TALKS ENTERTAININGLY OF THE KLONDIKE

Athenian Tells Some Interesting Facts Connected With That Far Off Field of Gold

Athens—Delmer A. Parks is one of our Athens boys who has seen quite a large share of the world and he has had experiences that would make interesting reading, were he not too modest to repeat them. He has been to the Klondike, having spent 1897-8 in the Yukon region. During the cold season all the streams up there except the Yukon are frozen solid and all the water they can get, even for drinking purposes, is obtained by melting ice. The great glaciers are formed of ice that has been accumulating for centuries, forming a solid mass hundreds of feet thick and these occasionally break up and come thundering down the mountain sides into the valleys below, covering everything in their way. The gold is obtained from the beds of the streams by digging through the debris that washes from the mountain side. Mr. Parks says that the rich resources of the country are only beginning to be realized.

Mr. Parks returned home as soon as the spring warmth opened the way for him to get out of the country. The ground there is frozen to a depth of a hundred feet and it takes a long time to thaw out.

Ben Macafee has been laid up from an injury he received while attending a funeral in Elmira, January 2, but has now recovered so that he can walk without crutches. He went to Towanda today.

A NEW MARRIAGE BILL.

Senator Cobb Would Safeguard Foolish Young People.

ALBANY, N. Y., Jan. 16.—A bill aimed to prevent the marriage of persons under eighteen years was introduced by Senator Cobb of Watertown. It provides among other things that all persons desiring to be married shall obtain from the county clerk where the woman resides or where the marriage is to be performed a license, and safeguards are thrown about the issuing of the licenses.

Among its provisions is a requirement that no license shall be issued by the county clerk to any man under the age of twenty-one years or girl under the age of eighteen unless the written consent of the parents or guardians of the persons under age are obtained and filed.

The act also prohibits marriage between first cousins and negroes or mulattoes of either sex with white persons.

CHEROKEE ABANDONED.

Captain Archibald and Mate Driven From Wrecked Liner—Mails Saved.

ATLANTIC CITY, N. J., Jan. 16.—Captain Archibald, his two mates and the life-saving crews have abandoned the stranded steamer Cherokee. When they left the steamer to the fate of the elements waves were rolling over the deck and pounding against the pilot house, which was the last refuge of the captain and his little band of men. The big vessel, which is valued at about \$500,000, will probably be a total loss.

Captain Myrk Casto, who made the sensational rescue of sixty persons from the steamer, went out to the stranded vessel in the sloop yacht 'Sin' bad, accompanied by Captain C. M. Kessler and a small crew, and brought ashore all the mail bags and baggage of the passengers and crew.

A number of persons have been bitten by rabid dogs, and considerable alarm has been expressed by residents of that part of the state.

Harper's Charities.

CHICAGO, Jan. 16.—It is announced that the estate left by the late President Harper of Chicago university is small and consists almost entirely of life insurance policies. It is estimated that Dr. Harper during his life gave between \$35,000 and \$50,000 to the American Institute of Sacred Literature, a publishing concern in the work of which he was greatly interested. He also gave much money to needy students, but the amount of this will never be known. It is said that the entire estate is given to the widow with out reserve.
