

Are You Troubled With Eye Strain?

Eye Strain is Not a Disease

But arises from mechanical defects in the construction of the eye or its controlling muscles. Relief in such cases can only be had through application of suitable glasses made to correct all existing defects. I make a special study of eyesight testing in all its branches and can assure a perfect correction wherever it exists.

I Do Not Use Drops

Belladonna, Atropine or other mydriatic, injurious drugs, all of them, and belonging to a past stage in the science of optics as applied to eyesight testing. I make use of the latest and most improved scientific instruments for determining the possible presence of disease, and to measure accurately all errors of refraction and muscles.

I Recommend Glasses

Only when positively needed and clearly promising good results. Considering the character of the work I do my charge for a thorough examination of the eyes and glasses is moderate.

CHARGED WITH STEALING A MILL

Waverly—William J. Dunham and Arthur Floyd were arrested on complaint of Wilbur J. Ames, charging them with breaking in a barn and stealing a shingle mill. The complaint set out that the mill was in a barn and locked to a post therein and that the barn was locked and that the defendants broke into the barn, broke the chain and carried the mill away. The defendant, Dunham, claimed that he sold the mill on a contract which gave him the right to take it wherever he found it if there was default, in payment, and that the complainant had not kept up his payments.

Defendant Floyd had been hired by Dunham to assist in carrying away the machine.

The defendants waived a hearing and gave bonds to appear before the grand jury.
