TO HELP PACKERS.

"American Live Stock Are Healthiest In the World." PRESIDENT BOOMS CANNED BEEF. Chief of Agricultural Bureau Will Take No Vacation Until New Meat Inspection Law Is In Operation.

WASHINGTON, July 3.—Secretary Wilson of the department of agriculture has decided not to enter upon his annual vacation until he has completed the organization necessary to put into operation the new meat inspection law. He will give practically his entire time to this work for the next two months.

"American live stock are the healthiest in the world. The great ranges of the west produce the best of cattle in which the percentage of disease is remarkably small, and the federal government is steadily reducing by approved scientific methods this small percentage. The inspection of the animals before and at time of slaughter always has been thorough. It is true that the department of agriculture has heretofore lacked the power and money to provide for an efficient supervision of sanitation and the methods of preparation of canned meat and food products."

The legislation which has just become effective provides the department of agriculture with an adequate law and with ample money to carry it into effect. Supervision and inspection will be extended from the pasture to the package. The federal stamp upon the cans will be a guarantee not only of the healthfulness of the animal, but also that the product was prepared in sanitary surroundings and with the addition of no deleterious chemical or preservative. Any meat product bearing the government stamp will be fit for food.

Result of Cleaning Toy Cannon. COBY, Pa., July 3.—While cleaning a toy cannon in his door yard, with his two children about him, Irvin Manley was burned by a powder explosion and the two boys—Robert, ten, and Walter, eight years old—are in a critical condition. A can of powder was standing near the fire, and the head of a match blew off when it was struck, falling in to the powder. Mr. Manley had his hair burned off, the boys' faces were filled with powder, and they sustained severe burns. The house was considerably damaged by the explosion.

Rob Paulish a Murderer. GROVE CITY, Pa., July 3.—Two Italians were murdered and one of the murderers is in a critical condition from injuries inflicted by a mob as a result of a brawl in a mining camp near here. Antonio Messaria was stabbed to death and his assailant was terribly beaten by Messaria's friends. At the Red Row mine Michael Zofilla was also stabbed to death. Following the murders a general riot occurred, in which a number of other foreigners were badly cut and beaten. Zofilla's assailant escaped.

Homestead (Pa.) Bank Goes Up. PITTSBURGH, July 3.—The Foreign bank of M. Kasernar & Co. at Homestead, Pa., failed to open its doors, and nearly 200 excited foreigners gathered in front of the bank clamoring for their money. The crowd finally became so boisterous that it was necessary to summon the police to restore order and prevent trouble. The alleged disappearance of the cashier and a reported shortage of from \$7,000 to \$12,000 are given as causes.

A NEW CANAL DIGGER.

WASHINGTON, July 3.—Because of the failure of the senate to confirm the lathman canal commission President Roosevelt named a new commission, consisting of Theodore P. Shonts, chairman; John F. Stevens, Governor Charles E. Macgon, Brigadier General Peter C. Hains, U. S. A., retired; Mordecai Endicott, civil engineer, U. S. N., and Benjamin M. Harrod, navigators. Mr. Stevens replaces Brigadier General Oswald H. Ernst, who retired from

JOHN F. STEVENS

active service in the army last week and will hereafter devote practically his entire time to the international waterways commission. Joseph Bucklin Bishop, who was secretary to the old commission and a member of the commission, will be secretary to the new body, but not one of its members. The salaries of the members will continue as heretofore. Mr. Stevens will continue as chief engineer of the commission, but will not receive any extra compensation for his services as a member of the commission.

TOOK ISSUE WITH PRESIDENT.

Professor Crook on Limitations of Great Fortunes. ITHACA, N. Y., July 3.—At the American Association of Science here Professor James Walter Crook of Amherst college addressed the economic section on the limitation of great fortunes. Professor Crook took issue with President Roosevelt. He pointed out the impossibility of individuals handling great fortunes and then sought to show that the measures proposed to limit great fortunes had grave objections. He said in part: "Fortunes may be considered as swollen beyond healthy limits which yield from \$5,000,000 to \$20,000,000 a year. Let us consider the possibilities of handling such incomes. The millionaire who feels that he must pass the bulk of his wealth to heirs has a task that has invited originality in arrangement. A wealthy farmer puts his son's wealth in trust till his thirty-second birthday, allowing him a small sum of \$2,500 a year. An indulgent mother raises his income to \$80,000 a year. He is now a ruined man!"

Work Banned at Sagamore Hill. OYSTER BAY, N. Y., July 3.—President Roosevelt has had his first day's rest and complete relaxation from the field since congress assembled last December. All work was barred at Sagamore Hill. James Sloan, chief of the president's secret service corps, was placed under arrest as he came from duty at Sagamore Hill by Jack McQuade, the village constable, on a warrant sworn out by Clarence Legende, a New York photographer, charging Sloan with assault when he tried to snapshot the president.

Best Band Could Do. WASHINGTON, July 3.—"Always in the Way" is the title of a piece of music played at the funeral of private C. W. J. Anderson of the marine corps at Olongapo, Philippine islands, and it resulted in severe newspaper criticism and finally an investigation by officers of the corps. The report of the board has been received at the department, and its findings say that the music played, while having an inappropriate name, was suited to the occasion and the best the band could play, "their repertory being limited."

A Slow Cool Wave in the West. WASHINGTON, July 3.—There is a good sized cool wave in the west," said Forecaster Frankfield of the weather bureau, "but it is rather slow in getting this way. Colorado and New Mexico are getting the best of it and low temperatures. On the Pacific coast there is a hot wave with the maximum temperatures from 98 to 102 degrees, and the effect of this will be felt again in the middle west tomorrow or Thursday."

Miners Existed on Candles. LONDON, July 3.—After being imprisoned for six days in the flooded Carradale Vale (Wales), colliery two miners of the six originally imprisoned were rescued alive and three bodies were brought out by the rescue parties. The search will be kept up, although all hope of finding the missing man has been abandoned. The two men rescued were discovered in the old work ways, having subsisted for a week on a few candles.

Kaiser Letter Called a Forgery. PARIS, July 3.—At the resumption of the Dreyfus hearing Prosecutor Baudin characterized the greater part of the evidence at the Rennes court martial as a tissue of falsehoods for which the witnesses received payment. Emperor William's alleged letter incriminating Dreyfus was also denounced as a forgery.

TOURIST DISASTER.

Salisbury Wreck Inquest Adjourned For Fortnight.

CRITCHELL LIES AT DEATH'S DOOR

Frederick H. Cossitt's Body on Its Way to America—Some Yet Uncollected—Two English Ladies in Critical Condition.

SALISBURY, England, July 3.—The majority of the bodies of the score of Americans who lost their lives in the wreck of the Plymouth express Sunday morning are prepared and await their return for burial to the land they left so recently in the fullness of life and hope. Frederick H. Cossitt's body already has been forwarded to London on its way to America. The inquest has been adjourned for a fortnight. The delay is believed to be due to the declared intention of the board of trade to institute a special inquiry. One of the most interesting cases at the inquiry is that of Robert S. Critchell of Chicago, the cousin of J. T. Critchell of London, who, oddly enough, started in his business career within a few yards of the spot where Mr. Critchell now lies at death's door. At midnight there came a gleam of hope when the doctor announced that the injured man was slightly better and on the road to improvement. Mr. Critchell has been practically unconscious since the accident, with occasional evidence of consciousness in which he expressed a chivalrous desire to help some one whom he thinks in danger. This very chivalry adds to the sympathetic interest in the case by the doctors, who have not yet abandoned hope of his recovery. In no other case have there been such numerous inquiries by telephone, telegraph and package.

Albert W. Swain, the American consul at Southampton, states that only two bodies are unclaimed, that nearly all the injured are doing well.

At the inquiry it was ascertained that W. H. Thompson was an English butter Louis Goepfinger a German commercial traveler and Jules Keeler a music hall entertainer whose address was Morgan avenue, Brooklyn. Bulletins from the infirmary say the cases of Miss M. Rank of Norfolk street, Park lane, London, and Miss I. S. Griswold of Borough Heath, England, remain highly critical.

Work Banned at Sagamore Hill. OYSTER BAY, N. Y., July 3.—President Roosevelt has had his first day's rest and complete relaxation from the field since congress assembled last December. James Sloan, chief of the president's secret service corps, was placed under arrest as he came from duty at Sagamore Hill by Jack McQuade, the village constable, on a warrant sworn out by Clarence Legende, a New York photographer, charging Sloan with assault when he tried to snapshot the president.

WARSAW TERRORISTS' FATAL WORK

Industry Captain Who Had Given Order For Executions and Police Officer Killed in Polish Capital by "Reds."

ST. PETERSBURG, July 3.—Premier Gorenkyin was summoned to Peterhof, presumably in connection with the reorganization of the cabinet. The Bourse Gazette says it is rumored that General Trepoif, commandant of the palace, has last fallen into imperial disfavor and is leaving Peterhof.

The session of the douma was devoted to the discussion of the law providing for the abolition of the death penalty and broke up in utter disorder when General Pavloff, the military procurator, attempted to address the house in behalf of War Minister Rudiger. His appearance in the tribune was the signal for an outbreak of cries—"Murderer," "Assassin," "Organizer of Jewish massacres," etc.—from the members of the group of left, in which the entire left joined.
