**THOUSANDS DEAD**  
Valparaiso In Ruins as Result of Earthquake.  
LOSS MAY BE \$250,000,000.  
Many Small Chilean Towns Completely Wiped Out.  
THIRTY ARE KILLED IN SANTIAGO.

Capital of Chile Suffers Severely, but Not as Bad as Valparaiso, Where Conditions Are Reported to Be Worse Than They Were at San Francisco—Populace Panic Stricken and Fires Add to Terror of Earthquake.

VALPARAISO, Chile, Aug. 20.—At 7:52 o'clock last Thursday evening Valparaiso experienced an earthquake of great severity, and during that night eighty-two shocks were felt. Most of the buildings of the city either were ruined or damaged. The loss will be enormous, probably reaching \$250,000,000.

Two thousand persons killed is considered to be a fair estimate of the casualties.

Vina del Mar, three miles from Valparaiso and having a population over 10,000; Quirihue, 225 miles to the southward, with a population of 2,500; Salto; Limache, fifteen miles to the northwest, with a population of 8,500; Quillota, twenty-five miles to the northwest, with a population of 10,000, and villages all around were destroyed.

Most of the damage was due to fire, which started immediately after the first shock.

The whole population is sleeping in the hills, the parks or the streets. Food is very scarce. Milk costs two Chilean dollars a liter, and it is almost impossible to obtain meat, even at high prices.

The railroads are all destroyed. Rain, which began to fall immediately after the first shock, stopped an hour afterward.

The nights are very cold and windy, and the people sleeping in the open are suffering greatly.

The captain of a steamship which has arrived from San Francisco says that the situation here is worse than that following the disaster at San Francisco.

**THIRTY DEAD AT SANTIAGO.**  
Chilean Capital Suffers Heavily From Earthquake.

SANTIAGO DE CHILE, Aug. 20.—It is known that at least thirty lives were lost in this city by the earthquake, but it is believed that others were killed by the falling buildings and that their bodies will be discovered later. Several persons became so panic stricken during the tremblings of the earth that they threw themselves from the balconies of their homes and were killed. The fires which followed the earthquake in this city were promptly extinguished, but while they lasted they greatly augmented the terror of the people.

An all telegraph and telephone lines were more or less damaged the exact situation throughout the country is not yet known, but it is believed that the towns of Valparaiso and Casablanca were entirely destroyed and that San Felipe, Rancagua, Millipilla and Lilliall were severely damaged. At Concepcion the shock was severe, and a number of persons were killed or injured. The towns of Hengo, San Fernando, Quillota and San Antonio and many villages are in ruins. All railway service in the central zone is either interrupted entirely or greatly delayed, and commerce is practically at a standstill.

In the city of Santiago much damage was done. Many public buildings, particularly churches, were dismantled. The buildings of congress, the municipal buildings, the normal school, the courts, the Peruvian legation, the residence of President Biesco, the central market, the prefecture of police and the National Telegraph office, all were seriously damaged. The lines of the electric tramway system and the electric light wires were short circuited, interrupting street car travel and plunging the city into darkness.

The scenes at the hospitals and prisons during the excitement were distressing in the extreme. The prisoners tried to escape from the jails in the hope that they might reach a place of safety, and prison guards were obliged to fire into the air in order to intimidate and quiet their panic stricken charges.

There have been several return shocks of slight intensity. These shocks have served to continue the state of public alarm and a state of panic still prevails. The astronomical observatory, however, has given out a statement to the effect that it does not appear to be possible that there will be a repetition of the severe shocks. Many persons slept in the tramway cars, in carriages and in the open air in the public squares and streets. The government has taken steps to restore order. An inspection of all houses left standing has been ordered, and directions have been issued for the distribution of relief supplies to those in need. A troop

of cavalry has been sent to re-establish communication with Valparaiso. The alarming news first received by the government from Valparaiso as to the situation in that city has not been confirmed, but it is known that numerous buildings in the vicinity of the port were destroyed and that there have been severe fires in the Alameda quarter. The mayor of Valparaiso sent word that he did not know the number of killed or injured, but believed that they were numerous. Firemen left Santiago for Valparaiso to aid in extinguishing the fires there. The customs house in Valparaiso is reported to be burning. Several travelers who have just arrived here from Valparaiso say that reports of the situation in that city were exaggerated. An employee of the telegraph service sent word from Salto, near Valparaiso, containing the news of the serious fires in the Alameda quarter. This employee also sent news that the Spanish-Italian bank building of Valparaiso was destroyed by the earthquake.

A traveler who came here by express train tells that when the train was near Las Vegas, about halfway between Valparaiso and Santiago, the cars were shaken violently, and the engine nearly left the track. A stop was made and the terrified passengers alighted. Later they proceeded to Lilliall, which they found in almost total ruins.

All lines of railway to the north and the line to Talca are greatly damaged. In the city of Santiago a majority of the victims of the disaster were residents of the poorer sections of the city, where many small houses were thrown to the ground. Several deaths from nervous excitement and heart disease are reported.

**Tidal Wave Sweeps Islands?**  
HONOLULU, Aug. 20.—Wireless reports from islands of Hawaii, Maui and Hilo report a tidal wave, the average height of which was more than five feet. The tidal wave is attributed to the earthquake at Valparaiso. Thirty years ago an earthquake in South America produced similar effects here, and at that time a heavy loss of life ensued.

**Panic Ameliorating.**  
LIMA, Peru, Aug. 20.—The latest advices received here from Valparaiso say that the panic condition of the people is ameliorating. Great damage was done in Alameda, the principal business section of the city, and in Victoria street few buildings except the mansion are standing.

**LEWIS MORRISON DEAD.**  
Actor Made Famous by His Playing of Mephisto.

NEW YORK, Aug. 20.—Lewis Morrison, the actor, whose work as Mephisto in "Faust" gained him fame, died suddenly of shock in St. John's hospital, Yorkers, after undergoing an operation for stomach trouble.

Few members of the theatrical profession were more widely known in the United States than Mr. Morrison. He was born of English parentage in Kingston, Jamaica, in 1848. He came to this country at an early age and enlisted on the Union side in the civil war. He rose to the rank of lieutenant, and on his honorable discharge at the close of the war he received the rank of captain for distinguished service. He won the personal friendship and praise of General Grant during the siege of Vicksburg, when he swam the Mississippi under fire of the batteries with dispatches for the Federal army.

After his discharge from the army Mr. Morrison entered the theatrical profession as an actor in the old Varieties theater, New Orleans, making his first appearance with Lawrence Barrett in 1865. He was afterward associated with Edwin Booth, Edwin Forrest, Tomaso Salvini, Adelaide Nelson, Charlotte Cushman, Janussek, Rose Coghlan and Agnes Booth. He was also associated for nine years as leading man with the old Walnut Street Stock company in Philadelphia. He played next with the old California Theater Stock company in San Francisco and then took up "Faust" with himself as Mephisto, and for fully twenty years starred this country and Canada with wonderful success and popularity.

JOHNSTOWN, Pa., Aug. 20.—An unprecedented rainstorm here that resembled a cloudburst flooded Mexpan, the fashionable residence section of the city, and caused thousands of dollars' worth of damage. Street car traffic was tied up for two hours. Many of the streets are two to three feet deep with water, and the Conemaugh river and Stony creek are rising rapidly. The business section of the city is some distance from the flooded section and is safe from any damage.

**TWELVE MEN DROWN**  
Waters Claim Many Victims In and Near New York.  
MANY HEROIC RESCUES ARE MADE  
Three Persons Drowned in a Group at Manhattan Beach—Man Breaks His Neck in a Swimming Tank.

NEW YORK, Aug. 20.—Twelve persons lost their lives in the waters about New York on Sunday. Most of the victims were bathers who either ventured out too far from shore and became exhausted or who were set with illness and became helpless. A number of heroic rescues of imperiled swimmers were made, and these reduced what would otherwise have been a much larger death list.

Three persons were drowned in a group near Manhattan Beach in a manner that could not be ascertained, and the police of the Coney Island station are conducting an investigation. The only eyewitness to the drowning disappeared. The victims in this instance were Morris Grosse, Martin Anderson and an unknown bather about twenty years of age.

A particularly sad case of drowning was that of Harold Sellers, twenty-five years of age, who was swimming with his father in Jamaica bay. The men were diving from a launch. On one plunge the young man did not reappear. The father dived frantically in the hope of rescuing his son and continued to plunge into the water until he became unconscious from exhaustion and was with difficulty rescued and resuscitated.

William O'Keefe, twenty-four years of age, was drowned in Gravesend bay, becoming exhausted while swimming far from the shore. John Blanski, nine years old, of Jersey City, was drowned while swimming in the Hudson river. William Hill, twenty-six years old, of Long Island City, was swimming in the East river when he became ill and went down before rescuers could reach him. The bodies of two unknown men were found floating in the East river off the foot of Tiffany street. One was supposed to be the captain of a sand barge moored near by.

Albert Hagenborn, twenty-six years old, of Brooklyn, was instantly killed when he dived from a balcony twenty feet high into five feet of water in the swimming tank at a pleasure park in Coney Island. His neck was broken.

Edward Moore, seven years old, was drowned in the Hudson river off West Twenty-ninth street while trying to climb aboard a barge. Sven Remsen, thirty-five years old, was drowned off Yorkers in some mysterious manner.

**Japanese Middy Dies of Typhoid.**

The young man was nineteen years old and entered the academy in June of this year by special arrangement with the Japanese government. The remains will probably be buried in Arlington cemetery, Washington.

**Bird S. Coler Arrested.**  
HACKENSACK, N. J., Aug. 20.—Bird S. Coler, president of the Borough of Brooklyn, was held up and arrested while passing through this place for violating the state automobile law in not having a New Jersey license number on his touring car. He took his arrest good naturedly and complimented the officer for doing his duty and then paid his fine of \$25 and \$30 costs. Later Mr. Coler went to the inspector's office and took out a New Jersey license.

**Quiet at Coney Island.**  
NEW YORK, Aug. 20.—Quiet reigned along all of the lines of the Brooklyn Rapid Transit company leading to Coney Island, in striking contrast to the riotous scenes of last Sunday night, when thousands of passengers refused to pay the second fare demanded by the company and were ejected from the cars. The great crush of seashore visitors accepted the rebate checks given by the company upon the payment of the second fare, and everything passed off smoothly.

Traveling Man Picks Up \$100,000, Returns It and Is Handed \$100,000.  
CINCINNATI, Aug. 20.—George J. Mitchell, a traveling salesman from Newark, N. J., and who stops at the Gibson House when in this city, dropped into a telephone booth in that hotel. He found lying in the booth a pocketbook containing ten \$10,000 bills—\$100,000 all told—and valuable papers.

Going to the clerk's desk, he placed them there for safekeeping. Soon Frank Gard, president of the Gard Mining company of Denver, who was stopping at the Hotel Lackman, rushed into the booth and again greatly excited. He asked the clerk if he had found a pocketbook, and the man behind the desk required him to describe it.

"And you left a pocketbook," replied the clerk, "containing \$100,000 in a telephone booth?"

All kinds of questions were asked. Mr. Gard asked who found it and offered one \$10,000 bill to Mitchell, who could not bring himself to accept it.

In lieu of that, however, he gave him \$10,000 worth of mining stock which sells at par and told him if he kept it it would some day make him some money.

**THREE KILLED IN AUTO WRECK.**  
Train Hits Machine at Allaire Crossing, Near Asbury Park, N. J.

ASBURY PARK, N. J., Aug. 20.—Swinging swiftly around a curve at Allaire crossing, unmindful of an approaching train, three persons were killed when the train struck the automobile in which they were riding. So fearful was the impact when the train struck the machine that the car was lifted high into the air, throwing the occupants many yards down the roadway.

The victims of the accident were J. George Laffargue, a rich piano manufacturer, living at 174 West One Hundred and Twenty-sixth street, New York; his wife and Mr. and Mrs. Charles Lurch of 925 Lexington avenue. The two women and Laffargue died several minutes after being struck by the train, but Lurch, although seriously hurt, may live.

The two families were spending the summer in Asbury Park.

He accompanied his two daughters to San Antonio to a dentist's office, and while he was waiting there Burton, who had a grievance against the dentist, whose name is Nichols, came to the door and asked if Nichols was in. Wishard replied that he was, and Burton, thinking it was Nichols who spoke, fired a load from the shotgun into Wishard's heart, killing him instantly. When Burton fired he called out, "Nichols, you have ruined my wife!"

**TRAIN KILLS SEVEN**  
Fast Freight Crashes In Work Cars at Sang Hollow, Pa.  
RAIN BLINDED THE ENGINEER.  
Couldn't See Obstruction Until Almost on It, Then He Jumped and Will Dis-Awful Scenes of Horror.

JOHNSTOWN, Pa., Aug. 20.—Plunging through a blinding rainstorm at the rate of forty-five miles an hour a fast freight train on the Pennsylvania railroad crashed into a slowly moving work train at Sang Hollow, killing seven and seriously injuring seven others of the work train crew. Three of the latter will probably die.

The work train had stopped at a water plug near Sang Hollow to take water. A Fort Wayne freight was following, and because of the driving rain the engineer was unable to see the work train until just before the crash. The engineer of the freight jumped and received injuries from which he will die. The fireman remained on the engine and was uninjured. When the freight engine crashed into the work train it plowed its way through the cars. All of the laborers and others of the work crew were asleep, and those that were killed probably never knew they were struck.

The cries of the wounded, the burning cars, the overturned engines and the sound of escaping steam combined to make a most horrible sight. The crew of the freight made an attempt to rescue the men from the cabin cars, but owing to the fact that the doors were battered in on the wreck and the timbers were crushed so that entrance was impossible it was some hours before it was found out how many were dead. Four men were dead when taken out. The others died after being taken to a hospital.

It is reported that four others are in a dying condition. According to reports, Engineer S. N. Woods of the freight train had increased the speed of his train just before the crash that he might take water from the water plug along the track and in so doing is said to have exceeded his orders. An investigation will be made, it is said. When news of the wreck reached this city two wrecks crews were sent out. The conditions as described by members of these crews upon their arrival were appalling. Dead and dying were lying on the tracks, while some of the injured were hanging out of the windows of the cabin car crying for help and begging to be saved from fire that had started in the wreck.

**Two Boys Blown Up.**  
YREKA, Cal., Aug. 20.—Two boys were killed and another was probably fatally injured when powder house No. 1, belonging to the Grant Powder company, was blown up. In nearly every business house in Yreka windows were broken. Remnants of clothing and parts of bodies found on a hill indicate that two boys were blown to atoms. Bert Holland was found twenty-five yards from the powder house, with his face lacerated and two holes in the temple, evidently caused by flying stones. Two damaged rifles were found near the bodies. It is supposed that the boys shot into the powder house through a ventilator.
