IN SENATE, Feb. 26, 1836.

REPORT OF THE COMMITTEE. Mr. Baker, from the committee appointed to e and report the facts connected with an alledged attempt to corrupt the integrity and inhe vote of Jacob Krebs, one of the Senators from the Senatorial District, composed of the counties of Berks and Schuvikill, agreeably to a ton of the Senate of Pennay vania, made

e following report:
Your committee entered on the inquiry intrusted to them with the decrest impression of its importance. For the first time, as far as your comre informed, it was alleged upon the floor enate, by a Senator, that an lattemet, had been made to corrupt his integrity and infinence his vote. This assumed additional importance the circumstance, that previously to this disclosure, it had been proclaimed to the world, in a newspaper conducted by gentlemen to whom had been committed the printing of the journals of the Senate, and who might therefore, in some respects, be considered as officers of this body.— The acticle alluded to was headed, 'The people are begrayed," "The arts of the bank have prevailed, and contained the following expressi we cannot express the feelings of deep humiliation and dread with which we proclaim the startling fact. And when we state that one firm Dem-ocratic Senator has informed us, that offers of large tums of money were made to him, if he ficial journal on Wednesday Inst:—

"The gentleman from New Hampshire the other ster has resorted to the exercise of a most un-sigled and corrupting influence. That this contained no names, tended rather to exinauidy s. Samuel D. Patterson and O. Barrett, were. pursuant to a resolution of the Senate, brought to bar, and there information was received from Jacob Krebs, Esq. a Senator from Schuy bunty.

Your committee, did not esteem it their duty to preceed further with the examination of Messrs. Patterson and Barrett, nor do they deem it proper for them to point out any course of action for the Senate in relation to these individuals; they ver think themselves justified in expressing the most unquilified disapprobation of their conduct standing in the relation which they hold to this body. The testimony in their possession, is stification of the course pursued by them, and coes not sustain the charge against the Unit-ed States Bank, to which they gave such exten-sive publication, and which was calculated if not e dommunity.
Mr. Krobs in his statement made to the Senate

on the 10th instant, having disclosed (and according to the testimony of the first time, the names of James L. Dunn, of Reading, and Henry W. Consad, Esq. of the House of Representatives, as ersons who had endeavored th influence his the committee ordered Mr. Dunn to appear before them, and by a resolution of the Senate and consent of the House of Representatives, obhed the appearance of Mr. Conrad. These genflemen being implicated by the testimony of Krebs, who was examined, by the committee witness under oath, the committee called on then separately for such statement or defeure as they might think proper to make. The commitalso examined Mr. Burd Patterson, Jediah I. John Ulrich, William Hottenstein, Frederick Rinehart, Jacob Gohr, William Ermeutrout, and Benneville Keim, as witnesses. The state meets of the parties implicated, and the parties implicated, and the testimony of the witnesses, together with the minutes of the committee being herewith submitted, the committee deem it unne cessary to do more than give the conviction of the own minds, upon a full examination of all the facts and testimony adduced.

first.-The committee believe that the United States Bank did not either directly or indirectly attempt in any manner to corrupt the integrity or influence the vote of Mr. Krebs, and that the article contained in the Pennsylvania Reporter State Journal of the 9th instant, before allud ed to, and the other allegations to the same of fect, are wholly unfounded and unsustained by shadow of testimony.

econd .- The committee deem it inexpedient to express their opinion upon the conduct of Mr. corrad, as he is a member of the House of Repsilor. We believe all parties voied for isaac hill, sar a candidate for Governor, with a view of get and as they have no doubt but that House will ting him out of the Senate of the United States. adopt such measures as may be necessary to protect their own dignity and that of the Senate

Third .- As the character of Mr. Burd Patter. son may be considered in some degree involved in the charge made, the committee think it right to say that all the testimony has satisfied them that he has in no manner attempted to corrupt the integrity or influence the vote of Mr. ebs, and that his conduct, so far as it has been developed by the inquiry, is free from all suspi-cion of any dishonorable or improper act. Fourth. The committee have examined with

great care and much anxiety, so much of the testimony as implicates Mr. James L. Dunn. It will be observed that there is some discrepancy between the testimony of Mr. Krebs, and the volume of Kentucky. unhary statement or defence of Mr. Dunn. The committee rely implicitly in the veracity of Mr. Kebs; but at the same time they believe that the varying circumstances may be more nearly as-simulated by supposing that Mr. Krebs, (who from his statement of the conduct of Mr. Conrad, appears to have been easily alarmed at any supappears to have occus easily alarmed at any sup-posed approach to influence his vote,) may have placed on the expressions of Mr. Dunn a more se-rious construction than they would properly have equiveyed. Be this as it may, Mr. Dunn denies intention or expecta altogether that he had any improperly to influence the legislative action Mr. Krebs. And the proof of the respectabili of his character would lead the committee to nfide in his statement. With every disposition look at all that may extenuate the conduct of Mr. Dunn, and under the belief that he could no have deliberately intended or expected improperly to influence Mr. Krebs, the committee no sanding cannot withhold the expression of opinion, that his language was highly improper and deserving of their reprehension; they do not, howrecommend any further proceedings in relation thereto.

Fifth.—It would be improper to close this re ort without some remark on the conduct of Mr Krebs, a member of our own body, and of whom it is the disposition of the committe to speak with much delicacy as their sense of duty will per-rpit. They however deem it due to themselves to my, that they esteem the character of this Senathe very reprehensible in not immediately com municating to the Senate what he believed to be prious attempts to corrupt his integrity and in-quence his vote. Had this been instantly done, such of the excitement and unplement consequences which have ensued would have been a pided. They deem his course more reprehensi- fore hewing, and flatted equally on both sides to tic, as Mr. Krebs communicated the circumstan- a thickness of seven inches; or square timber, ces in whole or in part, with the suppression of the names, to different individuals, and made

lieve that the Senator from Schuylkill county, in the excess of perhaps well-intened, but certainly misguided zeal, to effect the defeat of a measure to which he was no doubt honestly opposed; he most unhappily failed in the discharge of this

The committee having terminated the inquiry with which they were charged, offer the following resolution

Resolved That the committee be discharged from the further consideration of the subject.

Important from Mexico. - By the New Orleans American of Feb. 18th, we learn that letters had been received from Vera Cruz, dated Esh. 2d, by which it appears that Santa Anna was still in San Lois, under pretext of assembling an army against Toxas; that his army did not exceed 3000 men, and that he was fearful of going in person, under apprehension that there would be insurrection at home; more afraid probably of the balls of American rifles. There are no armed vessels getting out at Campeachy againgst Texas, as had been reported. Tamuulipas, and particularly Tampico, and also Chehuahun, are in a state of great excitement against Santa Anna, and the 600 men which had arrived in Tamanlipas for Texas were detained there to keep down the apprehend ed rebellion against the power of the dictator.
