**SPECIAL MEETING  
BOROUGH COUNCIL**

Important Matters Were Discussed and Disposed of at Last Night's Session

A special meeting of the borough council for the transaction of general business was held in the town hall last night, Sawtelle, Ademy, Hawes, Lacey, Case, Pritchard, Samuels and Haverly answering to the roll call.

The special committee appointed at the last regular meeting recommended that three tons of coal be furnished to each of the hose companies or its equivalent in money to those who had rooms heated by steam.

A communication was received from C. W. Kinney, superintendent of the Pennsylvania division of the Lehigh, requesting that the company be allowed to defer the building of a side walk on Cayuga street until next spring, and that in the meantime the walk would be kept in as good condition as possible. The communication was ordered placed on file.

The matter of cleaning snow from the sidewalks was brought to the attention of the council by Street Commissioner Fields and the borough clerk was instructed to communicate with the burgess and notify him that it was the duty of the police department to see that the walks were kept clean.

On the recommendation of Councilman Ademy, a gas light was ordered placed at the corner of Elmer avenue and Bradford street for the accommodation of the men who work in the wheel foundry. A motion was also made and carried to change the arc light which is now located on Wilbur avenue in front of the hospital to the corner near the Church of the Redeemer. The light which is now situated at the corner where Hayden street intersects with Wilbur avenue from the east was ordered changed to the point where the same street intersects the avenue from the west.

The chairman of the sewer committee announced that the committee was not ready to report and that a meeting would be held this (Saturday) afternoon at which attorneys would be present and the matter would be discussed.

A number of bills including the street and police payroll were ordered paid and side walk rebates were granted the following persons: Sarah McIntyre, Fred Forbes, Dr. J. E. Everitt, M. A. Elmer, Wm. Cornell, Mrs. E. L. Maynard, Mrs. A. L. Halliday, Clarence Springer W. C. Eberhart, W. J. Ross, H. W. Burlington and Mary Beecraft.

President Sawtelle stated that he believed that the time for consolidating the boroughs of Sayre, Athens and South Waverly had come and asked for an expression of the council. The matter was discussed to some extent and it was decided to appoint a committee to confer with the councils of the other boroughs.

The police report was received and placed on file, and after the council had audited a bill amounting to \$4 for two comfortable for use in the borough bug house, a motion to adjourn was carried.

**SIDEWALKS MUST  
BE KEPT CLEAN**

Borough Authorities Will Enforce Ordinance, Relative to Cleaning Them After a Storm

The matter of clearing snow from the sidewalks in Sayre during the coming winter was brought to the attention of the council last night by street commissioner Fields. The borough ordinance provides that the snow shall be removed from sidewalks within a stated number of hours after each storm. Except in the public parks and on sidewalks in front of property under control of the borough authorities it is the duty of every resident who owns or is occupying dwelling houses, in the front of which are sidewalks, to see that the same are kept clear from snow.

The council discussed the situation to some extent and then decided that it was a matter which properly belonged to the burgess and the police department. The clerk of the borough was instructed to communicate with the burgess and inform him of the action taken by the council. As soon as the matter has been called to the attention of the burgess it is quite likely that he will instruct the police to take lawful methods to insure clean sidewalks in Sayre during the coming winter.

**GREATER SAYRE A  
STRONG POSSIBILITY**

Important Steps Taken by the Borough Council Toward the Consolidation of the Towns of Sayre, Athens and South Waverly

"Consolidation is the order of the day and I believe that the time has arrived when the boroughs of Sayre, Athens and South Waverly should be amalgamated under one city charter. The proposition will no doubt meet with opposition but nevertheless it is my opinion that it is a matter which is worthy of consideration, and I should like to hear from the members of the council," said M. H. Sawtelle, borough president, during a lull at last night's meeting of the borough law makers. The proposition met with favor and during the ensuing half hour it was freely and fully discussed. Every councilman in the chamber spoke in favor of the project, and if the impetus it was given last night is followed to the finish the chances are decidedly in favor of bringing the boroughs named under one grand city government.

In years gone by the question of uniting the three boroughs has been discussed, but never until last night were there any well defined plans made for bringing about the object. It has for a long time been conceded that eventually Sayre, Athens and South Waverly would consolidate, borough lines would be eliminated, and a city of from 15,000 to 20,000 souls would result. Business men and influential citizens, in all three boroughs who are interested in the great possibilities of this valley have given the matter their serious consideration and from time to time have expressed themselves as willing to work for the adoption of certain measures which in the end would spell GREATER-SAYRE.

Until the present time the matter has been merely a pleasant dream to those who were interested, but at the meeting held by the Sayre borough council last night the first preliminary step was taken; a step which will meet with the approval of every citizen of this borough and which has already been looked upon with favor by many residents in Athens and South Waverly.

The council gave the question considerable discussion during which it developed that there was a unanimous sentiment in favor of consolidation. It was argued that the three towns at the present time are practically one, but that by reason of borough lines and separate governments neither of the places mentioned could ever hope to gain prestige abroad. On the other hand consolidation would mean a city of the plains, under one government, with at least 18,000 inhabitants, that would command the attention of the outside world, and result in manufacturing establishments and similar enterprises looking upon the place with favor. Briefly, these are the reasons that are given by those who believe that the three towns should be united.

In order to accomplish this end it will be necessary to appeal to the state legislature. At the extra session which will be held at Harrisburg presently a bill will be introduced and probably passed by which the city of Pittsburg will absorb all its suburbs, and at the council meeting held last night it was suggested that it would be an excellent plan to move now and see if the matter could be called to the attention of the legislature while it is in session.

At the conclusion of the discussion Councilman C. C. West suggested that a committee of three be appointed by the president of the council and that the committee be instructed to request the councils of Athens and South Waverly to appoint committees with a view of holding a joint meeting at which the question of consolidation could be freely and fully discussed. The council took favorable action upon Mr. West's suggestion and

the president announced that he would appoint the committee later and that the members thereof would be notified of their appointment by the borough clerk.

As stated by Mr. Sawtelle the proposition will no doubt meet with opposition; this is to be expected. Similar propositions have been unalterably opposed but it must also be remembered that they have also met with success. If the matter is to be followed to a successful conclusion the slogan from now on must be GREATER-SAYRE! If a well defined and concentrated effort is made the result will be successful. It is up to the citizens of Sayre to stand by the council and assist them wherever it is possible. This assistance can be given in various ways. Talk for it, work for it, and anyway don't throw cold water upon it.

**SIMPLE SIMON SIMPLE**

Simon and Mose made popular throughout the United States through the medium of the comic newspaper supplements, have been made the central figures of a new rural operatic extravaganza. "Simple Simon Simple" This clever piece was brought out in Philadelphia last summer and was performed for many weeks to large and enthusiastic audiences. While the spectacle was written around cartoon characters, it is a well constructed vehicle, consistent, funny and tuneful to a degree. This, combined with handsome costumes, careful scenery and peopled with a bevy of pretty girls, makes the entertainment an enjoyable one in every respect. "Simple Simon Simple" is filled with novelties, the most striking one being the Frog Pond at night, and shows a moonlit swamp filled with lily pads, bull rushes, etc. Mose seeks to prove his love for Dinah whom he has met there by appointment. They are interrupted by Simon who appears as a gigantic frog. The diminutive lovers flee in terror and Simon does an eccentric frog dance and song, the chorus of which is taken up by a chorus of girls whose hats are really the lily pads which seem to float on the placid surface of the stream. "Simple Simon Simple" will be the attraction at the Loomis on Tuesday, December 12.

**APPRAISEMENT COMPLETED**

W. E. Lane, trustee in the H. A. Kaufman bankruptcy matter, and the appraisers, L. Marks, Frank Rosenfield and John Mix, of Towanda, have completed the inventory of the stock left in the Lockhart street store at the time the doors were closed. The inventory would indicate that matters are in much better shape than was supposed at the time the petition of the bankrupt was filed and that there is a possibility of creditors receiving a fair percentage of their money.
