NEGRO SHOT TO DEATH.

His Crime Was That of Trying to COLUMBIA, S. C., Aug. 24.-Willie Spain, a negro, twenty-one years old, was shot to death by a mob near St George, Dorchester county. S. L. Con ner, manager of the Dorchester Lumber company's stores at Dadham, was notified by a negro that he saw another negro attempting to enter a window of Conner's home and then hide in a cane patch. Conner started for his home, going through the cane field. He suddenly came upon Spain. He struck the negro a severe blow, break ing several bones in his hand. The ne gro finally freed himself and ran into a woods. About two hours later Spain was captured in a negro cabin. He was brought to St. George and turned over to Sheriff Limehouse, who locked him in jail.

Shortly afterward forty or fifty men went to the sheriff and demanded the keys of the jail. Securing the keys, the tail was unlocked and the negro taken to the house of Conner, where his eleven-year-old daughter, who was alone in the house, positively identified the negro as the one who tried to climb through the window, but was fright-

ened away by her screams. The negro admitted that he had gon to the residence with the intention of entering it, but for what purpose he did not say. The mob strung Spain to a limb and shot about 500 bullets into his body. The sheriff telegraphed Governor Heyward of what happened. The governor at once wired the officer to use all means to prevent a lynching. but it was too late, as the mob lost no time in dispatching the negro.

Exploration by Balloon.

The value of the balloon for the exploration of the upper atmosphere has long been recognized, and in France, at least, under the direction of M. Hermite, a series of experiments were arried out which proved to be not only interesting but of the first importance. Of course, these exploring balloons carried no passengers, and one reached the unprecedented altitude of ten miles.
