ROOT AT RIO. Secretary of State Welcomed to Brazilian Capital.

RIO DE JANEIRO, July 23.—The United States cruiser Charleston, with Secretary Root on board, entered the harbor from Bahia at 7 a. m. and was saluted with nineteen guns from the forts. The American ambassador, Mr. Grison, and the Brazilian ambassador, Senor Nabuco, went on board the Charleston at 9:30, which was seen surrounded by hundreds of noisy launches and ferries crowded with people anxious to greet the American secretary of state. The latter and his family, accompanied by Senor Nabuco, landed in the thirty or royal barge John VI. amid the salutes of the assembled warships, including those of Brazil, Germany and Argentina. On landing Mr. Root was welcomed by General Rio Branco, the Brazilian foreign minister, as the representative of President Alves. A reception was then held beneath a floral arch at the landing place, which was surrounded by troops and many thousands of cheering people. Secretary Root was welcomed in a brief address by General Rio Branco, who spoke of the advantages of a pan-American alliance. An enormous procession composed in part of cavalry, carriages, police and lancers, escorted Secretary Root through the streets. Ambassador Nabuco rode in the carriage with Mrs. Root, while General Rio Branco rode with Secretary Root. Later Secretary Root and Ambassador Grison paid an official visit to President Alves.

TRADE CONDITIONS. R. G. Dun & Co.'s Weekly Business Review.

NEW YORK, July 23.—R. G. Dun & Co.'s report for the week says: Comparisons of the volume of current business with results at the corresponding date in the previous years are so uniformly favorable that the outlook can only be regarded with confidence. Seasonal statements are now sufficiently complete to make it certain that the first half of 1926 was the most prosperous six months period in the nation's history, and, unless heavy cancellations occur, the last half of the year will establish a still higher record. Building operations are extensive, and would be much greater if the cost of labor and materials had not caused the abandonment of many plans. Commercial failures in the United States are 210, against 162 last week, 202 the preceding week and 214 the corresponding week last year. Failures in Canada number 15, against 22 last week, 21 the preceding week and 27 last year. Of failures this week in the United States 72 were in the east, 68 south, 61 west and 15 in the Pacific states, and 64 report liabilities of \$5,000 or more. Liabilities of commercial failures reported for July to date are \$5,122,079, compared with \$5,528,629 a year ago.

Permanent Dentistry

A quarter of a century ago we placed some gold fillings in the teeth of a well known gentleman at present a resident of Sayre. These fillings today are just as bright, firm and useful as the day they were made. We will tell you the name of the party, if you wish to see him yourself.

There are variations in dental workmanship, just as there are differences in the various brands of flour. If you desire the highest degree of proficiency—the skill and knowledge that will make YOUR fillings serviceable twenty five years from today—come in or phone for an appointment. On the other hand, if you take pleasure in having your teeth filled over and over again every year or two, you should go elsewhere—we do not do that kind of work.
