FINE BUILDING LOT SOLD YESTERDAY

Messrs. Samuels and Sawtelle Have Purchased a Desirable Piece of Property on South Elmer Avenue.

Yesterday afternoon Messrs. I. A. Samuels and M. H. Sawtelle purchased of Lewis Egghemey the lot adjoining the department store on South Elmer avenue, and it is among the possibilities that an up to date opera house will be erected thereon. The lot is 75x100 feet and is one of the most desirable in the business section of the town. The consideration for the sale is not known, but as property on Elmer avenue is high it is to be presumed that a good round figure was paid for the lot.

This morning Mr. Samuels stated that the lot would be available for opera house purposes provided parties can be induced to come here and build. Already the business Men's Association has secured pledges for quite a sum of money, which will be given to anyone who will come to Sayre and put up a theatre.

If, however, there is no chance of securing sufficient capital to erect a theatre Messrs. Samuels and Sawtelle will build a large business block.

ST. ANTHONY'S DAY

The Italians of the valley are making elaborate preparations for the observance of their natal holiday, St. Anthony's day, June 13. A native Italian priest of New York will be present and speak to his countryman in St. James church at South Waverly. There will be a big parade in which the Italian orders will take part, and for which music will be furnished by a local band. The committee of arrangements has engaged G. Angolone of New York to come to Waverly with his assistants and \$300 worth of fire works which will be discharged in the evening. It is intended to make this the largest and best celebration ever held on a similar occasion in this vicinity and it is expected there will be hundreds of Italians from throughout this section in Waverly on that day.

SEWER COMMITTEE MET

A meeting of the sewer committee was held last evening to go over the plans which have recently been completed by Borough Engineer N. F. Walker. The plans which include the Milltown and East Side districts were sent to Harrisburg today for the approval of the State Health department. It is expected that they will be returned to the committee in about ten days. Until they are approved the committee will not be able to report anything of a definite nature to the council.

A GOOD EXAMPLE

The borough of Tunkhannock has just passed an ordinance imposing a fine of \$10 for the following: Obstructing the sidewalks, riding bicycles or vehicles on the sidewalks, coasting on streets, throwing stones, snowballs or base balls on the streets, shooting guns, fireworks or sling shots, or to congregate or loiter in a manner to obstruct public travel. Other boroughs could emulate example of Tunkhannock with profit.

RECEIVED NEW LOCOMOTIVE

The Baldwin locomotive works have just delivered to the Lehigh Valley five Pacific type passenger locomotives, ten freight and five fast freight locomotives. This company will receive shortly from the American locomotive works twenty freight locomotives. For years the Lehigh has been noted for its fine motive power equipment and the new engines recently received will make a handsome addition.

BRADFORD COUNTY'S OLDEST CEMETERY

Is Now Being Entirely Obliterated by the Lehigh Valley's New Line.

The excavation at East Towanda for the new line of the Lehigh Valley railroad is obliterating what is no doubt the oldest cemetery in Bradford county east of the Susquehanna river, says today's Review. This week several graves have been uncovered, and others will no doubt be as the work progresses. In the graves so far opened bones have been found, many of them in a good state of preservation. These bones are being carefully preserved and will be again deposited in the earth in some cemetery.

From the very earliest settlement of this section in 1770, this spot at East Towanda was the burial place for a wide section. Here, with the exception of the Stropes and Van Valkenburg's, who had a cemetery on what is now the Madill farm, the pioneers brought their dead. Burials were no doubt made there over a century and a quarter ago.

There are no records or other positive knowledge on the subject but it is reasonably certain that there have been no burials in the cemetery within the past 75 years. Common field stones were used to mark the graves and the cemetery covered a number of acres.

Mrs. Hattie Brink of Sayre, was admitted to the hospital this forenoon.

WENT TO ROCHESTER

Yesterday E. D. Adamy and Charles Miles went to Rochester and they were accompanied by the former's son Clay Adamy, the lad who lost both of his legs near the Milltown bridge last fall. While in Rochester Mr. Adamy consulted with a firm regarding the purchase of artificial limbs for his son. An order was placed and it is expected that the limbs will be finished within two weeks.

FOURTH OF JULY RACES

The Athens Driving Park Association held a meeting last night and decided to hold races on the afternoon of the Fourth of July provided there is no public celebration in any of the three valley towns. A committee was appointed to secure the horses and efforts will be made to get some of the liveliest steppers in this section. One of the features will be a farmer's running race, for which a purse of \$50 will be offered.

LEHIGH EMPLOYE HURT

Henry Eichler, an employe of the Lehigh Valley, fell from a freight car at Hazleton yesterday and sustained a severe injury to his back. D. S. & S. engine No. 22, in charge of Engineer Kreck, was derailed at Drifton last evening. It required several hours work to retrack the engine.

FOURTH ANNIVERSARY

Yesterday was the fourth anniversary of the mail carrier system in Sayre. The service was started with three carriers, and shortly after another was added. The postmaster is still fighting for another one, in order to meet the constant growth of the office.

PEACHES CANNED OVER FORTY YEARS

Jar Containing Them Will Be Opened Some Day During This Month

Some time during this month Mrs. John Fish of Oneida street will open a can of peaches that were canned forty-one years ago. In fact the peaches were canned by the mother of Mrs. Fish the year the latter was born. The can is the old fashioned screw top kind and the fruit is evidently in a good state of preservation and it is expected that when it is opened it will be as palatable as it would have been had it been opened within a short time after canning. The can was given to Mrs. Fish by her mother, and she has had it in her possession ever since. Recently she decided that when she was forty-one years old she would open it. Her birthday occurs this month and on that day the can will be opened.
