JOHNSON TRIAL IS MOVING RAPIDLY

New Testimony Was Introduced Yesterday for the Commonwealth

The trial of Charles Johnson, charged with the murder of Mrs. Maggie Johnson and Annie Benjamin at Macedonia, September 18, 1904, is progressing rapidly and chances are that less time will be consumed this time than at the prisoner's former trial.

An entirely new bit of testimony was introduced yesterday afternoon when Mrs. Elizabeth Benjamin, the aged mother of Maggie Johnson, the woman who was burned, was called by the prosecution and testified that shortly before the fire she saw Charles Johnson going in the direction of the house. She also detailed the conversation she had with the prisoner at her own home on Friday evening after the fire.

Several witnesses who testified on the former trial were also sworn yesterday and their testimony did not differ materially from the first story they told. It is believed that the commonwealth is making even a stronger case than at the first trial. It is quite probable that the prosecution will have the commonwealth's evidence all before the jury by the end of the week.

The trial is not attracting as much attention as formerly. Yesterday and today but a few spectators have been present, but the case has not as yet gone far enough to be of absorbing interest.

WANTS AUDITORS TO "SHOW HIM"

Councilman Hassler Is Desirous of Knowing in What Manner Borough Funds Are Being Expended

Coleman Hassler, councilman for the second ward, wants to know what is being done with the borough taxpayers' money, and has therefore determined to take advantage of the law to bring about this end. In an interview this morning Councilman Hassler states that he will mail letters to the borough auditors today, calling upon them to make an itemized statement of the manner in which borough funds have been expended during the past year. Mr. Hassler insists that the people have a right to know what is becoming of their money and for what purpose it is expended, and that the practice of charging up items to "miscellaneous," "general fund," etc., is altogether too uncertain and unsatisfactory. Mr. Hassler will call upon the auditors for this statement under the law of April 24, 1874, which provides that upon demand of any citizen of the borough the auditors shall make a complete statement showing the manner in which the funds have been received and paid out. Mr. Hassler says that he will employ an attorney and see the matter through to a finish.

Mrs. Patrick Farrell and her son John, of Tunkhannock, died Tuesday morning from the effects of drinking wood alcohol. It is alleged that the son, who worked for the Tunkhannock Distilling company, stole the alcohol and that he and his mother drank it.
