At this time we will bring one of the largest and choicest stock of furs ever put on exhibition in this valley. In fact it is an opportunity seldom offered the public outside the large cities. You can come here and have the satisfaction of seeing and knowing that the goods are from one of the largest manufacturers of fine furs in the country. The stock consists of every known fur, made into all styles of jackets, scarf and muffs.

We can show you jackets in any quality, at prices to suit your purse. They are made in all styles, in all the better of the well-known furs.

Fur Lined Coats, in all colors, sizes and lengths, in any kind of furs you may wish to select.

Scarfs in all the flat and fancy shapes and all lengths, in all the known furs.

Muffs in all styles and in all furs.

This is an opportunity you should not let pass unheeded, as it is just the right time to buy or place your order and be sure of having your furs when you most need them. It is also more satisfactory to see the fur you are buying, than to send to some far-away house and have to take what they send and be satisfied, with no chance for redress.

**ROWDYISM WAS RAMPANT AT ATHENS**

**Youthful Offenders Were Arrested, However, and Vigorously Dealt With by Burgess Macafee**

Burgess Macafee was promptly at city hall this morning to hear the cases of the boys engaged in the fracas last night. Four of the boys were summoned to the lobby of Chief Mulligan who told the story of their riotous doings. They refused to make explanations so their case was held for further action. Harry Noble and Asa Hammond had slept in the cages all night and were questioned separately. Noble pleaded guilty and was fined \$2 besides \$2.50 costs or be confined in the lockup five days. He chose the latter and was taken back to his cell. Hammond pleaded not guilty. He commenced a tirade on the officers who returned him to his cell to await further hearing tomorrow morning.

The story of their arrest was a fine chapter of rowdyism and an attempt to evade the officers. The local officers and special assistants succeeded in rounding them up. They congregated in front of Bailor's store, singing tough songs and using tougher language. Hammond is an old offender, already being out on a suspended sentence on a former charge.

The boys who ran off with the old cannon caisson were overhauled and compelled to return it to its place.

**A FAULTLESS BEER**

The following article appears in the United States Trade Reports, a publication devoted to financial, agricultural and mechanical interests:

There has been considerable discussion of the different kinds of beer since so much attention has been given to the discussion of pure food products, and many are found to give bad after-effects. The United States Trade Reports has always fearlessly discussed such topics as are of general interest to its readers, and we have received several letters concerning the different kinds of beer on the market. We are asked to recommend the best and purest, and which leaves no bad effects after drinking.

We have made a careful investigation locally, also referring the matter to our representatives in all the principal cities. We feel justified in saying that the beer which we find to surpass all others in purity and cleanliness is made by the Dotterweich Brewing Co., of Olean, N. Y.

The above-named firm stands high in the commercial world, and is well known for its business tact and enterprise, as well as for its integrity. This beer serves as a tonic as well as a beverage. We have no interest in making this commendation, except to give credit where credit is due, as has always been our policy, and we have not the slightest hesitancy in recommending this beer to our readers. We advise all patrons to call for this beer, especially for invalids and those of impaired health.

It has been a custom of this paper to furnish its subscribers with reliable information on any desired subject free of charge, that they may designate by letter of inquiry addressed to this office. The United States Trade Reports has the largest circulation of any trade paper of its class, and no other publication could afford to maintain such a large staff of experienced editors to make these investigations, and depend solely upon its subscription list for support.

We are certain that all dealings which our readers may have with this firm will prove mutually beneficial and profitable. It is a pleasure to us to give this firm our editorial recommendation, and, at the same time, to supply our readers with reliable information on such an important subject as this.
