BRYAN AND HEARST.

New York Report Says Nebraska and Newspaper Man Are Allied.

NEW YORK, July 10.—Reports here say that William J. Bryan and William R. Hearst have reached an understanding, and Hearst will support Bryan for the Democratic nomination for president in 1908, and that that is the meaning of Hearst's announcement that he is not a candidate for the Democratic presidential nomination.

It is believed that negotiations have been in progress for some time between these rivals for Democratic leadership—in fact, ever since Bryan's new boom took definite shape. Hearst made certain demands as the price of his support, and there is good reason to believe that Bryan has promised to grant them. One of these demands, and perhaps the most important from Hearst's point of view, is that the men who were responsible for the nomination of Parker in 1904 shall be relegated to the rear and deprived of whatever control they now have of the machinery of the Democratic party. This demand includes the deposition of Tom Taggart as Democratic national chairman and the exclusion of August Belmont and William F. Sheehan in this state from the party councils.

It is said that old time Democrats are ready to support Hearst for governor and Bryan for president.

Bryan in London.

LONDON, July 10.—William J. Bryan and Mrs. Bryan returned to London from West Park, the country residence of Ambassador Whitelaw Reid. Mr. Bryan visited Premier Campbell-Bannerman at his official residence in Downing street and spent an hour with him. C. A. Pearson, the well known publisher, gave a dinner to Mr. and Mrs. Bryan last night.

ROOT AT SAN JUAN.

United States Greatly Interested in Prosperity of Porto Rico.

SAN JUAN, Porto Rico, July 10.—Elith Root, secretary of state of the United States, who arrived here on board the cruiser Charleston, was entertained at luncheon by George Cabot Ward at the Union club. There were present besides Mr. Root and Mr. Ward United States and insular officials, the military and naval authorities of Porto Rico and several Spanish merchants and bankers. Auditor Hyde of Porto Rico proposed the toast to President Roosevelt and Mr. Root.

In responding to the toast Mr. Root recalled his solicitude and interest for Porto Rico during the first days of his administration as secretary of war, while Porto Rico was yet under military government. He said he fully appreciated the difficulties attending the island's adjustment to the new conditions resulting from its separation from Spain and the severance of relations between church and state.

The United States, Mr. Root said, was greatly interested in the welfare of the island and in holding its friendship and strength desired for Porto

Rico the utmost prosperity and happiness. There exists, he continued, no citizen holding office, high or low, who can truly represent his country who does not work zealously for the island's future.

Mr. Root avoided all reference to insular problems, such as the question of citizenship, the coffee growing industry and the presence of troops on the island.

During the luncheon at the Union club Mrs. Ward entertained Mrs. Root at her residence. The leading members of the United States colony were present.

NEW ENGLANDERS OUT WEST

Tide of Travel to the Mississippi Valley in the Early Days.

The Northwest territory, out of which were carved the states of Ohio, Indiana, Illinois, Michigan and Wisconsin, became the quick and steady goal of immigration from New England, and that New England stream into the west has been so constant and so great that there has long been vastly more of New England west of the Hudson river than east of it.

To-day we are indeed seeing strong tountier currents. As there are New England societies in many western cities, made up of men whose memories turn back fondly to the old home and whose steps also turn thither more and more in Old Home week, so now associations of men of western birth are multiplying in our eastern cities. New York has a large Ohio society and we hear of the annual Iowa dinner and Illinois dinner in the metropolis, and Boston now has her own western society, organized last year, with already 100 members.

The old town of Rutland, Mass., has been called "the cradle of Ohio." High on the Worcester county hills, so salubrious that it was chosen by common consent as the best place for our state sanitarium for consumptives, the central town of the state, Rutland, was the home of Gen. Rufus Putnam, and from there he went out to found the state of Ohio.

A second prominent "cradle" was Danvers and the region roundabout, the immediate sphere of the influence of Rev. Manasseh Cutler, Putnam's co-worker, but it is right to give the home of Putnam the prominent place in our celebrations of the beginning of the movement of New England into the west. Putnam's old house in Rutland still stands, well preserved, secured as a memorial a few years ago through the efforts of Speaker Hoar and other enthusiasts, and with its rooms admirably restored and filled with an interesting historical collection, it is visited each year by hundreds of people from the west and east alike.

RAZOR USED BY WOMEN.

Woman That Is Regarded as an Improvement Removed from Upper Lips.

"Well, she's the pioneer in a new line of trade for us, certainly she is," said the drug store proprietor after the door closed behind a stunning brunette, relates the Minneapolis Journal.

"I never thought of it before. The safety razor should certainly be a godsend, perfect treasure, to fair ones with a tendency to superfluous hair on the face. Without doubt she will tell some one else in confidence and the sale of these safety razors will go on. I ought to have given her that razor for nothing, because she will prove to be the vanguard of a host of women customers when she finds how smoothly the thing works.

"You know, the females are all afraid of the strap and the shining steel, and they couldn't keep an edge up at all. The safety solves the question. Gee, what a thought!" And the drug man saw himself the Columbus of a new idea.

According to the drug men it is a common thing for women of the middle class to buy leather cups and brushes and razor strops for their husbands. They are accustomed to shopping for men and therefore the safety razors can be bought without any comment being passed or any unfortunate hazards ventured as to what use the instrument is really intended.

"Formerly, you know," said the drug proprietor, "it was a mark of beauty for a woman to have a faded dark line on her upper lip and down her oval cheeks, but that day has passed. The main care now is to get rid of the hair growth without leaving any traces. A woman wielding a flat razor would be a curiosity. A caseknife would be as effective and not half as dangerous.

"Secrecy is the main thing and they hate to go even to a dermatologist for removal of the incipient beard. It is a family secret, a skeleton in the closet."

Use Up the Scraps.

"I knew once a very courteous, social old fellow," says Lord Chesterfield in his letters to his son, "who used frequently to say: 'Take care of the pence, for the pounds will take care of themselves.' This was a just and sensible reflection in a miser. I recommend you to take care of the minutes, for the hours will take care of themselves. I am very sure that many people lose two or three hours every day by not taking care of the minutes. Never think any portion of time whatsoever, too short to be employed; something or other may always be done in it."

Permanent Dentistry

A quarter of a century ago we placed some gold fillings in the teeth of a well known gentleman at present a resident of Sayre. These fillings today are just as bright, firm and useful as the day they were made. We will tell you the name of the party, if you wish to see him yourself.

There are variations in dental workmanship, just as there are differences in the various brands of flour. If you desire the highest degree of proficiency—the skill and knowledge that will make YOUR fillings serviceable twenty five years from today—come in or phone for an appointment. On the other hand, if you take pleasure in having your teeth filled over and over again every year or two, you should go elsewhere—we do not do that kind of work.
