LACE IN LOAF OF BREAD.

Novel Method of Smuggling Discovered at New York Postoffice. WASHINGTON, Aug. 20.—A novel case of smuggling at New York was reported to Acting Secretary of the Treasury Reynolds. There arrived at the New York postoffice last week a neat package with the Brussels postmark on it. As is customary in such cases, the addressee was notified to call for the package, which was to be opened in the presence of a customs officer.

When the strings were cut, out rolled a loaf of bread beautifully browned. The suspicious of the inspector were at once aroused, and breaking open the loaf, he found several hundred dollars worth of expensive lace wrapped in oil silk. The sender, adopting the argument of the ostrich with its head in the sand, thought no prying inspector would think of looking in a loaf of bread for rare old lace.

REVOLUTIONISTS' RUSE.

Boxed Consul's Ears So Governor Would Come Out and Be Shot. WARSAW, Aug. 20.—The revolutionists who on Saturday attempted to assassinate the governor general adopted a stratagem to induce him to leave the palace. A few days ago a revolutionist, disguised as an officer, appeared at the German consulate, quarreled with the vice consul and boxed his ears. Owing to this incident the governor general was compelled to visit the vice consul and offer an apology. Meanwhile the revolutionists had rented a flat near the vice consul's residence, and when the governor general's carriage appeared they threw bombs at it.

The police having been informed that a light haired girl threw the bombs arrested the light haired girls in the neighborhood. Nevertheless the miscreant was not captured.

TOO MUCH CIVILIZATION.

That Causes All Our Ills, Says Chinese Surgeon.

CHICAGO, Aug. 20.—"The advanced stage of civilization in the United States is responsible for the surprisingly large amount of surgery performed by American physicians. Railroads, automobiles and high buildings are the causes of most of the ills that flesh is heir to here. Life is more worth living in China."

This is the impression of American life which will be taken to China by Gin Wa Chan, a medical student, who left Chicago to assume an instructorship in surgery in the Imperial university at Peking. He was the first Chinaman to pass an examination before the Illinois state board of medical examiners. Chan was sent to this country by the Chinese government at the instance of the empress dowager.
