#### MILITARY COMPANY TO BE MUSTERED IN

The Officers at Least Have Been Given This Assurance

Athens—We hardly think the people are conscious of what the Athens Military company will do for our town. They now have the assurance of being accepted and mustered into the 13th Regiment. This regiment is one of the best in the state. The company will hold a dignified standing in official and military circles and in time this will mean a fine government building for an armory. We are pleased to note the interest taken by the boys in this matter, and they are deserving of the co operation of the citizens.

#### Large Plate Glass Broken

Athens—The large plate glass in the front door of Kiff & Stacy's store was broken last evening either by some one leaning against it or by some evil disposed person who kicked it in. The latter seems more probable as the pieces of glass that fell inside were broken into small fragments and flew a long distance into the room. No entrance was made to the store as the opening was of such a jagged nature as to make it impossible for anyone to get through.

#### WERE OBLIGED TO CALL THE POLICE

Certain Youngsters Annoy Those in Charge of the Spaulding Museum-Library

Athens—The Spaulding museum-library of this place is the gift of one of our old residents who had such an affection for his early home that he wished to leave some token of his regard that should stand for all time to come as a memorial to the people of this vicinity of that regard. The building is a beautiful testimonial of that regard and the library has become a storehouse of the best intelligence of the age and has contributed a great deal to the elevation of our people of every walk of life to a higher standard of education. Mr. Spaulding, the donor, has died but he had provided for its perpetuity before he passed away, and all our citizens are proud of the institution. The librarians are faithful and guard well the loaning and safety of the books, and they do this mainly from disinterested motives. They should have the good will and encouragement of all our people. There are certain young men around here who frequently annoy the young lady in charge of these books. Last night she was obliged to telephone to Chief of Police Mulligan to come and attend to the youngsters. When he arrived they skulked out of sight and after he went away they reappeared. We have the names of the parties who were there last night and they should be obliged to publish them if they persist in their nuisance.
