DR. J. W. HOOD'S TRUSS. For the immediate Relief and Radical Cure of

Hernia or Rupture. DR. ENOS CHICHESTER has purchased the right of vending and applying Dr. J. W. Hood's Truss in Schuytkill county. This Truss has received the sanction of the most respectable Surgeons & physicians of Philadelphia, by which a radical cure of this disease, an expectation that had nearly been abandoned as hopeluse, is accomplished with almost absolute certainty and with perfect safety. Upwards of a hundred-cases treated within a short time in this chained vicinity, are known to be permanently cure, and the patients can now dispense with the see of any instrument. A success like this is unexampled in the aemses of Surgery. This instrument, and in the aemals of Surgery. This instrument, and the method of perfecting a radical cure of Hernia, are now offered to those afflicted with this trou-

blesome complaint.

He proposes it with confidence for the treatment of this disease, and as meeting every indication on correct surgical principles for its radical cure. The trusses heretofore employed merely palliate the symptoms of the disease, they rarely ever effect a radical cure, and hence must ntinually worn by the patient, often greatly to his annoyance. After the cure by the present apparatus is effected, all instruments are discon-

This Truss, with its appendages, can be worn at any age, and by both sexes, without interrup-Gentlemen are referred to the following mem-

bers of the profession, relative to this instrument and its claims in effecting radics! cures.

ole by the processes of art. Grocer, 17 South Water, between Market and Chesnut streets, Philadelphiaand Chesnut streets, Philadelphiaogy of the tesses of it.

The principle of your treatment and of the operation of your apparatus is based to the physiology of the tissues, and is one of the soundest in Petersham, goatshare camlet and camlet plaids,

theoretical and practical surgery.
There is nothing empirical in your proceedings or your instruments. They are the application of a well established principle of our science to the production of a specific effect. Professional instruction, skill and tact are necessary to attain it with certainty. The instruments alone, without appropriate management and the adaption of their action to the individual according to the constitu-tional and other peculiarities of each case, would prove of little utility, or might even defeat the intention of the treatment.

From the remarkable success that has attended your treatment, and the cases of decided cures that have come under my own observation, giving the sanction of facts in support of the scientific principle, I have no hesitation in regarding your apparatus and method of treatment as estab. ished in medical science. With consideration and respect, truly yours,
SAMUEL JACKSON.

We have in our possession a number of certifi-cates of the first respectability relative to the cures

ban in hot weather.
