New York Life Trustees Will Extradite Hamilton.

M'CALL TOO SICK TO PROSECUTE.

It is said that Lawyer Was Able to Draw Money at Any Branch Office Without Voucher and That He Got \$250,750.

NEW YORK, Feb. 10.—In view of the Fowler house cleaning committee's report, which was adopted unanimously at a special meeting of the New York Life trustees, the trustees, it is said, have under consideration proceedings looking to Andrew Hamilton's extradition should he persist in his refusal to return and give an accounting.

Regarding Mr. McCall, the committee is informed by his family that his physical and nervous condition is such

"JUDGE" ANDREW HAMILTON, that the subject (of certain remittances charged to the "policy fee account" in the Paris office "cannot be taken up with him at present.")

It is asserted that Hamilton got from the New York Life since 1892 \$1,347,382.41. The Armstrong committee was able to uncover but \$1,164,000. That of the \$1,347,382.41 Hamilton has only accounted for \$37,007.61, leaving an unexplained balance of \$1,809,774.80.

That suits will be brought against Hamilton for an accounting of \$796,964.01.

That suits should be brought against Hamilton and McCall for \$219,500, in addition to the \$235,000 already paid by McCall to the New York Life on account of the Hamilton payment.

That Hamilton had the power to go into any branch office of the company and obtain any sum of money simply by presenting an order signed by McCall. He was not required to give any explanation or render any accounting. From 1896 to 1906 he took in this way \$599,750 out of branch offices.

That between 1900 and 1903, on called orders sent by McCall, Hamilton got from the Paris office of the company \$144,500. Of this he gave John A. McCall \$10,000 in two sums, one of \$7,500, the other of \$2,500. Why McCall should have got New York Life money through Hamilton in this way is not explained.

That Hamilton collected \$90,336.47 from other insurance companies on claims filed by the New York Life. No entry of the collections was ever made in the books of the company.

Throughout, the report credits explanations previously made by McCall and Hamilton.

Their First Sleigh Ride. ITHACA, N. Y., Feb. 10.—Viceroy Tsun Fang and Tai Hung Chi, the imperial Chinese commissioners, enjoyed the first sleigh ride of their lives in this city after spending several hours visiting Cornell university. When the members of the party awoke in their special train, sidetracked at the railway station, six inches of snow covered the ground. While en route for the campus on a trolley car the visitors took much interest in passing sleighs and expressed a desire to ride in one.

Governor Carter Improving. HONOLULU, Feb. 10.—The condition of Governor Carter is much improved, and his physicians now regard his case as an aggravated attack of grip. It is said, however, that he will not be able to attend to the duties of his office for at least two months, and the physicians will sign a certificate to that effect, which is supposed to have the legal effect of making Secretary Atkinson acting governor.

Y., Feb. 10.—A delegation from Buffalo called at the executive chamber and urged Governor Higgins to favor the establishment of a branch of the naval militia at Buffalo. BOMBS IN A CABARET.

Dynamite Used in the Revolutionary Riots at St. Petersburg.

ST. PETERSBURG, Feb. 10.—The war between the "fighting organizations" of the revolutionists and the so-called Black Hundreds assumed a new phase here when a band of "reds" surrounded the Cabaret Schlusberg-Chaussee, on the bank of the Newsky river, above the city, and threw a bomb among the assemblage of workmen. The "reds" then opened fire on the panic-stricken inmates of the cabaret, killing two and seriously wounding eighteen, of which latter one died while being taken to the hospital.

The bomb, which was hurled through a window into the main room of the restaurant, exploded with a terrible noise and demolished almost the entire building. A wooden partition was blown out, and much furniture, glassware and crockery was shattered. The ruins were spattered with liquor and blood and pieces of flesh, the whole presenting a sickening sight.

The restaurant had been for some time known as a resort of the lower order of workmen and rough characters who were believed to be in the pay of the police.

Military detachments, which are constantly patrolling the turbulent industrial suburbs, re-enforced by dragoons and police from the city, and threw a cordon around the whole district. Most of the revolutionists made off at the approach of the troops, but a few bolder spirits remained and offered a desultory resistance to the encircling soldiers.

Wholesale arrests were made, which are still continuing.

Vice Admiral Chouknin, commander of the Black sea fleet, was wounded here by a woman who attacked him in his office. A sentry who rushed to the admiral's assistance shot the woman dead. No statement has been issued relative to the extent of the admiral's injury.

General Linievich reports that wholesale arrests of revolutionaries have been made at Chita, in Transbaikalia. Among those arrested are eighty-one soldiers. Large quantities of arms and explosives have been surrendered to the authorities.

In a dispatch received here from General Mitschenko Vladivostok is reported to be tranquil.

The killing of three workmen at the Putloff factory and this last episode are believed to be but a prelude to other acts of retaliation and revenge between the two factions.

NOT IN DEFUNCT BANK.

Charles F. Kriechler Not Responsible For Pittsburg Failure.

WASHINGTON, Feb. 10.—A short time ago Charles F. Kriechler, candidate for mayor of Allegheny, Pa., wrote the president saying that a certain preacher of his city had been charging him, sometimes openly and sometimes by insinuations and innuendoes, with responsibility for the failure of the Enterprise National bank and asking that the matter be investigated. The president referred the letter to the secretary of the treasury, and he in turn asked the comptroller for a report. The comptroller's letter to the secretary of the treasury is as follows:

"I return herewith a letter from Mr. William Loeb, Jr., secretary to the president, and also a letter addressed to the president by Charles F. Kriechler, president of the Provident Trust company and Republican nominee for mayor of Allegheny, Pa.

"As requested by you, I have asked Thomas Rinaker, receiver of the Enterprise National bank, and Edward P. Moore, special national bank examiner, whether there is anything implicating Charles F. Kriechler or in any way connecting him with the failure of the Enterprise National bank.

"Mr. Moore writes as follows: 'Thus far in my investigation I have not run across a record of any transaction that Charles F. Kriechler had with the bank, either as a maker or indorser of any note. His name does not appear to be among the depositors of the bank.'

"Mr. Rinaker writes and telegraphs me practically to the same effect, so that I am safe in saying that there has not been found in the Enterprise National bank any evidence at all to justify any charge that Mr. Kriechler was connected, directly or indirectly, with the failure of the bank."

Cruades Against Boston Bucket Shops. BOSTON, Feb. 10.—John V. Flanagan, member of the brokerage firm of J. J. Quinn & Co., was arrested on a warrant charging him with keeping a common gambling house. It is understood that a test case will be made in order to determine whether these places are violating the law.

BOXER RIOTS AGAIN

Foreign Mission Chapels Destroyed at Changtu.

TROOPS CONCENTRATED AT MANILA

Force of 12,000 Men Ready to Be Embarked For Chinese Coast at a Moment's Warning—Hawaii Force Ready For Action.

WASHINGTON, Feb. 10.—News of a positive nature received from Amoy, China, tells of the destruction of the English Presbyterian and Roman Catholic missions at Changtu, thirty miles from Amoy, by a mob described as composed of Boxers.

The damage amounts to more than \$50,000, and the place for a time was completely in the hands of the mob, who secured bent on the destruction of all buildings occupied by foreigners. The rioting caused the greatest excitement. The American missions were uninjured, as the attacking party was driven off before it could reach that locality.

The boycott of American goods is strong in that province, and it is considered surprising that the American possessions were not among the first to be attacked. The hostile sentiment to foreigners, however, was strong enough to include the other institutions. Ever since the boycott of American goods was begun throughout the different Chinese ports Amoy has had a full share in the disturbances arising therefrom, and many attacks of minor importance had previously been made as a result of the hostile feeling.

Secretary Taft before the senate committee on appropriations has requested an appropriation of \$100,000 to be expended for additional barracks and quarters for the army at or near Manila.

He stated that the situation in China was such that it might be necessary at any time to send troops there and that it would be wise to have troops near to be used for that purpose. The committee, however, declined to make an appropriation at that time.

Nevertheless several weeks ago a force of 12,000 men was to be concentrated at Manila, and since that time small detachments have arrived there, bringing the number of United States troops ready to be embarked for the China coast up to a considerable number.

At the same time concentration of forces has been quietly but steadily going on in Hawaii, where they will be nearer the scene of possible action, and both forces are being held ready for any emergency.

White House Is Too Small.

WASHINGTON, Feb. 10.—President Roosevelt authorized the following statement, which was given out at the White House: "The president and Mrs. Roosevelt ask the kind consideration of many friends who would under ordinary circumstances receive invitations to Miss Roosevelt's wedding. The capacity of the White House required that under existing circumstances invitations be limited to the closest kinfolk, the personal friends of Miss Roosevelt and Mr. Longworth and certain classes of officials in Washington. No friends of the president or Mrs. Roosevelt are being asked unless they also come within one of these classes, and even within these limitations the number of guests threatens to overtax the capacity of the White House."

Train Run Away on Raton Mountain. TRINIDAD, Colo., Feb. 10.—While an eastbound freight train on the Santa Fe railway was at the top of Raton mountain the engineer lost control of the engine. The train descended the mountain at a terrific rate. On a curve the engine and thirty freight cars were piled up in a broken mass. Two brakemen are supposed to be under the wreckage crushed to death. The engineer and fireman jumped and escaped with severe bruises.

Big Gun's Muzzle Blown Off.

WASHINGTON, Feb. 10.—An accident has occurred at the naval proving ground, Indian Head, by which a part of the muzzle of a twelve inch gun was blown off. The gun had been used in various kinds of experimental work, and, although pieces of the muzzle were blown to a considerable distance, no one was injured, and only trifling damage was done to the surrounding grounds and mounts.

C., Feb. 10.—The board of aldermen last night unanimously passed an ordinance, effective June 1, requiring the street railway companies to provide separate cars and waiting stations for white and colored people. A JOKER IN QUANTINE.

English Tourist Jollied Port Surgeon and Was Booked as Crazy.

NEW YORK, Feb. 10.—Enthusiastic protest and appeal were made to the British consul by the Earl of Yarmouth and other close friends of Ernest Fownes, a wealthy Englishman who, through a first cabin passenger on the Baltic, was held all night on the vessel by order of a surgeon of the marine hospital corps.

His being taken from the jolly throng of saloon passengers at the Baltic's pier was followed by indignant protests, but the man was forced to spend the night on the shipboard instead of in one of the finest hotels in the city, as he anticipated.

"I was thunderstruck," said he when interviewed by several reporters on the Baltic, "when Dr. Ward told me I was detained. I thought at first he was chaffing me, too, having heard what wags you Americans are, and not dreaming that he had failed to see the joke in my humorous answers to his questions."

"What did you say to Dr. Ward?" some one inquired.

"He asked me who I was, and I said, 'Oh, I'm nothing on the face of God's green earth, you know.'"

"What's your business?" he asked me.

"Oh, I'm a job master or a job lots or anything you like, y' know," I replied gaily. "It really doesn't matter what you make it."

"I thought he looked at me a little queerly," continued Mr. Fownes, "but I never imagined for a moment that he didn't understand I was having a little fun with him. So when he said I was detained, I thought it all a part of the joke and cried:—

"'Hooryay, that's fine!'"

PENNSYLVANIA WON.

New York Collegians Defeated in Fastest Basket Ball Game.

NEW YORK, Feb. 10.—After playing the fastest basket ball game ever seen on the Columbia courts and tying the score toward the end of the second half Pennsylvania shot the first goal in the extra period to decide the tie and defeated Columbia by the score of 17 to 15.

Columbia led in the first half with 10 to 6, Pennsylvania losing many chances by inaccurate shooting. But in the second half the Pennsylvania forwards played with greater skill, and four goals were made through splendid team work. Flint, right forward, scored the winning goal on a pass from Ehlers. Summary:

Goals from field—Pennsylvania, Ehlers 5, Kolnath 1, Flint 1, Columbia, Ryan 2, Hurley 2, White 1. Goals from foul—Pennsylvania, Flint 3, Columbia—Moore 5. Time of halves, twenty minutes.

RUSSELL TO GO NOW

American Minister Has Become Unpopular at Caracas.

LITTLE REPUBLIC PREPARES FOR WAR

President Castro Can Raise an Army of 10,000 Men Armed With Machine-Guns—Five Small Crafts Are Called a Navy.

CARACAS, Feb. 10.—It is reported here that William Russell has become unpopular with Castro's government owing to the apparent siding of the United States with France and that he may receive his passports any time. Matters are nearing a climax, as President Castro will compel obedience to his will.

Five days ago the El Grito Del Pueblo suggested that the people should not resist the French. The editor was immediately imprisoned without a show of trial, and the paper was suppressed.

President Castro is busily engaged in recruiting throughout the republic and in other ways preparing for war. Generals in each state have been commissioned, and orders have been given to call the recruits to the colors.

General Alcantara, a Venezuelan educated at West Point, has been appointed to the military command of La Guayra. He has received orders to fire on any French warships the moment they are sighted.

Puerto Cabello and La Guayra are the only ports capable of making a slight defense. The former has two modern six inch guns, and the latter has four modern six inch guns with the usual display of old Spanish pieces which would be blown to pieces at the first shot.

It is doubted whether President Castro can raise more than 10,000 men who will take the field with any show of spirit. The men are armed with Mauser rifles, but they never practice shooting. They have 20,000 rounds of ball cartridges and a few mountain guns. The Venezuelan navy consists of five small craft, concentrated at La Guayra.

"Snatcher" Dyer and Thomas Hewitt, a private detective, are under arrest. Besides those under arrest or wounded those who participated in the shooting were Harbor Master James McBride and his son, Tim McBride. About forty shots were fired.
