**HORSE BADLY INJURED**

Athens--Henry & Rhoades had a valuable horse very badly injured by running into a barbed wire fence yesterday. They had turned him out in Fred Burn's farm lot, and becoming frightened ran full speed into the wire fence. One fore leg was cut to the bone and the flesh pulled down for the distance of a foot, and flesh and tendons were entirely separated from the bone. His breast was also badly lacerated. Dr. Crawford was called and he has placed the flesh back into place and will try to save the horse.

**Permanent Dentistry**

A quarter of a century ago we placed some gold fillings in the teeth of a well known gentleman at Pittsburgh, a resident of Sayre. These fillings today are just as bright, firm and useful as the day they were made. We will tell you the name of the party, if you wish to see him yourself.

There are variations in dental workmanship, just as there are differences in the various brands of flour. If you desire the highest degree of proficiency--the skill and knowledge that will make YOUR fillings serviceable twenty five years from today--come in or phone for an appointment. On the other hand, if you take pleasure in having your teeth filled over and over again every year or two, you should go elsewhere--we do not do that kind of work.

**CONCERNING AN ATHENIAN**

Athens--In the Romance of Steel and Iron in July Munson's they have the following to say about Col. Millard Hunsiker of Athens. Speaking of the methods employed by Andrew Carnegie, it says that every sales agent imitates its chief on a smaller scale. They are ordered to join the most fashionable clubs, to subscribe generously to all popular causes, and to keep themselves favorably in the public eye. Big contracts are always more likely to be made over the nuts and wines than across the desk. When Millard Hunsiker was sent to get orders from Japan, for instance, he went in a blaze of military glory and social prestige. Hunsiker was a tall, well built man, the Beau Brummel of the Carnegie company. A few months before sailing he secured an appointment as colonel on the staff of the governor of Pennsylvania. This gave him the right to a title and a uniform, both of which proved astonishingly effective in smoothing his path in Tokio and Yokohama. The Asiatic mind is doubly impressed by his prices and full regiments, and he soon cabled back to Pittsburg the most satisfactory order for steel rails and armor plates. Today Col. Hunsiker is in charge of the London office of the United States Steel Corporation and derives a large share for his exports of more than a million tons a year.
