DR. J. W. HOOD'S TRUSS. For the immediate Relief and Radical Care of

Rernia or Rupture. DR. ENOS CHICHESTER has purchased the R. ENOS CHICHESTER, has perceased the right of vending and applying Dr. J. W. Hood's Truss in Schurlkill county. This Truss has received the sanction of the most respectable Surgeons & physicians of Philadelphia, by which a radical cure of this disease, an expectation that had nearly been abandoned as hopeless, is accomplished with almost absolute certainty and with perfect safety. Upwards of a hundred cases treated within a short time in this city and vicinity, are known to be permanently cured and the ity, are known to be permanently cured, and the patients can now dispense with the use of say instrument. A success like this, is unexampled in the annals of Surgery. I his instrument, and the method of perfecting a radical sure of Hernia, are now offered to those afflicted with this troulesome complaint.

He proposes it with confidence for the treatment of this disease, and as niceting every indication on correct surgical principles for its radi-cut cure. The trusses heretofore employed merely palliate the symptoms of the disease, they rarely ever effect a radical cure, and hence must be continually worn by the patient, often greatly to his annoyance. After the cure by the present apparatos is effected, all instruments are discon-

This Trues, with its appendages, can be worn at any age, and by both seres, without interrup-

Gentlemen are referred to the following members of the profession, relative to this 'instrument' and its claims in effecting radical cures. WILLIAM GIBSON, Professor of Surgery in the

University of Pennsylvania.
GRANVILLE SHARF, PATTIEON, Professor of Anatomy in the Jefferson Medical College. Samuel Jackson, Professor of the Institutes of Medicine in the University of Pennsylvania. GEORGE M'CLELIAN, Professor of Surgery in

the Jefferson Medical College.
HERRY BOND, Secretary of the Philadelphia College of Physicians. EDWIN A. ATLEE, M. D.

EDWIN P. ATLEE, M. D. Letters to the above named gentlemen must be ree of experse.

Copy of a letter from Samuel Jackson, Profes

sor of the Institutes of Medicine in the University of Pennevivania. Docton Hood:
Dear Sir:—From the uniform failure of all the trusses I have seen, and of the treatment employed for hernia in procuring a radical cure by safe means. I had abandoned all expectation of seeing this desirable object reached. I must con-fess, that your apparatus and method of treating hernia, has. I believe, accumplished this desider-

atum, and the discase is rendered not only manageable, but in the greater portion of cases curable by the processes of art.

The principle of your treatment and of the operation of your apparatus is based to the physiol-

eration of your apparatus is based to the physiology of the tissues, and is one of the soundest in theoretical and prupited surgery.

There is nothing empirical in your precedings or your instruments. They are the application of a well established principle of our science to the production of a specific effect. Professional instruction, skill and tact are necessary in attain it with certainty. The instruments alone, without appropriate management and the adaption of their ection to the individual according to the constituaction to the individual according to the constituprove of little utility, or might even defent the in-

ention of the treatment. From the remarkable success that has aftend. ed vonr treatment, and the cases of decided cures that have come under my own observation, giv ing the sanction of facts in support of the scienti-fic principle, I have no hesitation in regarding your apparatus and method of treatment as estab-lished in medical science. With consideration

We have in our possession a number of certificates of the first respectability relative to the cure performed by this instrument, which we will show

to any person desirous of satisfying himself with regard to the efficacy of the invention. Persons desirous of being cured of hernis or rupture, will do well to call on the subscriber before the extreme hot weather sets in, as the disease can be more readily cured in moderate

Physicians desirous of procuring the right ladies dresses, thread, bobbinet and cotton laces, of using the above invention, can receive informapatcutee.

Judge of the County Court VEGETABLE ANTI-BLIOUS FILLS.
The use of these Fills is an useful prevention of epidemic complaints, especially of such as prevail during the sammer and fall seasons, viz: Bilions Fever. Cholera Morbus, Agus, Bysentery, &c. as these complaints are chiefly occasioned by an irregular secretion of the bile; and a morbid state of the stomach.
These pills are also a safe and speedy remedy for a sick and disordered, atomach, head acked, less of appetus, contiveness, dizziness, languid and aching limbs stupor, fever and agne disopportion of blious fever and detrangement in the functions of the liver of t ing States A supply of the above valuable Medicin A supply of the above valuable Medicine, not re eived and for sale by B.
