### PEACE ON WARSHIP

Central American Conference on Marbiehead's Deck.

ONDURAS DESIRES TO COME IN

Being Settled at Oyster Bay-Four New Brigade Army Posts. Taft For Canada.

OYSTER BAY, N. Y., July 17 .- Peace negotiations between Guatemala and Salvador are being arranged by President Roosevelt and Acting Secretary of State Bacon at Sagsmore Hill.

The one new feature in the situation is the expressed desire of Honduras to be a participant in the negotiations. It is understood that this request will be granted in a way, but that the participation of Honduras will be rather in the results reached than in shaping the conclusions.

It is believed that the Marblehead will take on the Salvadorean commiloners at La Libertad and then proreed to the nearest Gustemalan port, Sau Jose, where the agents of that government will board the ship, which vill then go out to sea. This is not the first time the deck of

a United States man-of-war has been the scene of a peace conference. The Marietta was thus employed six or eight years ago in bringing about peace between Costa Rica and Salvador, the Philadelphia played a similar part at Panama during a revolution there bout ten years ago, and more recently Commander Dillingham brought the Monti Cristi insurgents and the Dominioan government agents together off Monti Cristi and secured peace on the deak of the Detroit.

A late report says that Gustemala is still fighting Salvador and Honduras at four points on Guatemalan and Honturan territory.

Honduras will probably agree to th settlement arranged by the two states primarily involved. The negotiations, it is stated, will loubtless be held on board the American cruiser Marblehead, now in Guate

malan waters. The arbitrators on behalf of the United States and Mexico will be the Mexican minister to Central America and United States Minster Combs to Guatemala and United The constant repetition States Minister Merry to Salvador. The date and detail of the proceedings beyond this have not been arranged. At the conclusion of the conference

on Central American matters Assistant Secretary Bacon, accompanied by Mr. Dunne, left for his home in Long Island, Secretary Taft, Police Comissioner Bingham and Mr. Whitridge left Oyster Bay later in the day. rotary Taft said that as a repult of his visit to Sagamore Hill four brigade army posts will be established this year. Although it is decided that seven such posts should be established, the appropriation this year is not suf-actent for the other three.

#### A DIAMOND KING DEAD.

Afred Bett, Controller of South African Mines and Railways, No More. LONDON, July 17.-Alfred Beit, the ead here. He had been in bad health or some time.

Mr. Belt was the richest man in England, being worth \$35,000,000 to \$50, 000,000, yet he was seldom seen in pub lic and was hardly known outside of the circles of scientific finance. He controlled the output and price of the world's diamond industry, had a great distaste for notoriety, was very popular with his intimates and was usually referred to as the "Little Man."

Mr. Belt, who was a stanch friend of Cecil Rhodes, arrived in South Africa several years ahead of the latter, and when he died was by far the largest in dividual owner of mines and lands in South Africa.

Later a suit was brought against Mr. Beit on the ground of compficity in the raid, and his prosecution was demanded by Dr. Leyd, the representative of the Transvasi in Europe, and in 1896 his resignation from the board of directors of the British Chartered South Africa company was accepted.

When Cecil Rhodes died in 1902 it was found that Mr. Beit was appointed one of his executors, and the latter thereupon returned to the board of directors of the British Chartered South Africa company.

Early in 1903 the financier had an poplectic stroke while at Johannesourg, and be never fully regained his health. Since that time he had lived in

### WIDOW'S PROTEST

Holds Success of Persian Mission Above Husband's Life.

### PAYMENT FOR HIS MURDER WAIVED

Feared Lasting Injury Might Be Bone to Work For Which Labarea Gave His Life if Indemnity Was Exacted.

WASHINGTON, July 17.-The state separtment has made public a strong protest addressed by Mrs. Mary Schauf tier Labaree, formerly of Urumia, Persia, to American Minister Richmond Pearson, at Teheran, against the exaction by the United States government of an indemnity of \$50,000 for the murder of her flusband, Rev. Benjamin W. Labarce, a missionary, killed on Mount Arrarat by religious fanatics While believing that when an Amer ican citizen has been murdered because of the criminal laxuess of a foreign government those dependent to him for support should be awarded a suit-

the following declaration: "I believe that the great mission cause to which my husband and I dedicated our lives and which has become dearer to me because of the terrible sacrifice I have been called upon to make for it, I believe that this may receive serious injury if my children and I accept an indemnity for this murder.

"The matter would not be understood by the great mass of the people in this district who would inevitably know of as the Persian idea of blood money is so different from our civilized anderstanding of an indemnity. Thus serious and lasting injury might be done to the mission cause, for which we have already sacrificed so much. that I prefer to waive my right as an American citizen rather than to see this cause suffer.'

She further protested against the size of the indemnity, saying that while her husband's life could not be measured in value by the standards prevailing in that country which fixed the life of a Christian at 33 tomans (dollars) and the maximum value of life of a Moslem at 1,000 tomans, yet the dispropriation between the sum demanded in this case with that of sums paid in similar circumstances by other governments was

Mrs. Labaree asked that the strongest measures be taken by the United States government to see that if any indemnity was in the end exacted it should not be extorted by the Persian government from the innocent people of the province where the murder occurred.

In spite of her protest \$30,000 was actually paid to her by Persia before the thirty days' period named in the ultimatum of the United States had expired. This sum was three times greater than the maximum ever before paid by the Persian government for the murder of a private person. Minister Pearson obtained a promise that the money should not be levied under any guise of special tax from the inhabitants of the province.

Balloonists Taken From Water After Wreck of Huge Gas Bag by Vessel Which Was the Cause of Mishap,

NEW YORK, July 17 .- Leo Stevens, an aeronaut, with James Hare and Charles Levee, the latter a noted French balloohist, met with an accident here that imperiled their lives when their balloon, which had sailed over the bay and across New York city. landed in the water near the Long Island sound, shore off College Point. The three men were burled head first into the water.

The opportune presence of a sloop, which was fouled by the balloon's big sea anchor, which it had been the intention of Mr. Stevenson to test, probably saved the lives of the two aeronauts and their photographer, Hare. Driven first one way and then another by high winds after the start at Stapleton, N. Y., the big airship crossed

over toward Flushing and then was sent whirling toward College Point. For some reason it descended suddenly when fust off the Long Island shore. the auchor becoming tangled on the sloop. All three of the occupants were burled head first into the shallow waters, but were soon landed on the sloop by deck hands.

The balloon and the aeronauts were brought over to a landing on the shore. The navigators had a hard time getting away on the start. They first ran foul of a tree, then a clothesitne and then into a three story brick building, and the three in the basket were nearly upset on each occasion. Coming over the bay the balloon was

up about 400 feet, but when over Battery park three base of sand were dropped, and the balloon rose to a height of 1,000 feet. Attracting considerable attention from downtown crowds the immense gas bag continued to the northeast and then drifted back over the city, sailing over the Brooklyn DOTTED SWISSES. bridge terminal and the Manhattan tower of the Williamsburg bridge. A strong southwest wind was blow ing when the balloon began to ascend, and it was carried into a tree. The three men in the basket were hurled

thrown out. As it was several branches of the tree were broken. Later the balloon descended and fouled the sloop.
