

Are You Troubled With Eye Strain?

Eye Strain is Not a Disease

But arises from mechanical defects in the construction of the eye or its controlling muscles.

I Do Not Use Drops

Belladonna, Atropine or other mydriatic, injurious drugs, all of them, and belonging to a past stage in the science of optics as applied to eyesight testing.

I Recommend Glasses

Only when positively needed and clearly promising good results. Considering the character of the work I do my charge for a thorough examination of the eyes and glasses is moderate.

W. H. BAIRD, Eyesight Specialist.

Remember the place, Corner Broad and Clark Streets, Waverly. The only exclusive optical parlors in the valley.

CHANGES FROM CHILD TO 19-YEAR-OLD GIRL.

Remarkable Transformation Wrought in Miss Mary Scally in 48 Hours—Her Strange Malady.

Morristown, N. J.—Miss Mary Scally, a pretty 19-year-old girl of this city, has just experienced something little less remarkable than a resurrection.

The marvelous change was wrought in 48 hours. In every respect except as to her physical stature Miss Scally had been as a little child. She drank milk from a tube. She was guided when she walked as though she were a tottering babe.

Her aunt, Bridget Scally, who lives with Mary and the girl's father, Patrick Scally, had given up hope of the young woman's recovery and had settled down to care for her in the same way that she would for a baby when the girl, within two days, leaped the span of 19 years of mental development.

All of the other five children of the household are overjoyed at Mary's recovery, but nevertheless gaze upon her with no little awe. They scarcely can reconcile themselves to the belief that she is not a supernatural being.

Dr. Henriques, who attended the girl through her malady, said that he believed there would be no return of the affliction, although he was at a loss to give a scientific reason for the weird occurrence.

SHE SAT ON THE FLOOR AND PLAYED WITH DOLLS

with no little awe. They scarcely can reconcile themselves to the belief that she is not a supernatural being. Dr. Henriques, who attended the girl through her malady, said that he believed there would be no return of the affliction, although he was at a loss to give a scientific reason for the weird occurrence.

Be Cheerful. Perhaps it is natural for one child to be happy and sunny and for another to be blue and down-hearted; but cheerfulness is a quality which can and ought to be cultivated in all. The world will return your smile if you give it a chance, and you and the world will be better for it.

"LOST ON ERRORS."

How Inaccuracies in Life Rob the Individual of the Realization of the Best.

Nothing is commoner than to see in flaring headlines in the baseball extras of the evening papers, this caption: "Lost on Errors." We do not pretend to be very thoroughly posted on the fine points of "theational game," but we suppose that by "errors" are meant such things as wild throws, wild pitching, passed balls, muffed balls, balls misjudged, attempted bases foolishly and unnecessarily, etc.

Precisely so. And it is so in all life. It is the little foxes that spoil the best vines. It is the little rift within the lute that slowly widens and at last stops all the music.

It is the little disagreeable mannerisms, discourtesies, bad habits, faults, negligences, vices, which in the end bring failure and disgrace. It is not necessary, that one should be either a great fool or a great criminal to bring defeat and disaster upon himself.

Idleness, indifference, slipshod work, a little lack of the highest and finest conscience and honor, will do the business. And in one's religious life the same rule holds. We do not have to go out and break all the Ten Commandments in order to make shipwreck of our souls.

Simple "neglect of so great salvation" will do it. Inattentiveness, carelessness, slothfulness, a letting down, little by little, of ideal and purpose, will bring it about. Life here and life hereafter may be "lost on errors."—Parish Visitor.
