FELL TWENTY FEET AND BROKE LEG

Athens—Saturday afternoon at about 5 o'clock, Lewis Dunfee, about 15 years old, was playing "tag" with Robert Rutledge and another boy, in the alley back of Hines' drug store. Dunfee climbed on the back porch of the old printing office building and from there onto the Page barn. He reached the ridge of the roof and slipped, sliding down the western side and off the building, fully a distance of twenty feet or more and striking on some rough stones on the ground. His right leg was broken, both bones being fractured about two inches above the ankle. He was carried into the building and Dr. Holcomb soon arrived and bound up the wounded member and he was taken to the home of his brother, George Dunfee, 135 Spruce street, and from there sent to the hospital.

ARGUMENT CONTINUED

He was again convicted at the last county court, and his lawyers filed objections to some of the proceedings which is the matter now being argued before Judge Fanning.

PRESIDENT CALLS FOR AID.

Valparaiso in Need of Assistance After War Great Disaster.

OYSTER BAY, N. Y., Aug. 27.—President Roosevelt has issued a proclamation appealing for aid for earthquake stricken Chile. The proclamation reads as follows:

"A dreadful calamity has befallen our sister republic of Chile in the destruction by earthquake of Valparaiso and other localities. We of this nation at this moment see the city of San Francisco struggling upward from the ruins in which a like catastrophe overwhelmed her last spring. We keep keenly in mind the thankful appreciation we then felt from the way in which the people of Europe, Asia and both Americas came forward with generous offers of assistance.

"In this time of woe of our sister republic I ask that our people out of their abundance now strive to do to another as others last spring did to us. The National Red Cross association has already taken measures to collect any subscriptions that may be offered for this purpose, and I trust that there will be a generous response."

LITTLE FALLS, N. Y., Aug. 27.—The boiler of freight locomotive No. 2433 of the New York Central and Hudson River railroad exploded just west of here, causing the death of Engineer Chris Wagner of Albany and Fireman Edward Hall of Oneida. The locomotive was drawing a heavy east-bound freight and had just passed tower 25-A when the explosion occurred. The boiler was thrown from the trucks high in the air and landed on its end 100 feet away, blocking all four tracks of the road. A freak of the explosion was that neither the driving wheels nor tender of the engine was thrown from the tracks, but ran on with the train for a quarter of a mile.

Permanent Dentistry Bring Your Job Printing to

A quarter of a century ago we placed some gold fillings in the teeth of a well known gentleman at present a resident of Sayre. These fillings today are just as bright, firm and useful as the day they were made. We will tell you the name of the party, if you wish to see him yourself.

There are variations in dental workmanship, just as there are differences in the various brands of flour. If you desire the highest degree of proficiency—the skill and knowledge that will make YOUR fillings serviceable twenty-five years from today—come in or phone for an appointment. On the other hand, if you take pleasure in having your teeth filled over and over again every year or two, you should go elsewhere—we do not do that kind of work.
