation. Those who come with in December, 1858, upon 270 acres. In less than a view to settle, should bring money to secure their three years, he has got 234 acres cleared and in purchases, as locations are not held upon refusal. several fields, with cedar rail or pole fence; has built a two-story dwelling, about 86 by 40 feet, store a smaller house for farm laborers, and a stable and granary and some other out buildings. Considerable part of the land was cleared for the plow at \$9 an acre, and on some of it the first crop was buckwheat, limed with 50 bushels in powder per acre. This crop may be put in July 4th to 20th. and yields 20 to 30 bushels per acre, harvested in November; when the land being sowed with 150lbs of Peruvian guano and seeded with rye, yielded 12 to 15 bushels per acre and \$10 worth of straw. The ryejstubble turned, after knocking off a large growth of oak sprouts, and dressed again with guano and seeded to wheat, gave 15 or 16 bushels. The crop which he was threshing while we were there promises more, of a very plump grain, and the straw is very heavy. We went over the stubble, and found the elovor and timothy, from seed sowed last spring, on the wheat without harrowing, looking as well as we ever saw it upon any old cultivated farm, and with a little work done in the winter to clear off some roots and rotten stumps, and setting stakes to mark per-manent ones, he will be able to cut the crop the next year with a mowing machine, and we will anarantes two tons per acre, if he will give the overplus if it overuns the estimate. Part of the land was planted with potatoes for a first erop, which yielded 120 bushels per acre. It was then limed with 50 bushels per acre, and sceded with wheat and clover, yielded and average of over 15 bushels per acre, and the clover now looks beautiful Other portions have been planted with corn as a first crop, which yielded 30 hushels of yellow first crop, and the second crop 40 bushels, and the third crop, treated to 150lbs, of guano, we are sure no one would estimate below 40 bushels per acre. [The reader will recollect that the writer is now speaking of land perfectly new, and which can scarcely be considered in good arable condition ---Ep.] In other cases, the corn crop of last year was folowed with oats this season, not yet threshed, but will average probably 40 to 50 bushels. Sweet potatoes, beans, melons, and, in fast, all garden veg-etables, as well as young peach and other fruit trees planted this year show very plainly that this long-neglected tract of land should remain so no longer, and there is now a strong probability that it will not; for under the auspices of Mr. Landis, it will be divided into small lots, with roads located to accommodate all-the surveyor is now busy at this work-and all purchasers will be required to build neat comfortable houses, and either fence their lots in uniformity, or sgree to live without fence, which would be preferable, by which means a good population will be secured, who will estab-lish churches, schools, stores, mills, mechanic shops and homes—homes of American farmers, surrounded by gardens, crchards, fields and comforts of civilized life. If may one, from any derangement of business, is desirous of changing his pursuits of life, or who is from any cause desirous to find a new location and cheap home in the country, and who may read and helieve what we have truly stated, he will do well to go and see for himself what may be seen within a two hours" ride out of Philadelphia. SOLON ROBINSON.

GREAT DISCOVERY! KUNKEL'S Bitter Wine of Iron,

For the cure of weak stomachs, general debility, indigestion, diseases of the nervous system, constipation, acidity of the stomach, and for all cases requiring a tonic.

wine includes the most agreeable and efficient Salt of Iron we possess; Citrate of Magnetic Oxide combined, with the most energetic of vegetable toncs, Yellow Peruvian Bark. The effect in many cases of debility, loss of appetite, and general pros-tration of an efficient Salt of Iron, combined with our valuable Nerve Tonic, is most happy. It augments the appetite, raises the pulse, takes off mnscular flabbiness, removes the palor of debility, and

gives a florid vigor to the countenance. Do you want something to strongthen you ? Do you want a good appetite ?

Do you want to build up your constitution? Do you want to feel well ?

Do you want to get rid of nervousness?

Do you want energy? Do you want to sleep well? Do you want a brisk and vigorous feeling?

If you do, try

Kunkel's Bitter Wine of Iron! This truly valuable Tonic has been so thoroughly ested by all classes of the community that it is now deemed indispensable as a tonic medicine. It costs but little, purifies the blood, and gives tone to the stomach, renovates the system, and prolongs life I now only ask a trial of this valuable tonic. COUNTERFEITS.

BEWARK OF COUNTERFEITS .- AS KUNKEL'S BITTER WINE OF IRON is the only sure and effectual remedy in the known world for Dyspepsis and Debility, and as there are a number of imitations offered to the public, we would caution the community to purchase none but the genuine article, manufactured by A. KUNKEL, and has his stamp on the top of the cork of every bottle. The very fact that others are attempting to imitate this valuable remedy proves its worth and speaks volumes in its favor. The BITTER WINE OF IRON is put up in 75 cent and \$1 bottles, and sold by all respectable druggists hroughout the country. Be particular that every nottle bears the fac simile of the proprietor's signaure.

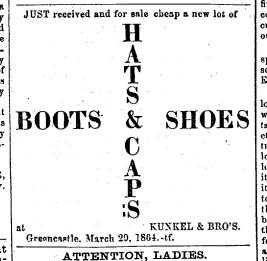

General Depot. 118 Market st., Harrisburg, Pa. For sale in Greencastle, by J. H HOSTETTER and all respectable dealers throughout the county Prepared and sold, Wholesale and Retail, by KUNKEL & BORTHER,
