OUR TROOPS LANDED

The American Flag is Again Flying in Cuba.

BLUEJACKETS AND GUNS ON GUARD

Commander of Cruiser Denver After Consultation With President Palma Takes Action to Protect Our Interests in Havana.

HAVANA, Sept. 14.—One hundred and twenty sailors from the United States protected cruiser Denver landed and are in camp in this city in front of old La Fuerza castle, facing the Plaza de Armas, the little park in front of the presidential palace, which is the seat of the Cuban government.

The American flag is planted just inside of the low stone coping separating the castle grounds from O'Reilly street, which thoroughfare passes between the camp and the Plaza de Armas. The American sailors are armed with regulation rifles, with the exception of a few who carry revolvers or carbines.

Two field howitzers and two rapid fire guns were sent ashore with the sailors and now point across the pretty little park, a significant warning to any one approaching the executive headquarters of the Cuban government with hostile intent.

The Denver, which originally anchored farther up the bay, dropped down last night to a position abreast of the foot of O'Reilly street and in front of the offices of the captain of the port so as to be conveniently near the detachment sent ashore and close at hand in case of need.

The whole business was done so quietly and quickly that it caused the greatest surprise. The reason for the sudden landing of the American sailors was a conference between President Palma, Charge d'Affaires Sleeper and Commander Colwell.

On the occasion of the latter's formal call upon President Palma, Mr. Sleeper asked the president the direct question whether he considered that the government was able to protect all American interests in Havana unaided.

The president replied that he hoped the government would be able to do so, but suggested that it also might be advisable as a measure of precaution in the interests of Americans as well as for the maintenance of order in general to land marines at some convenient point, suggesting the Plaza de Armas as the place.

CHIEF PLANNED IT.

Chicago Police Captain Accused of Base Crime.

FAKE BURGLARY MADE REAL ONE

Dutchman, a Jeweler, It is Claimed, Was Robbed of Gems and Money by the Constable of City Officers.

CHICAGO, Sept. 14.—Many witnesses were summoned before the city civil service commission to give evidence relative to the charges that have been preferred by Chief of Police Collins against Inspector Patrick J. Lavin, who is accused of conniving at crimes in his district while a police captain.

The chief evidence against Lavin was given by Patrick P. Mahoney, a former patrolman under Lavin. Mahoney testified that he was intimately acquainted with a brother of Lavin, who was a police sergeant, and that Patrick J. Lavin, then a police captain, called him into a private room in the police station and declared that he was about to take the examination for promotion to police inspector and that it would aid him in securing the promotion if he could do a good job of police work before the examination was held.

Lavin then said, according to the witness: "There is a Dutchman over here on Westworth avenue near Fifty-sixth street who owns a jewelry store with \$8,000 to \$10,000 worth of stuff in the safe. Now you know some handy fellows who can touch the place off. It will be worth \$5,000 to me to have the job pulled off and then turn back the stuff as though it had been taken."

Mahoney said that he agreed to the proposition of Lavin and made arrangements with James Clark and Thomas Barry to rob the place. Several boxes of jewelry, according to the witness, were carried from the place and some money was secured, which was divided between the men and himself.

The next morning he went to the station, and the captain whispered to him, asking if he had "secured the stuff." He whispered that he had, and the captain then asked him in a loud voice if he had seen any suspicious characters around the jewelry store the night before.

When the husband reached his home after an absence of three hours he found all the windows closed and the front door locked. Entering through the kitchen door, he came upon the body of Mrs. Pavitt stretched full length upon the floor in a pool of blood. A hatchet belonging to the farmer was lying near the body.

There has been no news received here from the western portion of Pinar del Rio province, as the wires are cut. The province of Matanzas is reported to be still free of insurgents.

WAR ON THE TRUSTS

Garfield to Probe Oil, Steel, Coal, Tobacco and Sugar.

WASHINGTON, Sept. 14.—Commissioner of Corporations Garfield will return to Washington from his vacation next week ready for the renewed war on the trusts.

The oil, steel, coal, tobacco and sugar combines are just now the objects of the chief solicitude of the investigating bureau of the department of commerce and labor. The report on the transportation feature alone of the oil business was made public, and it filled a volume. But it only covered a small part of the ground that will be included in the coming document.

The tobacco trust is just now on the rack, and there is reason to believe that results will be attained before long. This trust, like many others, was willing at the outset to open its books to the representatives of the bureau of corporations, but experience in the beef trust case, in which the packers were taken at their word, permitted to show their books, gave their own construction of them and then exonerated, has led to the adoption of a new programme.

Nowadays a trust busting programme does not open with an inspection of the books. That is reserved till the other end of the proceeding. Instead, then, of showing its books at the beginning, the tobacco trust will be permitted to show them at the close of the investigation.
