the bill. If BURDERS was not astonished at the views of the gentleman, and for his part was sometimes inclined to think, that incorporation might as well be storeotyped. But the gentlemanihimself had reported a bill to incorporate a Water comhad reported a bill to incorporate a Water com-pagy. Many things which were only experiment-al would not be done by individuals. Individuals would not, as companies now no, send to Plandel-phia annually half a million of tons of coal. Mr. LEET thought individual enterprise suf-ficil disposed to give any priviled g to any com-pagy. In Potsville a person had succeeded in sudding iron with anthacite coal. Presently the legislature would be called on to incorporate all engaged in any unsiness which required capi-tal. There is no necessity whatever for in-

epiporating a company to manufacture A-merican rail road iron. The reason assigned is entirely insufficient. The Amerwith the English. In this region the A-merican is beginning to be extensively in-troduced—the only difference being the want of holes, which must be punched, red by a vote of 14 to 11. A charter of incorporation may as well be granted for carrying on a-by other established business as this. We pe therefore that the bill will not pass. respecting the Jusiness of Coal Companies that gentleman must be either grossly isinformed, or willing by false statements to impose on the Senate. The position that the companies sent a half a million of sons of coal to market last season, or in other words, that they sent all that was sent, is so foreign from the truth that contradiction is hardly necessary-yet what are the facts? In this region the three coal compa-nies sent to market 91,000 tons, while individual operators sent 243,000 tons .---

We sincerely hope and trust that no new charters will be granted. The principle that companies should not be incorporated in those branches of business which may be carried on by individual enterprise and industry, is well established, and ought never to be vithe amount of olated. For canals, rail roads, turnpikes, banks, etc. charters are necessary and proper, but not for carrying on the coal business, unless monopoly is considered preferable to free trade.
