Secretary Metcalf's Report on San Francisco Disaster.

PUTS THE DEATHS AT ABOUT 300.

Industrial and Commercial Damage Almost Beyond Conception-Every Manicipal Building Was Destroyed.

SAN FRANCISCO, April 28.-Secre tary Metcalf, who is here as the rep rescutative of the national administration, with instructions from the president to report to him regarding the conditions in the stricken city as he should flud them, has wired the president a complete summary of the situation. He thinks the loss of life will not exceed 300, the injured being about 1,000. Secretary Metcalf says,

ALL THAT IS LEFT OF GRACE CHURCH.

however, that the industrial and com mercial losses are appalling. There is o suffering from lack of provisions or water. Everything considered, the nealth of the people is excellent. His report is as follows:

"Have practically completed inspection of the ruined districts. I do not believe the loss of life will be as great as was auticipated. In my judgment it will be impossible to determine the exact number of deaths, but conservative estimates place the number at not to exceed 200. There are about 1,000 sufferers in local hospitals, and probably not over 400 are seriously injured. No necessity exists at the present time for nurses or doctors.

"As regards industrial and commer cial losses, the conditions are appalling, figures and distances convey slight conceptions or realities. Not only have the business and industrial houses and establishments of 500,000 people disappeared, leaving them destitute financially and their means of livelihood temporarily gone, but the complicated system of transportation, indispensable to the daily comfort and interests of 500,000 people has been almost totally destroyed. Over the city's area of twenty-five square miles the entire sysem of rallways was damaged or de stroyed and has not as yet been operat ed. The scanty supply of animals and carriages remaining after the fire has

been largely impressed into civil and military service, in order to prevent absolute overthrow of the larger unistarvation. The entire telegraphic and versity buildings. The work of re-HARD AND SOFT WOOD telephonic systems were degroyed, making communication imposs de.

cials into scanty quarters, necessarily situated in localities difficult of access owing to distances and lack of transportation. Three hundred thousand erally attempting to relieve the situa copie were rendered homeless and tion. Despite their own hard condidestitute. > Rectors' Court Hears Arguments For and Against Accused - Prosecution Says, "This is No -Church For Him."

BATAVIA, N. Y., April 28. - Summing up by counsel in the beresy case of the Rev. Dr. Algernon S. Crapsey began as soon as the court opened here. Franklin D. Locke, who led for the prosecution, said:

"The attitude of the prosecution is briefly this; We maintain that the Apostles' Creed forms part of the falth of the Protestant Episcopal church and every clergyman in this church must accept every concrete statement contained therein.

"It is intolerable to think that any clergyman of this church can declare in his church in the morning that he in custody and disarmed by Captain B. believes these things and to utter his denial of them in the evening. It is admitted by the defense that Dr. Crapsey does not believe some statements contained in this creed.

"Then this is no church for him. He can go to some other church. We do not challenge his belief, but we do challenge his right to fill his official position in the church while he holds

"We say he should go. This is the attitude of the prosecution. Dr. Francis J. Hall of the Western Theological seminary, Chicago, addressing the court for the prosecution,

"This is no case of heresy hunting, for Dr. Crapsey's utterances have been known for twelve months. It is in reality a cuse of public scaudal, and the question is this: Shall the church permit one of her chosen priests, who misrepresents ber, to continue in her service?

"The Issue is perfectly clear. Here is a priest who promised to, do his repair and reconstruction necessary on duty by teaching the faith according to the doctrines of the church. He is now accused of violating his vow by impugning the veritable Godhead of Jesus Christ. His conception, his virgin birth, his resurrection from the dead and the doctrine of the Triuity. Until he can prove to this court that he is not guilty there would seem to be no alternative for the court under the canons except to declare him guilty. feel the deepest sympathy with the defendant, but it is the business of the court to enforce the law of the church. The canon law makes for truth and charlty in the long run.

"We do not assall Dr. Crapsey's right of personal conviction, but this does not mean that he can take advantage RUINS OF STANFORD UNIVERSITY of his official position to commit acts which the church repudiates.

"You, gentlemen of the court, have the odious responsibility of deciding this case, and I tell you that personal consequences cannot be pleaded in excuse of law breaking in any court in the land.

"Tolerance is justified in the case of a private individual, but when the inhome. The university has no ready dividual concerned is an official of the church the question broadens to one of keeping alive the flames of faith in thousands of breasts. There is a vast difference between tolerance and connivance, and the church canuot connive at a matter which has become public scandal."

"If you condemu this man," said Dr. McComb for the defense, "you conhim own name that the Apostles' Creed LOS ANGELES, Cal., April 28.—A is the most perfect statement of Christon Calles 120 miles south of the truth extant.

city from Salinas, 120 miles south of "I want to explain that for Dr. Crapsey the Apostles' Creed has its essential and nonessential aspects. Its esbeavy earthquake shocks were felt sential aspects are set forth in the baptismal formula and are as follows another at 9:50 and the last at 2 o'clock One, I believe in God the Father Alyesterday morning. The shocks lasted sbout four seconds each, but so far bis only son, our Lord, and third, I believe in the boly spirit."

Continuing, the speaker said there been sunk ten or twelve feet along its was no question whatever but that the course for miles. Nearly all of the defendant believes this first essential. "These ecclesiastical trials never settle anything. The only way in which these doctrinal differences can be settled and set at rest is to overcome the heresy, not attempt to destroy the al-French, Italian and Danish consuls at leged heretic. Let the church meet Dr. San Francisco, who were reported as crapsey and settle this matter with among the missing, have all been heard him in debate."

duced systems of relief which have ac- from. They had temporarily become Dr. McComb's climax was dramatic. FEARS COUP D'ETAT SATURDAY

NEW YORK, April 28.-The Metro Parisian Civic Authorities Search For Royalists.

TO MASS TROOPS IN GREAT SQUARES

Minister Clemenceau at Last Takes Stringent Measures to Guard Safe. ty of Paris-Labor and Auarchist Plots Hife.

PARIS, April 28.-The Parisian civic authorities, supported by a large force of troops, have adopted decisive measures to apprehend the element which is fomenting disorder and capture the Panamas and Storm sources of its supplies.

At an early hour a search was made of the headquarters of the Confederation of Labor and also its fifty branches throughout the city. Simultaneously the police searched the homes of a number of Royalist sympathizers who were suspected of encouraging disorder in the hope of effecting a coup d'etat. The offices of La Croix, a reactionary paper, were also searched. Important 59c. papers, it is understood, were found at the homes of some of the Royalists. Another Case of In-Confederation of Labor yielded negative results.

The suspects among the Royalists and Bonapartists include the heads of several aristocratic families, among

GEORGES CLEMENCEAU, MINIS TER OF INTERIOR.

them Count Durand de Beauregard, Count de la Regle, General Baron de Taradel, M. Bacconnier, president of the Royalist advance guard; M. Thouvenel, an intimate friend of Prince Louis Napoleon, and Major Feuillent, formerly commander of the Imperial guard, while the Laborites who were subjected to search include the conspicuous heads of the movement plan ned for May 1.

The ostensible purpose of the searches was to discover if encouragement blue, black, cadet, grey and red had been given to the rioting in the mining district in the north, but the authorities expected at the same time to uncover the entire plan of the present labor agitation, including any menacing features of the demonstration

which is to take place May 1. The searches began quietly and Assistant Chief of Detectives Blot and Curtains La Croix, noted for having raised a popular subscription ostensibly in behalf of the sufferers from the Courrieres mine catastrophe, but it is asserted that the amount collected was of the lower numbers which gives

is supposed to be a Royalist The firmness of M. Clemenceau in making searches and gathering large as is shown in the valley. See them military forces has led the executive and judge the values for yourselves. committee of the Federation of Labor to consider the advisability of postgon ing the demonstration from May 1 to June 15. The committee is holding secret sessions of which the results are not disclosed, but it is understood that a strong element favors a postpone

vocate a postponement are in the majority. Nevertheless the police and military precautions are not being abated. The general plan, as announced by the prefecture of police, is to have troops massed on Concorde square, Republic square. Bourse square and the principal boulevards and all points where it

ment. One report is that those who ad-

is possible for crowds to gather. Six thousand police, 800 cavalry and 8,000 infantry have been detailed to guard the banks, railroad stations and the plants of the electric, gas and water companies. The formation of processions in columns is rigorously prohibited, and all groups will immediate ly be dispersed. The Temps editorially points out the

absurdity of people hastily leaving the city or laying in stocks of provisions and says the government has taken very complete precautions. Revoluionary movements, the article says, never succeed when heralded in adance. Apparently the government has taken a lesson from the United States. where pillagers, trying to profit by the catastrophe at San Francisco and prac tice their profession, have been merci lessly shot, at which the inhabitants of the unfortunate town took courage and resumed their normal life. We do not believe that Parisians are more cowardly than Californians. Nothing sus tains public confidence like the certainty of possessing a government which b
