WHALES SCRATCH BACKS.

Blige Keels of Ocean Steamers Make Good Barnacle Scrapers for Them.

When a naval architect plans an improvement in marine construction he generally has little thought for its effect on the denizens of the sea. The man who invented blige keels, however, says a writer on South America, provided the whales of the Brazilian coast just the sort of back scratcher they needed.

Insect pests annoy the whale and barnacles find a home on a large part of his body. Sometimes the monsters may be seen rolling on a shallow sandy bottom to displace these pests or rubbing themselves on the rocks of the reefs.

On one occasion the mail steamer Orissa was stopped during a dense fog a few miles off Santa Maria island in the Pacific. The coast being dangerous an anchor was let down 60 fathoms or so and the ship allowed to drift a smooth water.

At six o'clock in the morning the captain heard some heavy whale "blows" or "spouts" apparently close at hand. Shortly afterward a continued tremor of the ship was felt. It was too gentle for an earthquake and was varied with bumps. Soon a huge whale rose slowly out of the water and floated alongside, like a bark bottom side up. It again descended and the tremors recommenced.

Then the crew noticed barnacles and shell-fish coming to the surface and the secret was out. The whale was scraping himself—currying himself—on the sharp plate which projected as a stealer from the vessel's bilge.

Not caring to have him so near in case he should smash the boats, the captain had him pelted with potatoes and coal, but he took no notice of it till a piece of coal went into his mouth and was swallowed by mistake. Then he drenched the vessel thoroughly and "steamed" away, a last flourish of his tail indicating that he was seeking quiet in the greater depths.

Inventor of Esperanto.
Dr. Zamenhof, the inventor of esperanto, the "universal" language, was born at Bialystok, a Polish town on the borderland of Germany and Russia. At least four different languages are spoken by the various nationalities who compose its population—Russian, Polish, German and Yiddish. This babel of tongues seemed to Zamenhof the primary cause of mutual bickerings, and he set himself to bring about unity. The result was esperanto.

Wrecks on German Coast.
Seventy ships were completely wrecked along the German coast last year, and 206 were damaged.

PREACHED TO EMPTY SEATS

Vicar Boycotted Had for His Only Hearer Daughter Who Killed Herself.

The strange and unhappy state of affairs which exists at Stokes Lyne, in Oxfordshire, has been brought to light through the tragedy which occurred lately at the local vicarage, relates the London Graphic. The vicar's daughter, a clever girl of 14, committed suicide by taking poison, and at the inquest her father, the Rev. William Bryant, declared that the boycotting to which he had been subjected by his parishioners had preyed upon the child's mind and caused her to take her life.

The coroner refused to accept Mr. Bryant's statement as evidence, and in consequence the vicar has communicated with the home office with a view to a further inquiry.

The position at Stokes Lyne appears to be far worse than may be imagined from the inquest reports. Mr. Bryant was appointed vicar of the parish in 1872, and in 1897, differences seem to have arisen between him and some of his leading people. The strained relations grew worse until about two years ago Mr. Bryant found himself with one supporter—his little daughter.

Sunday after Sunday has passed, festival has succeeded fast, and Mr. Bryant has gone on conducting his services in a church empty but for the little girl and an occasional stranger. He is without choir and organist, and has to act as his own bell ringer and can find no one even to clean the building. In March, 1904, the use of the school building was refused to the vicar by a meeting of the managers. On Sunday the vicar conducted the service as usual, but there was no one present to join him, and the incident at the vicarage having deprived him of his only follower.

Mirror Better Than Medicine.

A ward patient in Roosevelt hospital grew gradually weaker without any apparent reason. "She's fretting herself to death about something," said the nurse. "If she would confide in me I think she would get better." By and by the patient did open her mind and heart. "If I could only see myself," she wailed, "I'd feel different. I know I must look like death or you'd let me have a looking glass." It was against the rules to supply patients in that ward with mirrors, but the nurse, recognizing the gravity of that particular case, smuggled in a small hand glass. The result was miraculous. "Why, dear me," said the sick woman, "I don't look half so bad as I supposed I did." And from that hour she began to improve.—N. Y. Sun.

Political Announcements

I hereby announce myself as a candidate for Jury Commissioner on the Republican ticket, subject to the rules governing the Republican primaries to be held June 18th next. E. A. BLISH, Sayre, Pa., May 15, 1906.

To Bradford County Republicans:

I herewith present my name as a candidate for Representative in the Pennsylvania Legislature, subject to Republican rules. I stand for the enactment of laws giving a straight, uniform two cent fare on all railroad lines. That trolley roads shall have the vested right to transport freight. A revision of our tax laws to the end that corporations shall contribute to relief of local taxation and be compelled to bear their just share of the burden of tax. The same to be used for free schools or such other purpose as our people may desire. All laws to be drawn plain, clear and distinct so there shall be no doubt as to intention and purpose.
Edmund M. Tuton, Bentley Creek, Pa. 14-td

To the Voters of Bradford County:

I hereby announce myself a candidate for Representative subject to Republican rules. I have always stood for clean politics, a fair ballot and an honest count, and I believe in "a square deal for all." If elected I will vote and work for such laws as will further these ends. I favor the passage of laws making passenger rates two cents a mile for more liberal appropriations for schools to the end that local taxation for that purpose may be reduced to the lowest possible limit and for such additional aid for road building and maintenance as the best interests of the people demand. I particularly favor the enactment of laws that will equalize taxation and compel corporations to bear their proper share of the burden, the granting of freight privileges to trolley companies, and a libel law that is just and equitable. Pledging myself to the interests of the people, I respectfully solicit their support at the coming primaries.
GILES M. COONS, Canton, Pa., May 10, 1906.

The undersigned announces himself a candidate for the nomination of Jury Commissioner, subject to the rules of Democratic party of Bradford county.
