The August Clearance of Summer Merchandise

There's no inherent virtue in buying what you do not need. You can draw on this big stock almost any day and find what you want. But to keep this big store reasonably busy during a normally dull month we make it worth while to buy now, by offering the best goods at prices that average one third off. That's where the advantage comes in buying now.

There are hundreds of items. We cannot comprehensively enumerate them all; they come from every department of the store.

It's good business for us to make the offer. We know you will consider it good business to call and get your share. Go to the top floor; come down; follow the Red Signs. They all play an important part in informing you of the extraordinary values we offer.

If you read it in our ad. it's so.

TRADE CONDITIONS.

R. G. Dun & Co.'s Weekly Business Review.

NEW YORK, Aug. 4.—Aside from the reasonable dullness in wholesale departments, commercial activity is well maintained, and early preparations are made for autumn and winter business. August opened with no adverse developments in the trade situation, while crop progress during July was most favorable. Trade reports are especially gratifying from the northwest and other points that are dependent upon agricultural results, but all sections of the nation enjoy great prosperity and there is scarcely a discordant note in any of the dispatches. Scarcity of labor is the only serious complaint, output of coke being curtailed, and there is delay in harvesting some crops, while strikes retard the rebuilding of San Francisco.

It is not often that managers of a leading industry are uneasy regarding the future because of too much business, yet that is becoming the situation at iron furnaces and steel mills. Several problems are arising on account of the apparently unlimited tonnage that consumers seek. Orders on the books are far in excess of the estimated output.

New England footwear markets are quiet, western and southern jobbers having returned, while eastern wholesalers do not operate until about the middle of August.

Wheat declined this week to the lowest point since exports fell off so severely over two years ago, and the return to attractive prices is expected to produce a resumption of foreign demand. This broader interest by exporters is the best element of support, as generally encouraging crop news comes from the northwest, where spring wheat is about out of danger and most of the winter wheat has been thrashed with unexpectedly favorable results. Western receipts of 7,888,005 bushels of wheat for the week compare with 7,368,534 last year.

Commercial failures in the United States are 180, against 216 last week, 192 the preceding week and 222 the corresponding week last year. Failures in Canada number 16, against 15 last week, 22 the preceding week and 26 last year. Of failures this week in the United States, 74 were in the east, 52 south, 38 west and 16 in the Pacific states, and 55 report liabilities of \$5,000 or more. Liabilities of commercial failures reported for July are \$6,919,014, compared with \$6,148,930 a year ago.

Permanent Dentistry ALEX. D. STEVENS, INSURANCE AND REAL ESTATE.

A quarter of a century ago we placed some gold fillings in the teeth of a well known gentleman at present a resident of Sayre. These fillings today are just as bright, firm and useful as the day they were made. We will tell you the name of the party, if you wish to see him yourself.

There are variations in dental workmanship, just as there are differences in the various brands of flour. If you desire the highest degree of proficiency—the skill and knowledge that will make YOUR fillings serviceable twenty-five years from today—come in or phone for an appointment. On the other hand, if you take pleasure in having your teeth filled over and over again every year or two, you should go elsewhere—we do not do that kind of work.
