Illinois Democratic Leader Hite at W. J. Bryan.

REPLIES TO NEBRASKAN'S ATTACK.

ores Him For "Company He Keeps" and Belittles Men Indorsed by Mr. Beyan In His Paris Interview.

NEW YORK, Sept. 8.-Roger C, Sulvan, member from Illiuois of the Democratic national committee, has issued a lengthy statement, in which he replies to the recent attacks made upon him by Mr. Bryan. The following is an abstract of Mr. Sullivan's remarks:

"In his Jefferson club banquet speech at Chicago William J. Bryan again saw fit to make me the excuse for exploiting his new ambition to convert the Democratic party of the United States into an autocracy, with himself on the dictator's throne. I regret that he has done so as I would regret any incident or circumstance tending toward discord in the Democratic par-

"If portious of Mr. Bryan's speech mean anything they mean that he would rather have his own way than have Democrats elected to congress or any other offices. He has invited all Illinois Democrats who agree with him in his opposition to me to bolt their ticket. If there are any Democrats in Illinois who are disposed to act on this typically Bryanesque advice many of m unfortunately will be found in congressional districts which are close, but in which with united effort we have a good chance to elect Democretic congressmen. If these districts send Republicans to the next national house of representatives the Democratic party of the nation will have Mr. Bryan to thank. As a Democrat I regret that Mr. Bryan's rule or ruln disposition has led him to make such misuse of his influence.

"But in so far as Mr. Bryan's banquet speech applies to me personally, to my character, to my business, to my associates, to my Democracy and to my olitical acts I welcome the issue, and n that issue I challenge Mr. Bryan to the proof of his truthfulness, his honesty and his sincerity-that sincerity which, he boasts, is his political asset. yield to no man in my adherence to Democratic principles as laid down by the great founder, Thomas Jefferson. Judged by that standard, I invite comparison of my Democracy with Mr.

Bryan's." Continuing, Mr. Sullivan scores Mr. Bryan for the "company he keeps" and attacks particularly the characters of Theodore Nelson, Judge Owen P. Thompson, Millard Fillmore Duniep and Henry T. Rainey. These are he men indorsed by Mr. Bryan in als Paris interview. Mr. Sullivan describes in the purification of Illinois politics to the rule that a man is known by the company he keeps?"

SHAW WARNS BANKERS.

overnment Deposit Must Not Be

Used For Speculation. WASHINGTON, Sept. 8.-Secretary of the Treasury Shaw has notified all national bank depositories, in which he says in effect that he expects public moneys in depository banks to be used in communities where it is deposited and not loaned through brokers and other agents in New York for speculative purposes.

His letter is as follows: "I am advised that many banks scattered throughout the country are loaning their surplus funds through brokers and others in New York on call at high rates of interest. Money loaned on call is well nigh universally for speculative purposes. I recognize the right of any individual to speculate in stocks or in lands, and the legal right of any bank to loan money at appropriate rates of interest at home or abroad on ample security, even with knowledge that it is being used for speculative

purposes. "I am not willing, however, that government money shall be enticed away them as Mr. Bryan's confidential agents from the locality where it has been deposited for the purpose of being used and asks, "Is Mr. Bryan an exception in this way. Public deposits are made in aid of legitimate business as distinguished from speculation whatever

"Depositary city banks are expected to loan at regular rates or not at all and they must not be tempted to act as agents instead of correspondents for other depositary banks in making call loans at high rates.

"If you have more money than your community can appropriately absorb, please return it to the treasury, for it can be promptly placed where it will do much good. This does not apply to banks with large reserves regularly on deposit with city correspondents."

Messrs. Keely and Olson will be held responsible benceforth for the safeguarding of the prisoner. They will be permitted to make their own arrange ments for the return of Stensland, and it is said they have under consideration a merchant vessel, the name of which has not been divulged. The naval refrigerating ship Glacier, now en route from Manila, is the only government vessel that will be available for many weeks, and she will not reach Tangler for at least three weeks.

It is announced at the state department that no action had been taken on behalf of the receiver of the Milwaukee Avenue State bank for the recovery of the \$12,000 which Stensland has on deposit in the French bank at Tan-

From the attitude of certain officials at the state department it is believed that dispatches have been received which have made the Illinois authorities very uneasy concerning Stensland's future conduct. It is said that apparently he suffers great remorse, and consequently the fear is entertained that he may attempt suicide before he reaches the scene of his defalcation. On the other hand, there is some fear that Stensland's depression of spirit is assumed and that he may have in contemplation a possible method of escape. It is understood here that since his arrest be has not been left alone for a moment and that this watchfulness will be maintained through the entire journey home.

He has renewed his request that in compliance with the wishes of Mexico's president this government should take steps to suppress the Mexican revolutionary junta at St. Louis, which publishes in Spanish a paper called Regeneracion.

He contends that articles that have appeared in certain newspapers of the United States discussing alleged dissatisfaction with the administration of President Diaz and asserting that an insurrection of possibly far reaching consequences is incubating are wholly without foundation and of inestimable harm to Mexico. He characterized the troubles that already have occurred as nothing more than small labor riots.
