## WE BEGAN OUR Big Midsummer Clearance Sale! July 12th and End July 22nd

There are phenomenal bargains; opportunities to be had from Basement to Fourth Floor, in every one of our ten complete departments, evidence of which can be seen from the volume of trade showing their appreciation of Big Store Selections and Big Store Values since our sale began. Extra clerks provided so that you may be served quickly and satisfactorily.

**We Have No Marked-Up Goods to Boast of a Marked-Down Sale, Neither Have We Old or Out of Style Merchandise to Offer You.**

We buy much of our merchandise through the Roe Syndicate, controlling 40 large stores in the east and central west—oftentimes dealing with mills, eliminating the jobber's profit.

**There Is No Better Means of Securing the Short Price.**

That's why you invariably get it here for less; Merchandise is being cleaned up in this sale at one half, one third, and one fourth original markings.

Come early and come every day. You will find something new each day. Where about everybody goes is a good place to shop.

*A quarter of a century ago we placed some gold fillings in the teeth of a well known gentleman at present a resident of Sayre. These fillings today are just as bright, firm and useful as the day they were made. We will tell you the name of the party, if you wish to see him yourself.*  
*There are variations in dental workmanship, just as there are differences in the various brands of flour. If you desire the highest degree of proficiency—the skill and knowledge that will make YOUR fillings serviceable twenty five years from today—come in or phone for an appointment. On the other hand, if you take pleasure in having your teeth filled over and over again every year or two, you should go elsewhere—we do not do that kind of work.*

Prof. Hansleén, of the agricultural school at Aas, Norway, finds that a greenish-white moss common in that country can be converted into delicious and nutritious food by being subjected to a chemical process, compressed and cooked. He says that nine ounces of moss, costing two cents, will make a good dinner for six persons—which is evidence that his zeal outruns his discretion, inasmuch as an ounce and a half of food is not enough to make a substantial meal for a normal man or woman.
