TOO BIG TO PARADE

A circus that is too big to parade is a novelty even in these days of OAK GROVE PARK amusement institutions. But this is the announcement of the Barnum & Buley circus, which exhibits in Sayre, August 24. In speaking of the reasons for this striking innovation, a representative of the big show said recently: "The Barnum & Bailey circus has become so large that a parade is no longer would still be feasible, but with our five long trains of cars, this is too much to expect of the railroad companies In many instances it is 8 or 9 o'clock before the last section arrives, and 10 o'clock before it is unloaded and the paraphernalia transferred to the show grounds. This leaves just sufficient time to take several hundred men away from the show grounds at the most discomfort to the public To com out in front of the entrance in the hot sun or rain, because the giving of the parade has delayed the opening for an hour or more, is posi tively cruel; but there is frequently no help for it when parades are given. By eliminating the parade the public is also saved a long and often uncomfortable wait on the streets pending the always more or less delayed procession, which at say nothing of the interference with

the city's merch ints. .The absence of the parade is more than compensated for by this year's big arenic acts and "thrill ers." There are a number of big sensations, and the structural steel used in these startling acts alone utilizes the carrying capacity of it is announced that a splendid free show will be given on the exhibition grounds daily at 11 and 5 remarkable performer on an ele vated wire cable.

"Bloodine Liver Pills"
act gently, yet thoroughly upon the bowels, liver, stomach and digestive organs. The pills, in old and chronic cases of constipation and indigestion, act at once, without griping, nor do they leave any unpleasant after-effects, nor form a constant habit unpleasant after-effects, nor form a constant habif of purging, produced by other cathartic remedies. "Bloodine Liver Pills" restore the deranged and torpid liver to its normal condition and healthful action. Remove and prevent constipation by securing a natural and regular operation of the bowels, and relieve those unpleasant symptoms which attend a diseased or morbid condition of the liver, stomach and bowels. To assist in artaining this end, the following suggestions are offered.

REMARKS. Everyone who uses pills for heir action on the liver, should know that large REMARKS. Everyone who uses pills for their action on the liver, should know that large doses rarely, prove as satisfactory as small ones. Large doses simply purge and pass out of the system, usually leaving the bowels constipated, and seldom removing the cause of the trouble, or improve the general health. On the other hand, small doses develop the alterative effect of the medicine, do not irritate or constipate the bowels, but gently stimulate the liver and prevent the accumulation of bile by directing its flow into the proper channels. Therefore it is advisable to commence by taking not over one or two pills as bedtume and increase dose as necessary.
