Tillman Balks at Criticism of Roosevelt.

#### ANGRY OVER RAILROAD RATE MESSAGE

Not a Lawyer, Only a Parmer, but Have Better Common Sense Than That," Says Senstor.

WASHINGTON, March 18 -- Mr. Till man addressed the senate in reply to Prosident Roosevelt's message concerning the Tillman-Gillespie resolution instructing the interstate commerce commission to make an examination of railroad discriminations in the matter of hauling coal and oil.

The message, which condemned the resolution on the ground that Its purpose was not specific, was sent to the desk by Mr. Tillman and was reread, The president after signing the resolution asked that additional legislation be entered into to make it effective.

Included in this request was a recommendation that an appropriation be made to carry on the investigation and specific authority be given to the commission to administer oaths and compel the attendance of witnesses. "I deprecate the necessity of criticis-

ing this most extraordinary document," said Mr. Tillman, "Fate has enlisted me as an ally of the president in getting an adequate railway rate bill, and I regret very much to have anything come up which would occa-sion any disruption of the amicable relations that now exist or appear to exist between us." This statement was greeted with

amiles and chuckles from other sens-

"But there are some things that as a senator I cannot put up with patient- treatment, but the weakness of her ly," continued Mr. Tillman, who said that the president's contempt and ridicule of the resolution seemed to charge that he had been ignorant of what he was doing in offering it.

"Now, that is going a great way in a very little while. That is a pretty big contract the president has taken on himself to justify such a sweeping pits, where more than a thousand mincharge," he said.

Taking up the resolution, Mr. Tillman said that it was a joint measure and was now a law. He called atten tion to the fact that both houses of congress had given the subject consideration. Then he added:

"There can be no good reason for the president to scold as in a manner that is almost insulting by charging us with inslucerity, pretense and ignorance. The only reason I can see is that he must have been miserably advised. I am not a lawyer, only a farmer, but I have better common sense than that."

He closed with a protest against the president "lightly and flippantly" insulting the senate. He said he could pardon many things on account of the
