SAYRE, PA.

Store Closes Daily at 6 P. M. Except Saturday and Two Evenings After Pay Day.

This Store Deals With Facts And Never Advertises Anything That Is Untruthful

The makers of Wooltex and Printzess garments confined to us the sale of their garments this year, because of the small purchases made by Waverly, Sayre and Athens merchants, previous years; and seeing in this store enterprise in keeping with its size. They urged acceptance of an exclusive arrangement, and we likewise saw a good feature in it for our patrons,

You may find a few numbers yet advertised by dealers in this valley of last and previous years' styles as a result; but here you will find nothing but new styles, up-to-date and garments of the most recent models. No store can underbuy a syndicate store and none can undersell a cash store That's your advantage trading here

Garment Section Second Floor

"Sure thing" this store does not do business with houses lacking reputation. We can see shead too far to abuse your confidence and patronage. Our selection of Wootex as our leading suit and garment was because it's the best. There is only one best in all things. When a woman has shopped all over town and then comes back to buy a Wooltex we don't need to ask the reason why. We carry all styles and colors from the mannish mixtures, nonespuns, serges, thous, in finished worsteds and broadcloths, in colorings principally plum. Birgundy, green, blue, smoke grey, etc. Prices in these and other makes \$9.98 to \$39.50. No old styles or last year's goods to show you. Children's coats from \$1.75 to \$15.00. Big Things for You on Furs Near Seal and Russian Mink Jackets

The manufacturer, so pleased with the volume of business done, orders taken, etc., by us at the opening, November 3rd and 5th, has sent us a consignment to show you from November 13th to November 18th of scarfs and coats and return all unsold. No better way to put furs in your ession at 25 to 50 per cent under the old way of buying outright and having a lot of "old stickers" to kill profits left at the end of the season.

Combining these with our regular stock, we show you \$1,200.00 to \$1,500.00 worth of the at and cleansst furs in this section, which consist of

Every day develops new styles. Shapes and general designs come and go like a panorama, but all have a uniqueness and shape adapted to some one's best appearance, and to give a minute description would be impossible, but the hats are attractive and the prices are attractive, because they are made by skilled trimmers of wide experience. Watch the crowds and you will see the success of the Big Store With Little Prices.

There has been considerable discus- state. sion of the different kinds of beer since so much attention has been given to the discussion of pure food products, and many are found to give bad after-effects. The United States Trade Reports has always fearlessly discussed such topics as are of general interest to its readers, and we have received several letters concerning the different kinds of beer cred to any part of Athens or Sayre If you want a first-class on the market. We are asked to recommend the best and purest, and which

leaves no bad effects after drinking. We have made a careful investigation locally, also referring the matter to our representatives in all the principal cities. We feel justified in saying that the beer which we find to surpass all others in purity and cleanliness is made by the Dotterweich Brewing Co., of Olean, N. Y.

The above-named firm stands high in the commercial world, and is well known for its business tact and enterprise, as well as for its integrity. This beer serves as a tonic as well as a beverage. We have no interest in making this commendation, except to give credit where cr-dit is due, as has always been our policy, and we have not the slightest he-itancy in recommending this beer to our readers. We advise all patrons to call for this beer, especially for invalids and those of impaired health.

It has been a custom of this paper to furnish its subscribers with reliable in-formation on any desired subject free of charge, that they may designate by letter of inquiry addressed to this office. The United States Trade Reports has the largest circulation of any trade paper of its class, and no other publication could afford to maintain such a large staff of experienced editors to make these investigations, and depend solely upon its subscription list for support.

We are certain that all dealings which our readers may have with this firm will prove mutually beneficial and profitable. It is a pleasure to us to give this firm our editorial recommendation, and, at the same time, to supply our readers with reliable information on such an

A new heat-resisting material is carborundum fire-sand. This is carborundum, or silicoen carbide, in uncrystallized form, and when it is mixed with about 10 or 122 per cent. of its weight of a thin, syrupy solution of sodium-silicate, the result is a plastic sub-stance that is easily moulded, and that can be tamped into place and slowly dried out.
