Moscow founds a Provisional Government.

Both Phones, ST. PETERSBURG AN ARMED CAMP

> Citizens of Ancient Capital Taka First Step to Bring Order From whelm Russian Empire - Serious Conflicts In Many Places-Steps Are Taken to Protect Americans.

ST. PETERSBURG, Oct. 30. - The people of Moscow have taken the first step to bring a form of order out of the chaotic conditions which threatened to overwhelm the Russian empire. THREE PERCENT INTEREST Leaders of the rebellious parties in that city have decided to found a provisional government, which will act without regard to the regularly constituted authorities.

Many persons were killed and wounded at Reval, which was set on fire, and an encounter between troops and strikers occurred near Warsaw. The battleship Catherine II, has reached Odessa, and reports of a mutiny on board the vessel are denied.

While the Russian capital is out wardly calm, developments all indicate that a crisis is imminent. Although the streets are filled with troops and FAL ESTATE For sale in Athens, re-enforcements are pouring in from Finland, the government seems utterly powerless to cope with the situation, and many calm observers seem serious ly to believe that the present regime is tottering to its fall.

It is said that the emperor has just accepted the Liberal programme, appointed Count Witte premier and given legislative powers to the repre sentative assembly, allowing repre sentatives from all sections of the pop nlation to be elected to it, abolishing martial law throughout the empire and that he will issue a manifesto to the people to that effect today.

Complete disorder reigns at Tiflis. There is rifle firing against the patrols in many quarters of the city, and bombs are being thrown. A military train has been derailed outside the city and a number of Cossacks killed.

The strike is complete on all rail roads in the Caucasus. All the stores and offices are closed. Even the employees of the state institutions and cabled to him. One feature of these prove unfounded. the headquarters of the vice royalty have struck.

At Rign there have been several en counters between the dragoons and the mobe. The dragoons were three times fired upon by the crowds. The situation is growing worse.

At Rostov-on-Don the strikers and reactionaries are fighting. Attempts to pillage the Jewish synagogues and houses were stopped by the police. At Gomel a bomb was thrown

were killed. At Moscow nineteen wounded men were brought to the University hos-

pital as the result of an encounter between students and Royalists. The governor general has issued a proclamation warning the Royalists, who wish to attack the Liberals, that

this will not be permitted. The city is entirely isolated. Prices of food are mounting higher and high-

At Klev several Cossacks who re fused to fire on the crowd during the recent disturbances were arrested. At Helsingfors a strike has been proclaimed on the Finnish railway from St. Petersburg to the frontier station of Valkeasaari.

At Warsaw the governor has forbidden the publication of even official news concerning the riots in Russia. The authorities acknowledge the situation to be extremely serious. All the manufacturers have left the city. The theaters are closed, and no newspapers are being published.

Grave doubts are expressed as to whether even the imperial guard can now be relied upon.

The foreign embassies at St. Peters burg have discussed the situation, but have as yet taken no steps regarding the safety of foreign residents. As a precaution the state department at Washington has been requested to confer authority for the charter of a vessel and to boist on it the American

flag as a refuge for Americans. The negotiations for a new loan were formally ajourned today, as neither the government nor the bankers are prepared to close the negotiations while the present situation continues

J. Pierpont Morgan, Jr., and George W. Perkins are negotiating with the Hamburg-American Steamship company for the dispatch of a vessel to take them off in case of necessity.

The university, the Polytechnic institute and all educational institutions were closed so as to prevent further meetings being held in them. The university is surrounded by troops.

At a meeting of the municipal coun cii last night a deputation of thirty ers of the strikers' committee appeared. In an impassioned speech the leader of the deputation presented the following demands of the workmen and afflicted organizations:

"Second.-That the city furnish food to the workmen.

Third.-That the city refuse further supplies to the troops and the police. "Fourth.-That the troops be removed from the waterworks or otherwise the strikers would cut the water sup-

Fifth.-The immunity of the deputa ion from arrest."

The connell granted the latter de and and promised a speedy reply to he other demands. The council sent reguests to both General Trepoff and Minister of the Interior Bouligin not to arrest the members of the deputaion, but the police nevertheless took them into custody. Upon urgent representations General Trepoff an hour later released them.

The employees of the chief telegraph offices have declared a three days' of the Boston police department. strike. All incoming service is stop-

There has occurred two serious con street railway poles and furniture. At one point a volley from the Cossacks killed one student, three workmen and a girl and wounded eighteen

persons. Most interesting by far are the re ports from Moscow, the real Russian capital, where the municipal council and the committee of public safety are sitting continuously and where : struggle is momentarily expected be tween the League of Russian Patriots, a reactionary organization led by the priests, and the newly organized militia and students. The Moscow munici pal council is also reported to have sent an ultimatum to the emperor de manding the promulgation of a con stitution.

Although it is impossible officially to confirm these reports, they seem to admit of no doubt that the antigovernment forces have the upper hand.

The director of the imperial theaters called a preeting of actors and ac tresses, who decided to cease their per formances today.

At Vladikavkaz, northern Caucasia, brigands deraffed a mail train near Grozny. They fired on the passengers, killing twelve and wounding twenty, after which they looted the train and decamped with the mails.

Situation Alarming, Says Eddy. WASHINGTON, Oct 30.-The condition of affairs in Russia formed the basis of a dispatch received at the state department from Spencer Eddy, the American charge at St. Petersburg. who said the situation was very alarming. The dispatch was the subject of a long conference between Secretary Root and Mr. Bacon, the first assistcovers the question of protection to might endanger their lives.

#### ANTIBRIBERY SOCIETY.

Association to Prevent Corrupt Prac tices at Elections.

NEW YORK, Oct. 30 - With the ob elections in this state an association against the police, and two policemen has been formed, with headquarters in this city, and at the next session of the legislature a bill governing the matter will be presented and an organized effort be made to obtain its passage.

The organization is known as the As sociation to Prevent Corrupt Practices at Elections. Former Mayor Seth Low of this city is chairman and William Church Osborn secretary and treasurer. The members of the executive committee beside these gentlemen are Gherardi Davis, James R. Sheffield, D. Cady Herrick, William Williams, Francis B Harrison William S Rennett Charles H. Young, Edward M. Shep ard, Robert Grier Monroe, Herbert Par sons, John G. Milburn, John Hill Morgan and M. Warley Platzek.

A statement issued by the organiza tion says:

"Those who have formed the asso ciation believe that the growing use of money in large sums in the conduct of political campaigns has been accompanied by an increasing demoralization of the electorate in the cities and also in the country districts of the

state. "The demand for such large sums of money is equally demoralizing in its effect upon the sources of supply. It is believed that the present is a favorable moment to secure action from the legislature which will strengthen the existing laws and enable the state to secure a really efficient corrupt practice act and that the public opinion will also support an organized movement to secure the enforcement of this act when made effective

"During the winter of 1905 three acts on corrupt practices at elections were passed by the senate of the state and favorably reported by the judiciary committee of the assembly, but they failed to become a law.

Mr. Low was asked if this movement to secure legislation against corrupt practices was prompted by any recent developments in the municipal campaign or the legislative investigation of the insurance companies. He said there had been nothing in either case to prompt these measures at this time, but the idea had been under consideration by a number of the members of the present organization for some time. The fact of the movement being made public now, Mr. Low said, had no algorithmance whatever, being simply a

Mrs. Geary identified three rings Cossacks commenced firing on the taken from the right hand found in crowds of workmen and students, who the second dress suit case picked up had barricaded street corners with near the new Charlestown bridge on Friday last as those worn by her daughter when she absented herself from the theatrical company on Sept. 10. Confirmation of Miss Geary's disappearance from the company came from Morris Nathan, secretary to the manager of the company and to whom Miss Geary was engaged. Mr. Nathan is now in Pittsburg.

According to Nathan, Miss Geary parted from him on the best of terms the day after the company closed its last engagement in this city, and he supposed, he said, that he should see ber at the next performance in Lowell on the following day. Instead, however, a message was received by the company's manager from "P. A. Smith, M. D., Boston," which stated that "Miss Durrell" was suffering from stomach trouble and would be unable to report for several days.

Miss Geary dropped out of sight aft er that, and so far as the police are concerned they have been unable to find any one who either saw or com municated with the girl. Ten days later, on Sept. 21, a dress suit case in which was the torso of a young wo man was found floating in the harbor near the Winthrop Yacht club about three miles below the city, and on Friday last another suit case containing the arms and legs of the vic tim was taken from the water off the city docks, near the new Charlestown bridge over the Charles river.

Mrs. Catherine Geary, wife of J. D. Geary of Cambridge, Mass., said last night that she was satisfied that the dress suit case victim was her daugh ter Susan. She had been strongly suspicious, she said, ever since the first ant secretary. Mr. Eddy asked the de- dress suit case was found at Winthrop partment for instructions to meet any that the dismembered body was that eventualities which might arise out of of her daughter, but she had hesitated the condition of affairs as they now to announce her suspicions to the po exist in St. Petersburg, and these were lice, fearing that after all they might

"I had not seen my daughter for sev en weeks," said Mrs. Geary, "and I have felt sure for some time that she was the victim of the Winthrop dress suit case. She wore a chased gold jail at an early hour by a mob of 300 ring on her little finger, and she had also an opal ring and a garnet ring which I gave her as a birthday present some five or six years ago. The chased ring is probably ten years old. When I saw these rings I had no difficulty in recognizing them as those worn by my daughter.

"I know the victim is my Susie. She complained of pains in her side just before she went away, and I think she might have been operated upon for ap pendicitis and the doctor having made an unsuccessful operation cut her up When Susie came bome at the end of last season, at the end of last May, she his body. looked the picture of health. "Seven weeks ago she left me. The company had closed its Boston engage ment and went first to Lowell. When she left she sent me a letter which was shorter than usual and clearly showed that she was downhearted. It made me feel frightened, and so I went to Lynn, where the company was then playing. She had written that she was sick with stomach trouble. I found that she had sent in a doctor's certificate to the stage manager saying that she was sick. Attempt to Enter Hazel Kirk Mine Causes Fatal Explosion

PITTSBURG, Oct. 30.-Five minor officials of the Pittsburg and West moreland Coal company gave up their lives when they entered the Hazel Kirk mine No. 1 of the company at Hazel Kirk, Pas eighteen miles east of this city, to ascertain if a portion of the mine was still burning as a result of an explosion two weeks ago. The dead

John Hornical, superintendent; Danlel Griffith, foreman; Joseph Hunter, John Lavey and Henry Clayborne, fire bosses. All are married, with large means.

Two weeks ago an explosion in the mine caused the death of two men. The entry in which the explosion occurred was closed up and water turned on. Instead of sending the foreign miners employed by the company to investigate and see if the fire in the entry had been extinguished it was decided that if any risk was to be taken those holding responsible positions should take the chance instead of the miners. As the five men approached the portion of the mine which is burning they became aware that the water had not extinguished the blaze.

They decided to tear down the bulkhead to confine the fire to one entry of the mine. Just as the covering was removed there was a terrific explosion, and the five men were blown different ways, all being instantly killed. Andrew Roder, who was some distance behind the unfortunate men escaped death, but was badly burned He reached the bottom of the shaft. gave the alarm, and when rescuers found the unfortunate men all were dead. The mine is now burning, but no miners are entombed. John Hornical, the dead superintendent, was one of the best known coal operators of this section

Squadron Plows Northward at Record Speed of Eighteen Knots an Hour-Mrs. Roosevelt's Message Finds Cruiser.

WASHINGTON, Oct, 30.- The navy yard wireless station here picked up a message being sent from the cruiser West Virginia, on which the president is traveling homeward, to the Cape Hatterns station. The West Virginia was then off Savannab, Ga. The squadron of which the West Virginia is a part made a record breaking trip from Jupiter. The message said:

"The weather is perfect, a moderate breeze blowing from the northeast, and the sea smooth. The president is quartered in the admiral's cabin and is enjoying the trip immensely. The ship is 750 keeping up a uniform speed of eighteen knots, and everything is running smoothly. This is the first time in the history of the navy that a squadron has cruised in company at a speed of eighteen knots and over.

"At 1:45 p. m. today we picked up the Penusylvania and Colorado off Key West and are now cruising as a squad ron. As we passed the two ships each manned the rail and saluted the presi dent's flag. It is the customary honor and the president returned the salute from the admiral's bridge. Touight the president will dine with wardroom officers and according to the navy cus tom while at sea will join in the toast 'Sweethearts and Wives.'

As soon as the West Virginia got in touch with the wireless station at Key West the first message to be transmit ted from the shore to the big cruiser was a personal one from Mrs. Roose velt to the president, congratulating him on the forty-seventh anniversary 65c. of his birthday.

The West Virginia and her consorts passed by Savannah, Ga., shortly after 3 o'clock in the morning. The vessels were nearly 100 miles off the coast. Mayor Boyce in behalf of the citizens of St. Augustine sent a message to the president from this station offering congratulations and best wishes for a safe and pleasant voyage. The message was received and acknowledged.
