General Charles Bartlett Nominated For Governor.

WHITNEY ASKS FOR TARIFF REFORM

Attacks Senator Lodge For Treason Cry-Bay State Handleapped by Present Duties on Raw Materials.

BOSTON, Oct. 12.-General Charles W. Bartlett and Henry M. Whitney, Democratic nominees for governor and lieutenant governor respectively, were mass meeting held in Tremont temple to ratify the nominations for state offices made at the recent Democratic state convention.

W. T. A. Fitzgerald, president of the Democratic city committee, was chairman and in the opening address volced the belief that the party had both Camp, John E. Owsley, J. B. Fine, A. the candidates and the issues and would again place a Democrat in the governor's chair and would even go a step farther and elect a lieutenant govrnor who stood for tariff revision and

the national authem. Mr. Whitney received an unusually warm reception when introduced by

Mr. Whitney devoted the first part of his address to a criticism of Senator Henry Cabot Lodge. Specifically he criticised the senator for saying at the Republican convention that the day was long gone by when a state should stand out as South Carolina did in the thirties and attempt to nullify a national law because the tariff schedules did not sult the products. "Because," Mr. Whitney said, "40,000 men of Massachusetts honestly believe that a change in the laws would promote the welfare of Massachusetts and have the courage to say so it is held that they are guilty of treasonable prac-

Mr. Whitney attacked the senatur's position in arguing that free raw material was nothing in the world but free trade and asked if the senator was igmorant of the fact that 46 per cent of our total imports are now on the free

The speaker asserted that the removal of import duties on bides, iron ore, lumber, wood pulp and coal, which are used in all Massachusetts industries, would help offset the handicap which Massachusetts is under. He continued:

"Since it is useless to hope for any largement of our trade relations with Canada and Newfoundland through the operations of treaties and reciprocity nd since the Canadians are under stood to contemplate making a change oon in their tariff, possibly in the diection of retaliatory measures, the thropology. reciprocity people believe the loss of a great part of our \$152,000,000 of ex-PHILADELPHIA, Oct. 12.—Mrs. Jo-Just the thing for Baby's free from Canada the products of the mines, the earth and the forests, the things which Canada chiefly raises and which, while forming the greater part of her exports to us, involve a tax on the living expenses of our own people. That is the natural solution. That has been the purpose of the recent agitation in Massachusetts."
Mr. Bartlett discussed the tariff al-

most exclusively, saying in part: "Massachusetts suffers in this way, we are cut off geographically from the rest of the country, and this adds to the difficulty of our obtaining cheap raw materials. We are cut off by the tariff laws from a free and fair market in obtaining these supplies from our

foreign neighbors. "With reasonable tariff duties Massachusetts would be more favorably situated than are other states to produce many articles. With the present tariff duties she is less favorably situated. This fact makes the tariff more eppressive to Massachusetts than to sest other states.

"By our vote let it be understood that the people of the state demand relief, and one of the things from which they demand relief is a tax aimed directly at Massachusetts' interests for the benefits of a combine that is moving to hamper and exterminate a great indus-
