Permanent Dentistry
A quarter of a century ago we placed some gold fillings in the teeth of a well known gentleman at present a resident of Sayre. These fillings today are just as bright, firm and useful as the day they were made. We will tell you the name of the party, if you wish to see him yourself.

There are variations in dental workmanship, just as there are differences in the various brands of flour. If you desire the highest degree of proficiency—the skill and knowledge that will make YOUR fillings serviceable twenty five years from today—come in or phone for an appointment. On the other hand, if you take pleasure in having your teeth filled over and over again every year or two, you should go elsewhere—we do not do that kind of work.

Explosive Dust in Mines.
Recent explosions in coal mines have shown that the fine dust which settles on the timber and sides of roadways is an element of serious danger. The risk is kept at the minimum when and where the dust is removed as much as possible and the currents of air forced into the mine through ventilating shafts are made as dry as practicable.

Submarine Monotony.
As a rule with few exceptions, the surface of the earth under the oceans is devoid of striking and abrupt contrasts. It would be monotonous if it were brought to view. The action of the water and the depositing of organic and other matter settling down through the sea have smoothed down the greater part of the subaqueous earth and left it far from picturesque.

Never Lived There.
"Where did you learn the Lord's Prayer?" asked an Atchison Sunday school teacher of a little girl.
"Used to live in Topeka," said the little girl, "and I learned it there."
"Now let me hear you say it," said the teacher to the next little girl.
"I don't know it," said the next little girl: "I never lived in Topeka."
—Kansas City Journal.

Labor Unions in Holland.
Every department of labor is united in Holland and all other departments. So the other night the spectacle was seen at the Amsterdam opera house of a crowd of bootmakers and cobblers wrecking the performance of an opera for which nonunion choristers had been enlisted.

The ever burning questions: "What shall we do with our boys?" seems to be satisfactorily answered in the following advertisement, which appears in the window of a Farmington road butcher's shop: "Wanted, a respectable boy for beef sausages."
—London Tribune.
