WEEKLY ALMANAC

MITTOROLOGICAL TABLE

Septuagesima Sunday. Day's length, 10 hours and 35 minutes:

The Bey. Burdett Hart will preach in the

by Rev. Mr. Dickerson.

## Miners' Journal. SATURDAY, FEBRUARY 12, 1870.

advance, or \$1 if not peid in advance.

OLUB SUBSCRIPTIONS—INVARIABLY IN ADVANCE.

3 Copies to one address, \$7 00 15 Copies to one address, \$8 00 15 Copies to one address, \$8 00 15 Copies to one address, \$8 00 To News Dealers \$4 00 per 180 Copies, cash.

To Ninisters and School Teachers we will furnish the Journal by mail, at \$1 50 per annum, in advance; otherwise at full rates. wise at full raics.

THE DAILY MINERS JOURNAL is published every week-day morning Saturday's excepted.

TERMS—Ten cents per week, payable to the carrier or agent by whom it is served.

BY MAIL—Payable in advance, one year, \$5.90; six months, \$75; three months, \$150. DAILY AND WEEKLY MINERS' JOURNAL 5: 50 per annum, in advance; \$4 00 for six months, BANNAN & RAMSEV, Publishers.

THE MINERS' JOURNAL ANNUAL STATISTICAL REGISTER FOR 1870, Will he issued early in February. Price, 25 cents single copies, 25 coper dozen; 35 co for 50 copies and \$13.00 per 100. It will contain an immense amount of Statistics, a large portion of which have not appeared in the Mixeis: Journal. peared in the Mineis' JOURNAL.
We will give many Statistics from the Mine Inspector's Report, which will be of great value to the trade at home and abroad, and to the general reader.

SENATOR SHERMAN'S CURREN-CY BILL.

OHERMAN'S Currency Bill does not give antisfaction to the money centres. This is not surprising. To base a distribution of currency on population is certainly not wise, and is properly subject to severe criticism. An agricultural State, with but little manufacturing and commercial business, does not require scarcely one-half the currency that commercial and manufacturing districts do, and therefore, such a division is preposterous. If it were based upon the assessed value of the real and personal property of the country, in the proportion of \$1 in currency to the value of \$35 in property, it would give, on an estimated value of \$24,000,000,000, about \$700,000,000 in currency. This is what Sherman's Bill calls for by the additional issue of \$45,000,000, and the withdrawal of \$45,000,000 of 3 per cent. certificates Legal Tenders in circulation \$356,000,000 National Bank issues 300,000,000 300,000,000 45,000,000 Proposed new issue - -

\$701,000,000 Now, how much more sensible would it be to distribute this currency according to the wealth and business of the country, and leave it expand as wealth and business expand in the same proportion. This would give satisfaction to all the different sections. and it would be the most equitable and just mode of distribution. It is true that a National Bank currency of equal value all over the country does not become localized, but it is also equally true that no section of the country will be satisfied unless we deal justly with all sections. This is the only way in which our Government can be maintained

in harmony. We learn from Washington that they have no returns of the assessed wealth of the Coak Breaker-four boilers country from all the States since the Rebel- For ventilating and other uses lion. This information was always in posession of the Secretary of the Treasury fore the Rebellion, and the Statistical Bureau could easily collect it again from nine-tenths of the Stafes, and from all in a few months, so that we could arrive sufficiently near to issue the proposed \$45,000,000 to the States now having little or no currency. We be- 000 tons. lieve that Commissioner Wells' estimate of of the country, is nearer the truth than

many of his other estimates. The general impression is that the Supreme Court will declare the legal tenderact unconstitutional in a time of peace, when these notes will be placed on an equality with the other bank issues in paying debts. This must result in a precipitation of specie payments, as all contracts will then be stipulated in coin, and coin only will be a legal tender, and this will result at once in destroying values. The truth is the legal tenders are now a nuisance, and the sooner the Government gets rid of them the better, by com- the years 1867, '8 and '9, 350,000 tons. The mencing to fund or withdraw them, or at | breaker is one of the largest in the coal releast reduce them to \$200,000,000, and retain them for paying taxes to the Government which is the only ground upon which their 25 horse power and 4 boilers, by which the continued circulation in a time of peace can be | machinery of breaker and saw-mill is driven; justified, while we have a national currency consuming nearly four tons of small coal per which ought to be the exclusive paper cur- days. The company work this collier, under rency of the country; and expand the Na- lease from the Girard Estate, for fifteen years tion Bank currency up to \$500,000,000. The from Jan. 1st, 1869, and contemplate sinking idea that the Government saves by this issue a shaft near the breaker down to the basin, by relieving the country from the interest which is estimated to be 600 feet in depth, on the bonds on which the National currency is issued, is without foundation, and is to keep up the shipments from this colliery only entertained by two-penny financiers. The advantages to the credit of the country by the National Banks issuing all the currency, and thus absorbing nearly eight hundred millions of our national securities at 4 per cent., would be of much greater value to the country than the saving of the interest Used for pumping, hoisting and the country than the saving of the interest on their legal tenders. The wisest policy therefore, for the Government to pursue, is to take early measures for reducing the volume of legal tenders and expanding the National currency through Banks up to \$500,-\$000,000, and distributing it among the States according to wealth; and as this currency is expanded up to the \$500,000,000, fund the \$150,000,000 legal tenders, if the necessities of the United States Treasury will not permit them to be cancelled as fast as received, or as

National currency is issued by new Banks organized, up to the \$500,000,000. With the idea abroad that the legal tenders may be declared unconstitutional at any time by the Supreme Court, and no provision made by Congress for such a contingency, it will only tend to depress business and enterprise again. Some will say what can Congress do? We answer that she can pave the way for a speedy resumption within a very limited time without destroying values or embarrassing the business of the country, if they will only pass the following bill which was on the 4th inst. introduced into Congress by the Hon. Henry L. Cake, and referred to the Committee of Ways and Means, attach it to the present tariff, or to any tariff ill that may be passed, and the drain of oin from the country will be checked even before Congress adjourns; and when the out ward flow of coin is checked, gold will soon fall to par, and our Banks can resume, and the resumption can be maintained without contraction or destroying values to any disastrous extent, or disturbing the business of the country. This simple act of nineteen lines, would lead to, and force a speedy resumption of specie payments, in spite of all efforts that can be brought to bear by "bulls," bears," money changers, or fools, if you please, to prevent it: Mr. Cake, on leave, introduced the follow-

A Bill to check the drain of coin, and prepare for a permanent resumption of specie payments.

Be it enacted by the Senate and House of Representatives of the United States of Americas in Congress assembled. That whenever the imports shall exceed the exports of the country, independent of coin, for any fiscal quarter of any fiscal year five percentum the Secretary of the Treasury, by giving ten days, notice at the different ports of entry, shall increase the duties on the whole scale of manufactured articles ten per centum until the exports exceed the imports five per centum, texcusive of coin;) and also whell the exports including buildon not coined; exceed the imports ten per centum in any fiscal quarter of any fiscal year, independent of coin, the Secretary of the Treasury is authorized to reduce the duties five per centum on the whole scale, until an equilibrium is established, of which reduction ten days notice shall also be eigen.

COLLIERY IMPROVEMENTS. TE continue our list of improve

The Primrose Coal Company is sinking a slow on the Primrose Vein, in the Middle Shanoy Valley. The Company is say, shillding a breaker, the capacity of which will be sighty capacity of the tons per day.

The Middle Shanoy Valley. The Company is say, shillding a breaker, the capacity of which will be sighty capacity of room three to four hundred thousand tons, and the machinery will constant to the capacity of possession of the machinery will constant to the capacity of possession. The machinery will constant to the capacity of the machinery will constant to the capacity of the machinery will constant to the capacity of the capacity of the machinery will constant to the capacity of the capacity cars, or 450 tons. The machinery will consist of one 50-horse power engine for hoisting, one 40-horse power engine for breaking, and one ten-inch steam pump. . The Phœnix Park Coal Company are now making the following improvements on their

No. 1 Colliery on the old Phoenix Red Ash has recently sunk the third lift to the basin, thus giving the north as well as the south dip which is in fine coal, and are now erecting the latest and best ventilating machinery yet discovered. It is expected that this colliery will produce not less than 40 cars per

day during the season.
No. 2-A third lift is being sunk at this colliery on the Primrose vein, besides developing a large body of flat coal on the old lift, and a tunuel is to be drives north no the Mammoth vein, thus making it one of the largest collieries in the region. The slope will be completed for the spring trade, and will produce about 60 cars per day. No. 3-new-is now being worked, it having already been sunk 180 yards. This is on the Diamond vein, and has been proven to be good on this property for over a mile and

produce from 25 to 30 cars per day, for the No. 4 or the old Palmer Colliery, situated on the castern portion of the property, has not been worked for several years. It is now intended to be supplied with coal from a small basin north of the one formerly workd, until a shaft can be sunk to the White Ash which is accessable at this point, within

a half. This being new, it is expected to

bout 400 feet. The Shamokin Coal Company la now sinking a new slope at its Hickory Swamp Colliery, Shomokin. When completed this will be the finest improvement in the Shamokin Coal Region. It will yet take about four months to complete. The machinery for this improvement was made by Col. Z. P. Boyer, of the Port Carbon Iron Works, and

is of the finest description. WYOMING REGION. The Lehigh Coal and Navigation Co. near Newport are sinking three slopes, have already erected one breaker and are about commencing the erection of another. They sent from one colliery in 1869 about 40,000 tons, and the capacity, for 1870 will be about 250,000 tons. Mr. E.B. Leisenring is the superintendent.

THE following discription of several collier ies have been handed us for publication in the ANNUAL REGISTER: THE PHILAD'A COAL COMPANY.

COLORADO COLLIERY. Mined and shipped over the scales for the year ending Dec. 31st, 1869, 119,291 10 tons. 850 10

hundred days. One man killed by fall of It will be seen that the valley of coal; one man killed on dirt bank, run over the Schuylkill took 1,037,053 by car; none seriously injured. Capacity of Valley of the Lehigh 996,420 colliery for 1870, ten months full time, 150,-

fine, and averages 28 feet in thickness. South of run on veins nearly two miles.

There are several good workable veins, one of which is about 10 feet thick, now being opened, and from which a large amount of excellent coal can be mined. This colliery was opened in 1863, and has produced about 500,000 tons of coal; having shipped during gion, and has a capacity for preparing 800 tons per day of 10 hours; with one engine of and have the new openings made in time

during their term of lease: THE GIRARD COAL COMPANY. SHENANDOAH COLLIERY.

fan engines, average weekly consumption 40 tons - - Used at breaker engine which also - 2.080 00 runs the saw-mill - 1,000 00 Supplied to workmen - 1,000 00

Total amount mined in 1869 - 80,184 00 1 man killed by fall of coal, 1 man crushed between cars in gangway, died of injuries, 2 men burnt by accidental explosion of keg of powder.

Machinery of this colliery consists of one steam pump 16 inches, 48 inchesstroke; two genred 60 horse power engines for hoisting coal; one fan engine 15 horse power, and donkey engine to feed boilers; breaker engine 30 horse power, with three 30 feet boilers, which supply sufficient steam to run the quantity sent to market by each operator. breaker engine, while running both breaker and saw-mill. This colliery is also on the Girard Estate, situated at Lost Creek, on the South side of Locust mountain, and was opened by F. B. Kaercher in 1863, above water level, and was subsequently sold to the Girard-Mutual Coal Company, who sunk a large slope down on the south dip of the Mammoth vein, and erected powerful hoisting and pumping machinery. The Mammoth vein at this point, proving unusually fine, averaging 25 feet thick of splendid coak The breaker of this colliery has been enlarged and improved, making it a first class coal breaker, with capacity of from 5 to 800 tons per day. The company have opened the Skidmore, above water level, and expect to mine from this source a large quantity of coal. The capacity of the colliery for 1870, working the usual average time, is 100,000 tons. The Girard Coal Company have sold Mt. to the Philadelphia Coal Company, all their right title and interest in this colliery, and years from Jan. 1st 1870, embracing three tracts of land, with a run of over two miles on the south dip of Mammoth, Skidmore via Lehigh Valley R. R. and other veins, making it one of the finest colliery properties on the Girard Estate. This colliery will hereafter be styled Phliadelphia Coal Co., No. 2, Shenandoah Golli-

vein, some three hundred yards south of Mo. They also intend to build a large steam saw mill, to be located at a convenient point being made by operators, which were for sawing lumber for the supply of the four not received in time for last week's love collieries, thus saving the expense of keeping up two or more saw mills at their respec-

nearly all of which will be mined from the Mammoth vein which is of unusual solidity and purity. The Shenandoah basin is celebrated for the excellence of its veins of coal, and especially the Mammoth, which has been proved to miles, averaging over 20 feet in thickness and free of faults.

If any other operators desire a description of their collieries to be published in the Annual Register 1870, they must be

handed in easy next week. A large edition of the Register will-be struck off. Price, 25 cents single copy; \$2 50 per dozen; \$8 per 60 copies; \$13 per 100

Senate Committee, undergoing a thorough ex-amination. How soon it will emerge we are

unable to state. Particular attention is being given to the subject, and hasty legislation need not be feared.
While we have it in our mind we would state

While we have it in our mind we would state for the information of those interested, that there is a law in force requiring all owners of patented lands to have the same patented before the 1st of June next. After that time they will be sold to satisfy the lien, now entered against them in the Prothonotary's office by the Attorney General of the Commonwealth.

Air. Charles Slingliff, formerly of your County, has been appointed Scaler of Weights and Measures for Chester County.

The 31st of March has been decided upon as the day to the final adiournment of the Legis-

the day for the final adjournment of the Legis-lature.

The Governor has velocd the act allowing

writs of error in cases of murder and voluntary manslaughter, thereby cutting off all liope of success from that direction in the case of Pr

Schoeppe, for whose special benefit the law was

nacted. The vetoing of the Metropolium Police bill in

energed.

The vetoing of the Metropolitan Police bill in the face of a tremendous pressure, brought to bear in its behalf, excites a world of comment. Though not unexpected, in certain quarters, yet the announcement caused a profound flutter autongst the Philadelphia. Roosters, and caused certain interested politicians to screw up their faces after the manner of Irish Jemmy of the 96th when he tasted his first green persimmon, thinking it was a plum. This action of the Governot who in this matter is but following in the footsteps of Curting mosts with more favor among leading men of both parties, not politicians, of the City of Philadelphic, than it meets with censure from those of another class. Had their Commissioners, fay flayor four the Judges of the Supreme Court, or Common Pieus, been maned instead of chiose whose names are the Judges of the Supreme Court, or Common Pieus, been maned instead of chiose whose names are the Judges of the Supreme Court, or Common Pieus, been maned instead of chiose whose names and the suprementation of foow don't augus, Judges of the Suprementation of the purpose of investigating alleged frauds and corrupt practices used in the passage of the bill. Amusing, isn't it?

Rumor whispers loudly that the police force of Mayor Fox contributed liberally toward en-suring the defeat of the bill, and Eyes Informs

using the defeat of the bill, and Eyes informs us that during the pendency of the act up to the present time, Alderman McMallen and certain of his retainers have been on the ground, and in close communion with the immediate Josephs, who, by the by was the individual who upon the announcement of the vote in the vote in the House, smilt the laughter of the members cried out. "Fraud! Corruption!"

If any money was contributed as asserted, it must have stuck before it reached the Legisla-ture, as none, judging from the sale, ever reach-ed the members. This may be a kind of a Dr.

There is a bill on its passage which allows the Governor to appoint Notary Publics, at the exegencies of the case may require. All desirous to serve the community in the above papacity will note the fact, and be ready to accepted.

A bill has passed both Houses for the protec-

As there is no LEGISLATIVE TREADED and sees, sion, and as the journals of proceedings are published but once a week and as the newspapers of the city, give but scant reports of the proceedings, we sit almost in Legislative darkness. The members themselves are at a loss, and scarcely know from day to day what they are doing.

are doing.
Yesterday evening the temperance question engaged the attention of the House.

DOINGS IN CATAMISSA PALLEY, OR AND

DEAR MINERS' JOURNALL AS JOB have lately chronicled some san accounts that happened in the beautiful and romantic Catawassa Kalley, which is principally enthraced by the edd Union, now North, East and Union Townships of Schuylkill County, Pennsylvania, allow me to hold up before your readers another view of an entirely different natural There. Allow in the fair part of Schuylkill County a class of truly Christian people, who are really himbig and modest, who, when they do alms, let not their left hand know what their right hand doeth neither do like a trumpet sounded before them on account of their acts of kindlays.

Hence nothing of what I now write has as yet been communicated, and therefore not noticed by you. And if it became known who witer this, the writer has just fears of getting a just

Also, an act authorizing the Board of School Directors of the Independent Stevens School District, in the township of West Brunswick; to

A Quite Old Duplicate Settled Up .- As one of the fruits of Courad Seltzer's excellent ad-ministration of the Treasurer's office, we might state that a few weeks since Thomas Long, Col-Also, the act authorizing the Burgess and Also, the act sutherizing the Bargess and town Council of Shenandoul to levy a tax.

The Senate bill authorizing, the School Directors of the borough of Creasons to borrow meney for building purposes, was objected off Tuesday's calendar, and did not pass.

In the Senate, Mr. Randall introduced a bill interporating the Miners' and Laborers' Publishing Company. This bill, it is understood, is for the especial benefit of the Moniton and its friends. estate that a few weeks since Thomas Long, con-lector of State and County taxes of the Borough of Schuylkill Haven for the year 1858, settled his old duplicate up in full, smounting to be-tween \$200 and \$300. Mr. Long has for several years past resided in Kansas. A short time since, through Mr. Seltzer's efforts, proceedings were instituted against the sureties of Long, which had the effect of causing the settlement which had the effect of causing the settlemen Which mu the elect of causing the selection of the duplicate as stated.

We were aware that Mr. Seltzer had a long official pole with which he stirred up delinquent is friends.

The following bills have been introduced and The following bills have been introduced and are pending:
To incorporate the General Council of the Miners' and Laborers' Association of the Smigness of Permsylvania;
Making any mechanic, journeyman, tradesman or laborer forming associations under the act of May 8, 1869—authorizing the formation of societies for their protection—not liable to attest, fine or imprisonment by reason of membership in such association.

The Mining bill remains in the hands of the Senate Committee, undergoing a thorough extax collectors, but we had no idea that it could Kansas.

Settlement Made in Full.-Conrad Seltzer Esq., late Treasurer of this County, on the 2nd instant, paid to R. W. Mackey, Esq., State Treasurer, the sum of \$12.99£15, balance in full for State tax, licenses, bank stock, etc., due by him to the Commonwealth. As soon as ms because the tree county Auditors, Mr. Seltzer paid to the present County Treasurer the amount in full, as the following copy of a receipt shows, which fact should have been embraced in the Auditor's report now in ourse of publication in the County papers: TREASURER'S OFFICE, OF SCHUYLKILL CO., PA., Pottsylle, January 21, 1850. ].
Received of Courad Seltzer, late Treasurer, Fifteen thousand, six hundred and forty-three dollars and seventeen cents, in full, balance due the County, as per Auditor's report for 1889. Auditor's report for ISB.

EDWARD BRADLEY, Treaturer.

Per HENDLER.

The Assessed Valuation of Property in Schuylkill County.—In 1820 there were ten townships in Schuylkill County, the assessed valuation of property in which was as follows: Brunswig. huylkili \$2,224,521 In 1869 the County contained 33 townships and 20 boroughs, the assessed property in which was as follows: Vashington..... Porter..... Middleport Borough..... Cass Township..... Norweglan ... East Norwegian..... Mahanoy Township Mount Carbon
Mahantongo Township...
West Penn
Shenandoah City
New Philadelphia...
Pinegrove Borough
Butler 151,450 17,182 It will be observed that the quantity of

Schuylkill Haven
Port Carbon
Port Carbon
Port Schuylkill

Mahanov City
Schuylkill

Total valuation
As the assessed valuation is about one-third of the real value of the real and personal property in the County, the latter may be estimated at least \$40,000,000.

The Schuylkill
County Bible Society
The Schuylkill County Bible Society
Mannov City
The Schuylkill County Bible Society
The Schuylkill County Female Bible Society, held its 18th Anniversary in the Methodist Episcopal Church of Pottsville. The meeting was brganized by calling Mr. Frank Carter to the Chair, and the appointment of Wn. D. Hodgson, as Secretary, when Rev. Mr. Sembower opened the meeting with singing and prayer, followed by reading of the Scriptures, by Rev. Mr. Gehman.

Rev. Mr. Steck the corresponding Secretary of the Society, then read the annual report of its doings for the year 1869, which will be found below, (some of the annuals report of its doings for the year 1869, which will be found below, (some of the annuals received as per treasurer's report, having been handed in single.

The Schuylkill And passed beal Honges for the protection of bags of the protection of bags of the protection of the get and not below within the protection of the p elow, (some of the amounts received as per treasurer's report, having been handed in since the meeting.) The Rev. Mr. Torrence, the agent of the Pennsylvania Bible Society, then enterof the Pennsylvania Bible Society, then entertained the audience with a very interesting and instructive discourse in the course of which he gave some statistics, which were new to many of his hearers. Among other items he stated that there were more copies of the Bible printed, than there was of all the books of all the different languages in the world, and that Pennsylvania could boast that during the war, she furnished one-tenth of all the solders for the army. She pays one-tenth of the revenue to the United States Government, and distributes 6000, over one-tenth of all the bibles circulated in the states. Mr. B. Haywood, then addressed the meeting in one of his characteristic, happy styles, in which he eulogised the ladies for their untiring zeal, and moved them a vote of thanks, which was given heartily. Rev. Mr. Dickerson then moved that the ladies constituting the Board of Managers for the year 1869, be continued in office for the ensuing year, which continued in office for the ensuing year, which was carried unanimously. It was also moved and carried, that the Board

Not only the last the man, and will ever remember them. individual section of the fair, are greatly individual section, and will ever remember them the fair, and the fair, and the fair, and the fair of the fair, and that all the fair of the fair, and that all the fair of the fa bers, and thus meter that state and his worthy their humble and faithful Pastor and his worthy their Kontrell.

Mrs. Kontrell.

Pastor silfe. which form cheerful evidences the same of the contrell and their self-denials and labor of love among them. Such are momentous sects to a mong them. Such are momentous to the mo 

Pastor's salary, so that no donations will be needed in thems! And if there; we may, they will be donations in the laws sense, and not to make up a deficient salary.

The so-called Union Church near Ringtown, used jointly by the derman Reported and the St. Paul's Evangelical Churches, has lately been carpeted for the tirst time, after being built and used for divine service for twenty-seven years. The floor of the pulpit and altar are laid over with a beautiful rose carpet, whilst the aisles and stairs are laid with a good coccanut matting. It makes in all avery great improvement in this sanctuary, of food, and prevents much noise and disturbance during divine service.

A most beautiful set of communion were was lately secured by the first class conditined by Rev. H. Weicksel in the St. Paul's Evangelical Lutheran Church. This ware was made by the celebratock Mr. Erasmon Kauffman, of Philadelphia, and is worth newards of fifty dollars. A memorandum of the donors will be put in the case in which the ware is kept, as a memorfal of their love for Christ and his Church.

It is earnestly hoped that all these kind people, who are so active, about here may cause many to do likewise, and after having emjoyed the good fraits of earth for many, years, they may forever enjoy their reward in Heaven.

Spectator.

A A S Name of the state of the

Sr. CLAIR, PA., Feb. 10, 1870. Engoks dockway with duliness and inscivity incident to any locality when a large proportion of its industrious enterprises cease, proportion of its industrions enterprises cease, is very perceptible in our town since the different collieries have suspended operations. It must not be presumed that everything is entirely lifeless because of the suspension.

The dedicated on Sabbath next, 13th inst., with appropriate; exemodies. Rev. A. J.: Kynett, Cor. Secretary M. E. Church Extension Society, will preach in the morning, assisted by Rev. R. H. Pattison, D. D. Presiding Elder of the Harrisburg District. In the afternoon at the collection of the collection of the property of the collection of the collection of the collection of the collection of the Harrisburg District. In the afternoon at the collection of the collect Rer. C. C. McCabe, and also the Subbatl

School.

In the evening at 6 o'clock, Chaplain McCabe will officiate. Among other Ministers who are expected to be present and assist are Raya, H.E.Gillroy, J. Dickerson, Noble Frame, R. Haywood, and M. Dalrympie. No doubt B. Haywood, and M. Dalrympie. No doubt the exercises will be very interesting, and result; it is hoped, in freeing the Church from all indebtedness. The edifice is an ornament to our town, and is one of the finest in this section of the State, combining all the advantages and improvements of modern times.

The Borough Council have adopted a very wise measure in providing for the names of the several streets, to be painted on small finger boards and placed at the proper places, so that we may know the names thereof, without resorting to the borough archives or some official who is posted. It is a fact that a very large number of our people, who have lived here for number of our people, who have lived here for a considerable length of time, are unable to designate more than one half of the different The St. Clair furnace is undergoing repair Greaf improvement is being made, and the proprietor, James Lanigan, Esq., seems determined to have it fitted up A No. 1. There is room to two or three more such enterprises in this place.

John Ennis Post No. 47, G. A. R., is desirous of making alcollession of rather, are, f.c., of the recent rebellion, with the owners' name attached, to be placed in their hall for public inspection.
