

Are You Troubled With Eye Strain?

Eye Strain is Not a Disease

But arises from mechanical defects in the construction of the eye or its controlling muscles. Relief in such cases can only be had through application of suitable glasses made to correct all existing defects. I make a special study of eyesight testing in all its branches and can assure a perfect correction wherever it exists.

I Do Not Use Drops

Belladonna, Atropine or other mydriatic, injurious drugs, all of them, and belonging to a past stage in the science of optics as applied to eyesight testing. I make use of the latest and most improved scientific instruments for determining the possible presence of disease, and to measure accurately all errors of refraction and muscles.

I Recommend Glasses

Only when positively needed and clearly promising good results. Considering the character of the work I do my charge for a thorough examination of the eyes and glasses is moderate.

R. D. VANDUZER BURIED TODAY

Funeral Services Were Conducted from His Late Home this Afternoon

Waverly—The funeral of the late R. D. Vanduzer, took place this afternoon at 2:30 o'clock from the family home on Park avenue. The Rev. Peter R. Ross conducted the funeral service. A large number attended and many friends and relatives from out of town were present at the service.

The damage, which amounts to about \$100, is fully covered by insurance.

ENGINEERS DISSATISFIED

The D. S. & S engineers who must move to Hazleton on account of the early train leaving Drifton being discontinued, are much dissatisfied and do not feel inclined to leave the cozy homes which they have erected in the latter town. The average engineer on the D. S. & S. is married and had built for himself a comfortable home which he will now be compelled to abandon under the recent order issued by the officials of the Lehigh Valley. While the present order only affects certain crews it is believed that the order will be made general before the summer months come.
