THE RICHEST BABY

John D. Rockefeller 3d Holds World's Record.

BROWN BOY'S NOSE IS OUT OF JOINT

Grandfather Hears Glad Tidings of Son and Heir's Arrival at New York—Child May Inherit a Billion Dollars.

NEW YORK, March 23.—Master John Nicholas Brown of Providence has lost his job, one that he had held for over five years.

All of which means that a son has been born to Mr. and Mrs. John D. Rockefeller, Jr. It is a happy coincidence and one that may afford little Mr. Brown some consolation that the mother of the new holder of the title is a Rhode Island woman, for Mrs. Rockefeller was Abbie G. Aldrich, the daughter of United States Senator Aldrich, from Little Rhodey.

Following his entrance there was a hurrying of servants to telegraph of

MRS. JOHN D. ROCKEFELLER, JR. dices, and messages—announcing the birth of an heir to the Rockefeller millions were sent to all points of the compass.

The first notification was sent to the baby's grandfather, John D. Rockefeller, who is at his country place at Lakewood, N. J. The second was to Senator Aldrich, and others were sent to the McCormicks in Chicago.

The child is the second to be born into the young Rockefeller family. A little girl made her arrival Nov. 2, 1905. She was named after her mother.

John D. 3d, if that shall be his name, will, when he reaches the age of twenty-one years, be fabulously wealthy if the present rate of growth of the Rockefeller millions continues. It is estimated that John D. 1st has amassed nearly \$1,000,000,000, to the greater part of which fortune his son will succeed. And in turn the grandson will become the possessor of the fabulous sum to which this fortune will have grown within the next twenty-one years.

Labor Men Will Turn Politicians. WASHINGTON, March 23.—The executive council of the American Federation of Labor has discussed the replies of President Roosevelt and Speaker Cannon to the bill of grievances presented to them and to President Pro Tem. Frye of the senate regarding legislation affecting labor interests. Mr. Gompers said if congress fails to remedy their grievances the organization will appeal direct to the people. The Federation of Labor will enter the field of politics and urge organized labor to elect men of their own choosing and thus have a personal voice in the government.

Francis Nomination Confirmed. WASHINGTON, March 23.—The senate in executive session confirmed the following nominations: Charles S. Francis, New York, ambassador to Austria-Hungary; Postmasters: New York—J. H. Stephens, Clifton Springs; E. L. Rodakis, Fairport; F. I. Hadaway, Montgomery; Stott Mills, Warwick; Pennsylvania—Clark Collins, Conowingo; Nathan Tanner, Lancaster; F. W. Ulrich, South Bethlehem; S. C. Miller, Lancaster.

Smallpox Victim Held. CHICAGO, March 23.—Edward Jasper, a victim of smallpox, was intercepted by officers of the health department as he was walking through the crowd in one of the depots just after alighting from a transcontinental passenger train. He was on his way from Los Angeles to Cincinnati, accompanied by Mrs. Jasper, to attend the funeral of the father of Mrs. Jasper.

A USEFUL LIFE ENDED.

Professor Doremus, Celebrated Fashion Expert, Dead at New York.

NEW YORK, March 23.—Professor R. Ogden Doremus, for many years a noted chemist, is dead at his home here, aged eighty-two years. It was as an expert on the effects of poison perhaps that Professor Doremus was best known. As a result of his knowledge in this direction he was called upon to participate as an expert witness in many of the famous murder trials extending over a period of more than thirty years.

His researches in the field of chemistry was widely diversified, however, and he gained fame in many directions. It was he who originated the system of disinfecting ships which is still in use at the government quarantine station. He was one of the pioneers in the harnessing of electricity for commercial use, and on account of his knowledge of explosives he was called to France by Emperor Louis Napoleon, where he rendered important service to the French government.

During his residence in Paris he became a warm friend of the last of the reigning Napoleons. On his return to this country at the beginning of the civil war the experience which he gained abroad was put to good account in the manufacture of cartridges for the United States government. Professor Doremus had been connected with the New York college and the College of the City of New York as instructor in chemistry for nearly sixty years, and for more than forty-five years he had occupied the chair of chemistry in the Bellevue Hospital Medical college, of which he was one of the founders. For many years he was president of the New York Philharmonic society and of the New York Medico-Legal society.

M'CALL'S DYING WORDS.

Written to President of New York Life

NEW YORK, March 23.—That the late John A. McCall strenuously defended the relations of Andrew Hamilton with the New York Life up to the very day of his death is known to all his associates.

Following is a copy of a letter written by the late ex-president the day before he died to A. E. Orr, president of the New York Life, and dated Lakewood, N. J., Feb. 16:

"I am conscious that I have but a slight chance to recover, and I am desirous that you and the company officials through you shall have no doubt of the nature and character of the employment of Andrew Hamilton if I am not here to be heard when the time arrives to have it made known."

"He was employed by me in 1895 on behalf of the company to attend especially to matters of taxation and other countries affecting the company's interests."

"He refused to accept the duty unless it was made confidential and secret and that no accounting of moneys advanced to him should be asked of him or rendered by him, and I assented to that proposition."

"He told me that this condition he would impose as an absolute one, and unless it was accepted he would not undertake the work."

"Whether my action was legal or not it will be left for others to say. I believed it was and that I was clothed with full power so to act and that the interests of the company and the policy holders demanded steps of this nature be taken, but aside from this the main reason for my present writing is that there may remain no doubt as to what my statement would be if I were here as to the nature and character of Judge Hamilton's retainer and contract."

A Million Japs Starving. NEW YORK, March 23.—The New York state branch of the American National Red Cross has issued a statement as to famine conditions in Japan. It is explained that owing to the national characteristics of the Japanese in not calling for help these facts have just become known. The famine in Japan is one of the most terrible starvation emergencies of modern times. By the failure of the rice crop it is said that from 800,000 to 1,000,000 Japanese are starving.

Of the birds it is intended to release 3,500 in Central park. Only two monkeys died on the passage.

SPRIGGS CONVICTED

Negro Accused of White Slave Traffic Guilty.

MAY GET TWENTY YEARS IN PRISON

Accused Took the Stand in Own Defense, but Did Not Improve His Case—One Woman Held For Three Years.

NEW YORK, March 23.—Robert H. Spriggs, the negro accused of abduction, was found guilty in the notorious white slave case on trial in general sessions here. The jury was out less than eight minutes, and the crowd in the courtroom was on the point of cheering when a warning order of silence was given.

After a short delay Spriggs was arraigned. He trembled like a leaf, and his bony jaws furrowed with deep wrinkles visibly. The clerk took his pedigree. The prisoner said he was forty-seven years old and was born in Virginia.

Judge Cowing remanded Spriggs to next Tuesday, when sentence will be pronounced. The maximum sentence for the second offense is twenty years. Scilla Bennett, one of Spriggs' accomplices, who was indicted for abducting Alice Harris and keeping her in one of Spriggs' dives, a few doors from the Tenderloin police station, pleaded guilty to a first offense. She also was remanded for sentence on Tuesday.

There was no surprise at the verdict, the evidence against Spriggs being overwhelming. He himself had aided the prosecution by taking the witness stand in his own behalf.

It is said that Spriggs will be sentenced to twenty years in state's prison on the conviction. He was indicted for a second offense, so the maximum penalty must be imposed, as the law does not permit the court to exercise any discretion.

Spriggs is yet to be tried on charges of assault and maintaining a disorderly house. He is indicted for a second offense on both of these charges, and if convicted of both the total penalty will be twelve years, making thirty-two years in all.

Spriggs took the witness stand in his own behalf and denied all the testimony given by the witnesses called for the prosecution in a bold and defiant manner.

He denied all the charges made against him by Hattie Warren, one of the women he had held in slavery. Spriggs' manner was sullen and defiant. He retorted savagely to the questions of counsel, and his manner was not that of the meek, inoffensive citizen he pictured himself in his own testimony.

Hattie Warren testified that she had been drugged in a saloon and carried to Spriggs' resort on Cornelia street, where her clothes were taken from her. She remained a prisoner three years and was beaten by Spriggs whenever she begged to be released.

SNOWBOUND ON SAN JUAN.

Fifty Passengers Held Twelve Days in Cumbre Pass, Colorado. DURANGO, Colo., March 23.—After being snowbound for twelve days on the lofty summit of Cumbre pass, at the crest of the San Juan range, fifty miles from the nearest town, a Denver and Rio Grande train containing fifty passengers has arrived in Alamosa, in the San Luis valley.

The train left Durango on March 10 and became stalled that night. Snow continued falling day after day until it lay on the level higher than the smokestack of the locomotive. Railroad employees carried provisions to the imprisoned passengers by climbing the mountain on snowshoes, and the passengers were made as comfortable as possible. Owing to the high altitude several passengers became sick.

A rotary snowplow penetrated to the train and finally released it.

Madden, the Kentucky turpin, appeared before Justice Burr in the supreme court and by public apology and the payment of a \$250 fine purged himself of the contempt in which he was adjudged when he refused to answer certain questions in the suit for sedition brought by Mrs. Madden. Madden originally was sentenced to a term in jail and left New York state.

NANNIE COHEN WON.

Racing at New Orleans—Two Favorites Beaten.

NEW ORLEANS, March 23.—Nannie Cohen, the 5 to 2 favorite, proved easily the best in the three and one-half furlong dash for maidens and, with Nicol in the saddle, made a showing of his field at every stage of the race. Nicol got him away running and led his field home by three lengths. George Duchscherer, backed at a long price, finished second and Spion, which was the medium of a tip, third.

Fifteen ordinary three-year-olds started in the second race, at five and one-half furlongs, with Dr. Mack the favorite at 5 to 1. Tom Comb was looked upon as the right one by the smart players and after backing him down to 6 to 1 at post time kept the tickets. Draco, which had 30 to 1 about his chances, proved the winner.

Jockey Nicol occupied the center of the stage, four of his mounts winning. Dr. Mack and Arthur Cummer were the only beaten favorites. Summaries: First Race.—Nannie Cohen, first; George Duchscherer, second; Spion, third.

Second Race.—Draco, first; Red Ruby, second; Oliver, third.

Third Race.—Liddon, first; Morendo, second; Bradley's Pet, third.

Coal Men Cannot Agree.

INDIANAPOLIS, Ind., March 23.—The joint scale committee of coal operators and miners of the central competitive and of the southwestern districts, have adjourned and are still divided on every proposal that has been made by either side. They apparently are no nearer an agreement than they were on Feb. 2, when the former joint conference disagreed. Chairman J. H. Winters of the operators admitted that a disagreement of the joint scale committee had before it an offer of the miners to submit a proposition to the joint scale committee. This proposition was the restoration of the scale of 1903, with present conditions continued.

WINDSIDE, Neb., March 23.—August Miller, a young farmer, went to the home of his father-in-law, Fred Harnack, where Mrs. Miller had gone after a quarrel, and fatally shot his wife and dangerously wounded her father and mother. ENTOMBS HUNDREDS

Explosion in West Virginia Mine; Nine Dead.

LARGE LOSS OF LIFE IS FEARED.

Mine Full of Workers—Twenty-seven Taken Out by Rescue Parties. Fourteen Galleries Yet to Be Explored.

FAIRMOUNT, W. Va., March 23.—An explosion of gas in the mine of the Century Coal company at Century, a small mining town fifty miles south of here on the Phillips and Buchanan branch of the Baltimore and Ohio, has entombed at least 250 miners, many of whom are believed to be dead.

Twenty seven have been taken from the mine, nine of whom are dead and the others terribly injured. The main heading has been cleared, but there are fourteen subheadings yet to be explored. It is feared that none of the men still in the mine is alive, having been killed in the subheadings. The mine is not seriously damaged by the explosion except that the brattices have been blown out.

The cause of the explosion is not known at this time. A relief gang, headed by Superintendent John Ward, entered the mine, but nothing can be heard from the accident, as the telephone wires have been put out by storms and no other means of communication are available.

The mine is owned by Shaw Bros. of Baltimore and is one of the largest in northern West Virginia.

Following the explosion relief trains were run from Buchanan and Phillips taking physicians to the scene. These have not returned, and until they do little in detail will be learned of the accident.

CHANGES AT ZION CITY.

Dowie, First Apostle, Retires From Business Management. CHICAGO, March 23.—A radical change in the affairs of Zion City will be made by which John Alexander Dowie will retire from the management of its business affairs and all of its manufacturing institutions will be incorporated. Henceforth the ownership and control of Zion's business enterprises have been vested solely in Dowie. The change is the result of a desire to extricate these interests from pending difficulties. Former Judge Barnes, Zion's legal adviser, made the following explanation regarding the change: "This is God's plan of solving our difficulties. The first institution to be incorporated will be the candy factory, with a capital of \$50,000. Zion will own \$20,000 of stock and the remainder will be in the hands of individuals.
