Made to the Board by C. E Loetzer, Who Appeared as a

There was a regular meeting of the local board of health held last night at the office of Attorney C. C. Yocum, and although only business of a routine nature was transacted the meeting was of considerable importance as the sanitary condition of Sayre borough was discussed to a considerable extent, and as a result of such discussion the board has been asked to prepare and present to the council an ordinance designed to correct unsatisfactory conditions which are said to exist at the present time The matter was brought to the Krom entertained at whist yesterattention of the board by C. E. day afternoon at the home of Mrs. Loetzer, superintendent of the Sayre Water company. Mr. Loetzer appeared before the board as a The Chicago Stock Company in citizen, and prefaced his remarks repertoire of first-class plays all by saying that he had been making next week at the Loomis. Matinee a careful study of the sanitary conditions throughout the borough The theme of the morning serand that he had found them to be vice at the Church of Christ tovery unsatisfactory, and suggested morrow will be The Will of Christ. to the board that right methods Evening subject, Does God Care? should be employed to correct evils in the shape of uncovered cess pools, many of which are located teenth of a series of dances in in close proximity to wells;" filthy Eighmey's hall this evening! cellars that had not been cleaned Dancing begins promptly at 8:30 in months, and unclean back yards o'clock and continues until 11:45 and other places where filth is allowed to accumulate and thereby turnish an excellent breeding place

Mrs. A. R. Catlin has returned Mr. Loetzer declared that he was well acquainted with the situfrom an extended visit with friends ation from the fact that his daily many places that are not usually John C Osborn went to Towanda today as a witness in the the direct result of improper sani- but a short time. for contagious disease germs.

being carried out. Before Mr. Loetzer concluded his remarks the members of the board propounded to him several questions, which precipitated a discussion as to the probable cause of typhoid fever and other contagious diseases with which the residents of this place have been afflicted. It was suggested to Mr. Loetzer that the city water supply, that taken from wells as well as from faucets, had been assigned as a probable cause for the typhoid epidemic. To these assertions Mr. Loetzer replied that "so far as the water company was concerned he had no apology to offer either to the health board or to the citizens of Sayre; that the back. officials of the company had thrown every safeguard around the water supply that it is possible for brains and money to provide, and that the present supply was as good as the running about not properly licensed best." Continuing, Mr. Loetzer stated that "the company had caused tests to be made at frequent intervals to show the condition of the supply and that the tests are D'Alanson Overton Humphrey, open to inspection, and have already been submitted to the state clock to make arrangements to this morning. The Record extends time is the result of using city

or any citizen of Sayre borough is cordially invited

emphasis on his various statements concerning sanitary conditions and earnestly urged that it was a serious matter and that the critical Several Important Suggestions time had arrived for decisive action. He also called attention to the fact that the borough had no dumping ground and that garbage was being dumped on lands owned by the land company without the consent of the latter. Recently, said Mr. Loetzer, the east bank of the Susuehanna river, opposite Sayre, had beeen used as a dumping place, and that the board of health should take the matter in hand and cause it to be stopped. Eventually, he said, the water company would be blamed in the matter and charged with taking a supply with which to urnish its patrons from a polluted stream. Mr. Loetzer said that the water company would hold the ocal authorities responsible for the onditions which prevail across the river and that if no relief could be obtained here the situation would e laid before the state board of

> what action will be taken is as yet undetermined.

A verdict of \$3,000 for personal damages obtained by James Hollenback of Dryden, against the Lehigh Valley Railroad Company, has been set aside by the New York Court of Appeals, and a new trial ordered. Hollenback sued the railroad company for injuries which he is alleged to have sustained in an accident at the Willow crossing in Dryden in April, 1902 A claim for killing a team was also included in the plaintiff's complaint. The case was tried in the Supreme Court before Judge Forbes in September, 1903, and resulted in the jury returning a verdict for Hollen-

### THE CHICAGO STOCK
