MRS. THAW IN TOMBS

Slayer of White Will Rely on the Unwritten Code.

TRIAL WILL SHOCK EVEN NEW YORK

Attorney Overt States Millionaire Architect Tried to Induce Thaw's Wife to Desert Her Husband. Objects to Insanity Plea.

NEW YORK, June 28.—Harry Kendall Thaw, who shot the millionaire architect Stanford White at Madison Square Roof Garden during a comic opera performance, objects to any plea of insanity and will take his chances with the law for the slaying of White.

Convinced that under the "unwritten code" no jury in the world would convict him on the evidence that would be brought out, his lawyers are preparing to abandon the plea of insanity. It is said, and insist upon a trial on the evidence.

This plan has been urged by several of the leading criminal lawyers in New

ROQUE'S GALLERY PICTURE OF HARRY THAW.

York and its adoption by Thaw's counsel is said to be practically assured. In the event of a trial on the merits of the case revelations of such a startling nature concerning the life of Stanford White as to shock all New York may result. His relations with many others besides Mrs. Evelyn Nesbit Thaw will be fully revealed.

Mrs. Thaw is determined to stand by her husband throughout his present trouble, and she will withhold nothing that might operate to free him, even though she may personally suffer from the revelations. In order to take every precaution against a defense of insanity Acting District Attorney Nott caused Thaw to be examined by five alienists, who, it is expected, will report that he is in his right mind.

The prisoner was removed from his cell in the Tombs to a private room on the top floor of the criminal courts building, where Dr. Austin G. Flint, Carlos MacDonald and William Mahon, the prosecution's experts, and Tombs Physicians McGuire and Foster examined him.

Thaw was still being examined by the alienists when his wife paid him a visit in the Tombs.

Mrs. Thaw waited until her husband was conducted back to his cell and then went up the stairs to see him.

The beautiful young wife of the prisoner has produced a great deal of correspondence coming from White and addressed to herself.

Former District Attorney W. M. K. Olcott admitted that he had received

MRS. HARRY K. THAW. (A recent photograph.)

from Mrs. Harry Kendall Thaw a number of letters written to her by Stanford White. The letters are, Mr. Olcott said, of very recent date and show that the architect made strenuous efforts to induce Mrs. Thaw to desert her husband and resume the relationship which she once bore to him.

Further than this Mr. Olcott would not state. He would not discuss the case beyond admitting that former Governor Black would be senior counsel when the case came to trial.

Watson to Defend Thaw. PITTSBURGH, June 28.—It is stated here that Attorney David T. Watson of this city, who represented the United States government in the Northern Securities case, will likely figure largely in the defense of Harry K. Thaw when he is placed on trial for the killing of Stanford White.

MAINE STILL GOES DRY.

Republicans at Portland Nominates W. T. Cobb For Governor.

PORTLAND, Me., June 28.—The Republicans of Maine in convention here nominated Governor William T. Cobb of Rockland for a second term as chief executive of the state.

The convention was notable not only as one of the largest in recent years, but more especially on account of the effort made by Lewiston and Bangor delegates to introduce into the platform a plank providing for the resubmission to the voters of the state the question of continuing the prohibitory law, which has been in force for more than fifty years. The attempt failed, a minority report of a resubmission resolution being rejected by a vote of about three to one.

The presence of William P. Frye, the junior senator from Maine, as chairman of the convention and of Congressman Charles E. Littlefield as a delegate also attracted to the convention. Both were given unusual demonstrations.

The platform adopted contained a reaffirmation of the principle of prohibition with faithful and impartial enforcement, declared a belief in reciprocity governing interchange with foreign countries of articles not the product of American labor and opposition to such reciprocity with Canada as would embarrass the industries of the state with the articles of lumber and farm products and recommended to the next legislature the consideration of statutes under which all nominations for elective offices shall be by direct vote of the people.

A SENSELESS PANIC.

Report Had Gone Forth That Children's Throats Were to Be Cut.

NEW YORK, June 28.—Intensely exciting scenes were witnessed during the afternoon session at ten public schools on the lower east side owing to a rumor having circulated that the children attending the schools were having their throats cut. Thousands of panic-stricken and angry parents surrounded the various buildings and fought their way in, demanding of the teachers that their children be restored to them. In every case the riot was so threatening that the children were dismissed.

The trouble arose from the fact that recently a number of children attending the schools were suffering from the measles, a fungus growth back of the nostrils which affects the hearing, speech and sight of the sufferers. It is not dangerous and a slight operation will remove it.

The board of health decided that its physicians should, with the consent of the parents of the children affected, operate on the sufferers, and many of the children were successfully treated. It is believed that after going to their homes and telling their parents that they "had had their throats cut" some ignorant person started the rumor in the district to the effect that children's throats were being cut in the schools.

In conversation one of the parents, a Russian Jew, said that many parents were told that it had been decided to kill the Jews here, the same as in Russia, and that the children in the public schools were to be put out of the way first.

Celebrated Edward's Birthday.

ST. JOHN'S, N. J., June 28.—The colony celebrated King Edward's birthday, the British warship Brilliant and the French warship Loubat participating. Governor Antonette of St. Pierre, Miquelon, was invited by Governor MacGregor to visit St. John's on the occasion, but was unexpectedly detained. He carried a cordial message extolling the king's diplomatic triumphs in the cause of peace. The crews of the warships engaged in a regatta and athletic sports, and the officers attended a ball given by Governor MacGregor at the viceregal mansion.

Crocker Indorses Bryan.

NEW YORK, June 28.—Harry Walker of this city received a letter from Richard Crocker, former leader of Tammany Hall, indorsing William J. Bryan. The letter, which is dated Dublin, June 16, is in part as follows: "I look upon Mr. Bryan as one of the most able men in our country. I have no doubt but he was robbed of both elections by the trusts and also misjudged. I hope I may live to see him the president of the United States."

Named Sheriff A. T. Downing.

PLATTSBURG, N. Y., June 28.—At the Clinton county Republican convention held here former Sheriff A. T. Downing of Beekmantown was named for member of assembly and Jesse W. H. Holcomb of House Point renominated for a third term as county clerk. Resolutions were unanimously adopted heartily indorsing the administrations of President Roosevelt and Governor Higgins and practically pledging the Clinton delegation to Higgins for governor.

Prominent Troy Man Dead.

TROY, N. Y., June 28.—James Salmon, a member of Syracuse Lodge, K. K. Lambda, attending the annual meeting of the Central New York seangerbund in this city, died suddenly at his hotel here yesterday, the day of the seangerbund parade. He was a prominent business man in Syracuse, a member of the Masonic order and for forty years active in seangerfest work in central New York.

Antitrust in Australia.

MELBOURNE, June 28.—In the house of representatives the government's antitrust bill "for the preservation of Australian industries and the repression of destructive monopolies" was passed on second reading without division after a motion for postponement had been defeated by a vote of 89 against 20.

MEAT BILL DEADLOCK

Bailey Speaks on "the Treason of the Senate."

SCORES HEARST AND COSMOPOLITAN

Cost of Beef Inspection Here Agreement-Free Pass and Pipe Line Classes Have Blocked the Freight Rate Measure.

WASHINGTON, June 28.—In the senate an absolute deadlock on the meat inspection amendment to the agricultural appropriation bill was reported by Senator Proctor after three sessions of the conferees had been held. The Vermont senator said that the house conferees had declined to consider any compromise on the subject of the payment of the cost of inspection by the packers.

The conference on the railroad rate bill has resulted in an agreement on that measure. The discussion made it clear that the pass provision, which is to be perfected for the action of the committee, will follow closely the lines of the original senate amendment on that subject. It will name certain classes of persons who may receive passes and exclude all others. There is also ground for the prediction that the pipe line amendment will be reported exactly as it was in the last conference report—that is, the phrase "common carriers" will give place to the word "railroads."

The effect of this will be to permit pipe lines to transport the product owned by the owners of the pipe line. Senator Bailey, replying to the recent attack on him in the Cosmopolitan Magazine in an article entitled "The Treason of the Senate," denied all the allegations of the Cosmopolitan article attacking himself and holding W. K. Hearst responsible for the attack and said that in all the six political campaigns made by himself he had not spent as much money as Mr. Hearst had spent in one ward in his recent race for mayor in New York.

The committee had, he said, made a report unanimously exonerating him and the state officers from every shadow of offense.

The Texas senator also made reference to the magazine charge that he had been a party to an effort to cheat the Indians of Indian Territory out of their coal lands, which would have been successful but for the efforts of Senator La Follette. He then called upon Mr. La Follette to say whether he had been in what he (Mr. La Follette) had done.

The Wisconsin senator responded promptly, saying: "I take great pleasure in saying that I conferred with the senator from Texas before I offered anything bearing on the disposition of the coal lands of Indian Territory and that I received valuable advice as to what I proposed to do."

Mr. Bailey spoke in praise of the generality of newspapers and magazines and compared the Cosmopolitan to the outcasts of society. "Such publications as this," he said, "should be scourged from the company of well behaved men and women; they should be outlawed by the united consent of honest men."

He then referred to another article which he said had appeared in the New York Evening Journal, a paper bearing Mr. Hearst's name, the day after the article in the Cosmopolitan had made its appearance. "There it is," he exclaimed, holding the excerpt from the Journal out at full arm's length, "there it is, a double column of meanness and malice, and yet the only direct reference to me is that I have voted to give away the public lands to the corporations in the face of a record to the contrary."

He then cited the fact that the article in the newspaper had advised its readers to buy the magazine. This he characterized the commercial side of the publication and attributed it to the fact that Mr. Hearst had guaranteed \$500,000 worth of the bonds of the magazine company.

"Hearst's magazine prints slander," he said, "and the Hearst newspaper advises its readers to buy the magazine."

With reference to this it was stated that further investigation is to be made.

EMERY IS NOMINATED

Pennsylvania Democrats In Convention at Harrisburg.

PLATFORM FAVORABLE TO W. J. BRYAN

Delegates Who Chose Emery Favor Fusion With Lincoln Party on a State Ticket—Jere S. Black For Lieutenant Governor.

HARRISBURG, Pa., June 28.—The Democratic state convention nominated the following ticket: Governor, Lewis Emery, Jr. of Bradford; the Lincoln party nominee, lieutenant governor, Jere S. Black of York; auditor general, William T. Cressy, the prohibition nominee, secretary of internal affairs, John J. Green of Philadelphia.

The platform deals entirely with state issues, except on the plank which commends William J. Bryan. The convention did not go on record in favor of Bryan's nomination for president. This was the smallest Democratic state convention that has assembled in recent years. The 327 delegates not filling the lower floor of the opera house. The gathering was nevertheless enthusiastic, and the delegates rarely missed an opportunity to applaud a telling point in speech or resolution.

Emery was the choice of the delegates, who favor fusion with the Lincoln party on a state ticket. He was nominated on the first ballot by a vote of 201 to 60 for Arthur G. Dewalt of Lehigh county, the choice of National Committeeman James M. Guffey of Pittsburg and others, who favored a straight Democratic government. Two votes were cast for David T. Watson, the Pittsburg lawyer.

Mr. Black, the nominee for second place, is a grandson of the late Judge Jere S. Black, attorney general in President Buchanan's cabinet, and a son of the late Chauncey F. Black, lieutenant governor of Pennsylvania.

Mr. Cressy is the Democratic leader of the house of representatives and was nominated for auditor general by the recent prohibition convention. The greatest surprise of the convention was Green's nomination, which was made after many of the delegates had left the hall for their homes.

In John Alexander Inquest.

CHICAGO, June 28.—John Alexander Dowle was declared by Dr. Archibald Church, an alienist here, to be a lunatic, although possessed of great mental capacity for business, in his testimony before Judge Landis in the Zion City controversy. Dr. Church had attended several sessions of court during the hearing and had heard Dowle tell of seeing lights and hearing celestial music, of preventing a shipwreck and of curing diseased persons by means of prayers. The physician declared it to be his belief that Dowle might be insane and still have mental capacity to accumulate \$7,000,000 in seven years.
