Lost Memory From Fall

Artemus Weller was out fishing yesterday afternoon and when he came home he was going up the steps to his home when his wife saw him trip and fall backwards. He struck his head on the stone walk and when she reached him he was insensible. He was carried into the house and Doctor Holcomb summoned. When the doctor arrived Weller could not recognize any one. The doctor asked him if he didn't know him and he said he did not. He then asked him what his own name was and he replied "I ain't got no name." It is thought that he received a sun stroke while fishing, and that he was overcome by it while climbing his steps. He is an old soldier and has not had much use of his limbs since he came back from the army. He gained consciousness after a while but is in a serious condition.

Sneak Thieves at Work

Last night between the hour of 12 at midnight and morning, sneak thieves entered the residence of E. W. Decker, the first house south of the Campbell Hotel and robbed it of all the eggs, crackers, pepper and money they had. They got between \$5 and \$10 in money, and all of the eatables they could find. The proprietor of the Campbell Hotel says that the dogs made quite a howling but Mr. Decker and his family slept sound till morning, when Mrs. Decker came down stairs in the morning she found the windows open and said to a gentleman boarder "I guess that some one has been in the house." They found a butcher knife lying near the window which was used to pry up the windows. Some one was evidently hungry and did not object taking money along with the victuals.

Should Have a Pension

Mrs. Sarah Jackson is 92 years old to-day and she started alone on a journey to Newark, N. J., where she will spend the winter with her daughter. Mrs. Jackson was one of the faithful, loyal ladies who went to the front during the Civil War and cared for the sick and wounded soldiers. She did not belong to any relief organization but went on her own volition and ministered to the cases that came under her observation. She cheered the boys and saved many precious lives and there are many comrades to-day who call her blessed. The government should reward her for her heroic work, but they deny her the recognition she so justly deserves. Some of these iron clad laws are a disgrace to our country.

COUNCIL VOTES TROLLEY FRANCHISE

Athens, Sayre and South Waverly Company Given Permission to Use Athens Streets—Other Important Business Transacted.

The monthly meeting of the Athens Borough Council was held at City Hall last evening. All of the members being present except Burgess Macafee and Councilman Cheney. U. G. Fribbie, secretary of the Board of Health, appeared and made a statement that the funds appropriated were exhausted and that they needed a further appropriation in order to carry on their work. He also made a report of the receipts and disbursements since his official term as secretary which commenced May 1, 1905. On motion of Macafee an appropriation of \$125 was voted and the secretary was directed to hereafter make reports of their operations on the first days of January and July of each year.

The bids for the new horse house for Fourth Ward were then opened and were as follows: A. C. Hall, \$865; C. P. Moore, \$915; and R. H. Grissalene, \$1,029. Mr. Tripp was called upon and asked if he had prepared an estimate of the cost of the building and replied that he had only made a partial one which amounted to about \$250 less than Mr. Hall's bid, but that the building complete, according to specifications, would reach that amount. Whereupon it was unanimously voted to accept Mr. Hall's bid, the lowest one offered at \$865.

Borough Engineer Walker then made a statement in regard to the water situation in the upper part of the town. Mr. Walker said that the overflow was occasioned by the water coming from Walnut street and that there were two ways to remedy it. First by putting in an opening through to Spruce street, and the other by making a connection with the sewer at the Furniture Works. After some discussion by Councilmen Weiss and Henry it was voted that the borough engineer and street commissioner should have power to go on and make such repairs as would remedy the evil and that they use their judgment as to what course is best. Councilman Keefe objected to this, stating that the borough engineer should have made a written report and recommendation before it should be acted upon, so that they could give it an intelligent consideration.

The next matter considered was the franchise for the Athens, Sayre and South Waverly street railway. In this matter Hon. Mial E. Lilley was present in the interests of the company and District Attorney Mills for the Borough. The typewritten franchise was presented by Councilman Keefe and it was adopted by a unanimous vote and afterwards section by section.

By this franchise the Athens, Sayre, and South Waverly Street Railway company have authority to build their line with single track with the exception of side tracks for switches at points where there are deemed necessary, not more than 150 feet for each switch. Beginning at Pennsylvania avenue (now 11th street) at intersection of the borough line. Also on Welles avenue from North line of the borough to Pine street and through Pine to Fourth streets, through Hugh to Elmira and then south along Elmira street to intersection of Main street at the Flat Iron, also through Tioga street to the east bank of the Chemung river. The borough is to give a tax of \$50 per year on each car in service and the fare is to be 5 cents up to the end of their line. The work is to be commenced within one year of the publication of this franchise and to be finished by December 1st, 1907. The company is to give bonds to the amount of \$5,000 to hold the borough harmless from any damages resulting from the operations of the road. No other business, they adjourned.

MOSQUE FOR LONDON.

Xhehive, Shah and Amir Subscribe Funds for Erection of Structure for Moslems.

London.—Revivals are in the atmosphere and shortly it may be expected that a crusade for Mohammedanism will be preached in the cities, towns and parks of Protestant England. A mosque has been designed for the metropolis by Mr. R. Williams, who is at present at the court of the khedive of Egypt, studying Arabesque designs of walls and floors for the further embellishment of this fane of Islam. Beautiful and fairlike will be this structure of marble, for the building

THE MOHAMMEDAN MOSQUE (Building for Moslems to be Erected in London.)

of which three mighty princes of Islam—the shah of Persia, the khedive of Egypt and the amir of Afghanistan—have lavishly subscribed. It is to be erected near the Thames on the Lambeth side of the river, nearly opposite Westminster abbey. Here will be the monastery for the teaching of such Englishmen as will consent to go out as missionaries to preach the faith of the prophet in other countries than their own.

Here proselytes to the faith can go into "retreat" to meditate and be instructed in the tenets of Islam, and here will be the college, where Moslems will be able to study at a very much less fee than in any other college in England.

The amir of Afghanistan, the nizam of Hyderabad, the rajah of Rampur, and a number of opulent Indian princes and chieftains have expressed their intentions of helping in every way the furtherance of their faith in London.

TO HEAD WAR COLLEGE.

Gen. Barry Said to Have Been Selected for the Honor—Is a Popular Officer.

Washington.—Gen. Thomas H. Barry, it is stated, will be the next president of the war college at Washington. Gen. Barry is at present with the Russian army in Manchuria, and will not be formally assigned to his new task until he returns to the United States.

Gen. Barry, a native of New York graduated from West Point in 1873. He served for a time with the Seventh cavalry, and was then transferred to the First Infantry. As an officer of this regiment he was long stationed in San Francisco, and became well known here. During Gov. Markham's administration Barry served a term as inspector and instructor of the

national guard of California. He was with the troops in camp and visited every regimental and company armory in the state. He made to the secretary of war a breezy and concise report regarding the guard and its officers. The document called forth a protest from Gov. Markham, but Barry maintained his ground.

Gen. Barry served several years in the Philippines. He is a strict disciplinarian and keeps everyone about him moving, but withal is popular.

Queer Doings in Norway.
In Norway on pay days saloons are closed and savings banks open until midnight. Servant girls hire for half a year at a time by contract at public registry offices. There is a telegraph box on every street car. One writes the message, puts on the right number of stamps, and drops it in the box. Farmers can borrow money from the government at three per cent. There are practically no illiterates. The average wage earnings are \$38 a year. There are more reindeer than horses, more sheep than cows.

Valuable Private Art Collection.
In Springfield, Mass., is a private art collection the largest and most varied owned by any one individual in the country. It is the property of G. W. V.
