UNPRECEDENTED OFFER!

Valley Record for One Year and a Complete, Graphic and Comprehensive 400-Page Book of the Great Disaster at San Francisco, All for the Regular Subscription Price of the Paper

FREE TO ALL SUBSCRIBERS

Read This Remarkable Offer From Start to Finish. It Is Without Question the Most Liberal One That Has Ever Been Made by Any Newspaper in This Section

Here is without question the biggest and best offer ever made to newspapers readers in this section of the country, or for that matter that has ever been made by any newspaper, big or little, in Northern Pennsylvania. San Francisco, a city of 400,000 inhabitants has been almost totally destroyed by earthquake and fire; hundred have been killed; thousands have been rendered homeless; millions of dollars worth of property has been destroyed, and all in all the most terrible calamity that has ever visited the new world is now a matter of history.

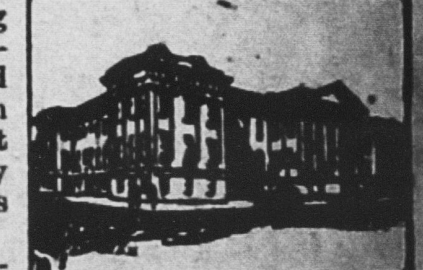

SAN FRANCISCO CALL BUILDING, San Francisco's Finest Skyscraper.

The entire civilized world has been shocked by this appalling disaster, and an authentic story of the scenes and incidents connected with it will be read with avidity by the public.

Knowing that the people in this valley will be desirous of reading a correct and comprehensive account of an unparalleled conflagration that followed the earthquake's shock The Valley Record has entered into an arrangement whereby it can furnish to new subscribers, and old ones who pay arrearsages and renew subscriptions, a 400-page book, containing a graphic account of the shocking calamity. This book is now being prepared by the Monarch Book Co. of Chicago, and will be ready for delivery in about two weeks. The subject matter will be prepared by Richard Linthicum, of the editorial staff of the Chicago Chronicle, and Trumbull White, author of the "Shadow of Death," and "Martinique," etc. Both are authors of national reputation and experts in seismology, thus guaranteeing to the readers of the book the strictest accuracy, written in a graphic and comprehensive manner. The book tells clearly and truthfully the story of the catastrophe, which, without warning, in the early hours of the morning destroyed human beings, residence, public and commercial buildings in San Francisco and numerous nearby cities.

The book will be complete in every respect, containing hundreds of illustrations made from photographs actually taken while the conflagration was in progress, together with many views of the city and its fine buildings before it was devastated by fire. There are chapters giving thrilling personal experiences of the survivors and rescuers, the stories from eye witnesses, etc. In fact it covers the whole story and field of thought in this greatest of all disasters. As fast as a corps of canvassers can be secured they will call upon each and every residence in this valley with a neat prospectus of the book, which will be ABSOLUTELY GIVEN AWAY FREE WITH EVERY YEARLY SUBSCRIPTION TO THE VALLEY RECORD. The subscription price to The Valley Record is \$3.00 per year, and the book is made to sell at the same price, but under the terms of The Record's offer you get both for the price of one. The terms are easy. All you have to do when the agent calls at the door is to hand him one dollar, and agree to pay the remaining two dollars in two equal installments within two months. He will then enter your name upon our subscription books, and at the same time you will receive a voucher which will entitle you to a book. These terms will not be changed; one dollar must accompany each order, which only covers cost of delivering the book. Mail orders will receive prompt attention but the entire amount, \$3.00, with 25 cents additional, to cover cost of postage, must accompany all orders. Don't delay but snap this up at once. Here is an up-to-date newspaper, containing all the local news of the day, carefully gleaned and correctly edited, and a 400-page account of one of the greatest disasters that has occurred in years, all for the price of one.

CITIZENS' COLUMN.

Editor Valley Record:

Sayre is to be beautiful in the future according to the measure that provision is made by the present generation.

This is a town in the making, and we can make it what we choose. Howard Elmer made wise provision for the avenue that bears his name by the elms he planted along it. Many other property owners have done the same, but there is still very much that can be done along this line.

For instance, why not plant rows of willows along either side of Lockhart street and Wilbur avenue where the streets cross the pond? There are two places in Sayre which are decidedly unsightly, and a constant eye sore, willows grow quickly and in a few years these streets would be transformed.

The Record is a public-spirited sheet, and I look to see it push this along. If the property owners will not do it, let the borough make the matter up. Ten dollars expended now—and it will not cost more than that—will be one of the best investments ever made in this region. P.
