Answers Secretary Taft's Report by Open Letter.

MAINTAINS COLON IS A PEST HOLE

Flays Administration of Canal Zone and Says Sanitary Inspection in Some Districts is a Sham. To Testify Thursday.

WASHINGTON, Jan. 13.-The sen ate committee on interoceanic canals placed in the hands of Sergeant at arms Randall a subpoens for Poultney Bige low, whose attack on the government of the capal zone and capal affairs was denounced by Secretary Tuft in a communication sent to congress by President Roosevelt.

Poultney Bigelow has notified the committee that he will appear before them next Thursday morning to testify regarding canal conditions

In an open letter to the press, replying to Secretary Taft's retort, Mr. Bigelow sava

"My charges Mr. Taft does not meet, though he makes a bulky pamphlet at government expense in seeking to discredit personally those whom I mention in my communication to the Inde pendent of Jan. 4. What abuse falls to my share leaves me cold

"The administration pamphlet of Mr Taft denounces Mr. Lundie as one to whom I should not have listened. Mr. Bigelow admits the truth of Sec retary Taft's charge that he spent bu twenty-eight hours in Panama, but adds that he saw a good deal in that time. He continues: "I have made several broad charges

and. I authorize the trustees of the Boston university to withhold my salary for the coming year if these charges are not substantially true.

"I am willing to abide by the brief yes or no of any one with a respectable standing among average men of clean business record. It will cost no more to send such a man to Panama than to print pamphlets denouncing these who criticise the canal commistime in receiving official deputations and attending dances, but will disguise himself as a plain citizen and go at unexpected times to visit the places where Mr. Taft assures us officially that life is tolerable, even healthy.

"Colon today is mainly a swamp, into which is dumped all the fith of the negro population and where this popuation is compelled to sleep. There is r at Colon save this awarm wa. ter and what can be collected by the dripping from the roofs of the shanties. The sanitary inspection of Colon is a sham. The negroes are leaving in large numbers by reason of legitimate grievance which is a matter of common knowledge. I need not go through once

"Mr. Taft can hire hundreds of politicians to call me offensive names, but until he precures a respectable engineer or man of business to indorse the present state of administration on the canal some no amount of government printing will afford him any real com

LONGWORTH ON PHILIPPINES.

Polls Mouse of His Impressions o Islands-Favors Their Freedom. WASHINGTON, Jan. 13 .- The statement of Mr. Dalzell during the discussion of the Philippine bill in the house of representatives that it would cost \$4.18 a hundred to lay Philippine sugar down in New York was disputed by Mr. Brooks, who placed the figure at \$2.55. The friends of the bill, he said, claimed that under it but 200,000 tons of Philippine sugar would come here. Beet sugar men were not afraid of that amount, but were afraid of the amount they themselves believed would come, from 700,000 to 1,000,000 tons.

The Filipino laborer who would produce the sugar, Mr. Brooks said, wears for clothes a breechcloth; he gets his breakfast from a tree, his dinner from the same tree and works for 15 cents a day. This is the labor that will be placed in competition with the Ameri-

Mr. Longworth (O.) gave the bouse his impressions of his Philippine trip last summer. He was greeted with applause, and marked attention was given his castigation of the Filipino character. He favored the bill as the best means of developing the Filipino into a condition of self government, at which moment he would be more than glad to drop the islands.

"I cannot bring into my mind that there is any brilliant future for the Philippine Islands, and with the sole exception for the love of family and the home that the average Filipino possesses I can see nothing bright in the Filipino character," he declared.

The passage of the bill, be said. would not damage one lots any American industry or any American labor employed in that industry. No one after smoking one native cigar, he said, would want another, and with only one island on which sugar could be raised and that without harbor he saw no danger from that source.

"I for one," continued Mr. Longworth, "am not in favor of holding the Philippine Islands as a part of the United States a moment longer than we absolutely have to."

A GREAT SWINDLE.

Seaton in Tombe at New York How Script Was Porged. NEW YORK, Jan. 13 .- Officials at po-

lice headquarters and Pinkerton men declare the plot to counterful the stock of the Norfolk and Western railroad was one of the greatest swindles ever attempted in this country, and every effort is being made to place all mem bers of the band of forgers under ar-

Charles Augustus Seton, the principal figure in the case, who was arrested in Turkeytown, Md., and brought to this city, was arraigned before Recorder Goff and remanded to the Tombs without bail. Trial was set for Monday.

The manner in which the forged certificates were secured and placed on the market by Seton and the men who aided him forms an astounding chapter in the revelations of the great conspiracy. It goes to prove that the securities of a railway company that earns \$30,000,000 a year can be printed and put into eirculation without the officers of the company being apprised of the transaction.

The Hamilton Bank Note company of New York printed the bogus certificates on the strength of a forged letter purporting to be addressed to Seton from C. B. Franklin, when no such man as Franklin was ever connected with the Norfolk and Western company. This letter is exhibited by the bank note company in justification of its ac-

tion in printing 500 hundred share cer-

tificates in two books of 250 each. The letter was written on note paper of the Waldorf-Astoria hotel. The Seton & Co. had a very elegant suit of offices at 49 Exchange place and that Setch had a genuine certificate, which carrying out the fraud. A RECORD MARCH.

Sinth Field Battery Reach Fort Sa. Rouston In Sorry Plight.

KANSAS CITY, Mo., Jan. 13 .- A special to the Star from Fort Sam Houston, Tex., says: The Sixth field battery of United States artillery, commanded by Captain G. W. Gatchell, entered Fort Sam Houston amid the cheers of the local garrison. The battery broke the world's record for long distance practice marches of artillery, having covered the estimated 1,100 miles from Fort Riley, Kan., to Fort Sam Houston in thirty-five days. The battery was compelled to make several detours in order to evade bad roads and unusually rough country. This made the dission. Such a man will not spend his tance which it actually covered consid erably longer than by rail.

It is asserted by army men here that it is by far the longest practice march ever made by artillery in time of peace and that no forced march in time of war with the exception of Napoleon's retreat from Mescow compared with it in distance.

The artillerymen of the Sixth battery were a sorry appearing set of mer and dirt that the color of the cloth could not be distinguished. The men are haggard and lean. Many of them were scarcely able to travel. The horses resembled moving skeletons.

The men walked nearly the whole distance in order to keep warm. One man was lost by siskness. This was Private Arthur Hail, who was attacked with malaria and died in the hospital in Austin. His death was due, accord ing to the physicians, to exposure and hardship.

Cable Communication With Oastro's Country Out Off.

FRANCE ANGRY AT INSULT TO TAIGNY

American Minister Tried but Failed to Effect Peaceful Settlement of President's Attack on Cable Company.

WASHINGTON, Jap. 13.-The state department has been advised that cable communication with Venezuela bas been interrupted.

The difficulties between France and Venezuela are likely to reach an acute situation soon, and it is understood here that France, impatient, will sever all diplomatic relations with Venezuela, withdrawing M. Taigny, the charge d'affaires of the French legation, to gether with all the others connected with the mission.

France is exasperated with the attitude of President Castro, and serious ment is made that J. Rogers Maxwell, interests when the French mission at racing and cruising schooner to the Caracas is abolished.

The claim amounts to some hundreds of fered by King Edward of England. thousands of dollars, and it is regarded as a very just demand by the state department

The present breach in the diplomatic relations between France and Venezuela is technically chargeable against the personality of M. Taigny, the French charge at Caracas, but the real issue is the attack by President Castro upon the properties and franchise of the French Cable company.

The climax came on New Year's day. when the French government, supposing that a satisfactory settlement had been reached, received with the usual honors of the New Year day reception the Venezuelan minister at Paris, only to learn that President Castro had refused to do likewise for M. Taigny at Caracas.

This omission touched the pride the French government, which felt had been made the victim of double not slow to communicate to the state department. Mr. Russell, the American minister, failed to effect a settle ment, thereby making himself unpopu lar in Caracas, and then came notice from the French government that diplomatic relations with Venezuela were completely severed. There is a hint of punitive measures on the part of France, and the situation is regarded officially as very unpleasant, with pos sibilities of serious consequences.

French Ultimatum May Follow. PARIS, Jan. 18.-An official note just issued says that, although an ultima tum has not yet been sent to Venezue when they arrived here. Their clothing President Castro's refusal to accede to was in tatters and so covered with mud the French demands without consider ing the advisability of taking stronger means to enforce them.

A detachment of infantry surrounded the town of Novominsk, Russian Poland, at daybreak and captured a large

The ex-president has a broken leg as the result of a shot during the fighting two weeks ago at Jaims, in which Moraice participated.

Morales is accompanied by representative Monte Cristi revolutionists, who all took refuge in the legation of the United States.

Morales' resignation as president of Santo Domingo has been tendered and accepted. He will leave the city on board the United States gunboat Dubuque, bound for Porto Rico. The former president is accompanied by Enrique Jimenes.

Vice President Caceres, who has been acting as president since the time General Morales fled from the capital, is 2.58 now, according to the constitution, president of Santo Domingo.

The change in the government does not imperil the negotiations for a treaty between Santo Domingo and the United States. General Caceres is favorably inclined toward the ratification 4.48 of the agreement reached. General Morales was until recently

The Jimenistas, the party with which Morales threw in his lot, has been badly defeated, and it is not likely that the party can go any further with the revolutionary movement

Morales was brought to the legation under cover of the darkness late at night in a helpless state, and he appealed to United States Minister Thomas C. Dawson for a guarantee of safety. It is stated that a safe conduct will be given to Morales on condition that he resign immediately and go into ex-
