TWO VILLAGE GIRLS DON MALE ATTIRE AND START OUT TO SEE THE WORLD

Pair of Roxbury, Pa., Maids Find Life as Men Is Not All Pleasure, and Are Glad to Resume Feathers and Ribbons.

Pittsburg—Clara Greece and Mary Owens, of Roxbury, Somerset county, took a little journey into the world recently. They had a good time, but they are contented to go back to the somewhat village of Roxbury. They are both romantic, and when they decided to make the plunge to seek a fortune, it was to be as men. One night, in the Owens girl's room, they performed a tonorial act for each other which relieved them of their flowing tresses. Then they borrowed a suit of clothes each from the slumbering brothers of Miss Owens, and hit the pike for Conway.

THEY WERE PLACED IN THE TRAMP WARD.

They had carefully boarded their money for weeks to make this plunge, but money does not last forever. Even in Conway it costs something to eat next appeal for employment was at a lumber mill, and they were hired to drive a team at two dollars a day, nine hours to constitute a day. The first hour disqualified them. Neither girl had ever handled lines before, and they were not flusky enough to lift boards, and did not know how to balance a plank over the rear wheel in unloading. Lack of experience won them their discharge with only a half day's wages in their trousers pockets. Conway is not a very large place. It is decidedly bigger than Roxbury, but it was not up to what the girls had looked forward to in the great world outside their home town. That night they crawled into a freight car, headed toward Pittsburg, and arrived here early the next morning. They had one dollar each when they reached this city, and went over to the North side to put up until fortune came their way. The dollar lasted two days. Then they were broke and hungry. They wandered about the North side all day, asking for work at a number of places and being turned down. It is not much fun sleeping out these nights, and they had to do something, so that evening they made application at the station for shelter. They were placed in the tramp ward. An hour or two later a special officer happened to look in at them. His suspicions were aroused at something, and he whispered softly and reported to the chief of police that he thought they had better be placed in the matron's department than the tramp's ward. The chief at once called the young women before him, and after some questioning they broke down and between sobs admitted their escapade. Work was sent to Albert E. Owens, father of the Owens girl, at Roxbury, and he arrived at Allegheny. He brought with him raiment more suitable for the young women, who were being cared for by the matron. When he saw them in the matron's ward, dressed in men's clothing, he laughed, and said: "Serve you both right. Mebbe' you'll have more sense after this experience!" He took them home with him. The Owens girl was wearing a new derby hat. Her father had on a rusty bowler. He threw it aside and put on the new one his daughter had discarded for one with feathers and ribbons on it. "Why, Mary," said the Greece girl, "that hat looks better on your pap than it does on you." They were both glad to go home, but they insist they had a good time and do not regret their little plunge into the great world which lies outside of Roxbury.

ADMIRAL CHICHESTER DEAD.

British Commander Who Outwitted Germans in Manila Bay.

GIBRALTAR, Sept. 18.—Hear Admiral Sir Edward Chichester, who commanded the British squadron at Manila during the Spanish-American war, died here of pneumonia after an illness of a few days. Sir Edward's wife arrived here from England.

Rear Admiral Chichester was chief of the sea transport service during the South African war. His work in transporting a quarter of a million men 5,000 miles to South Africa won him great praise.

It was Sir Edward Chichester who, according to report, "stood by" the Americans in Manila bay at a time when friction between Admiral Dewey and the German commander seemed likely to lead to serious consequences.

One account of the affair, printed in a London paper, said that "when the American and German fleets were grating defiance at each other in parallel lines, their decks cleared for action, Captain Chichester stolidly steered the British squadron between them, giving indeed an exhibition of calmness, tact and nautical good humor that probably saved a battle which would have resulted in disaster to the peace of the world."

CLAIMS SHAW AS FATHER.

Young American Under Arrest at Toulon Files False Colors.

WASHINGTON, Sept. 18.—A Toulon dispatch says that Herbert Shaw, the young American who was arrested here on a charge of fraud, claims he is a student and son of Leslie M. Shaw, secretary of the treasury of the United States; that he arrived in Toulon Saturday and went to the Grand hotel for the night, the next day engaging an apartment in the town for a prolonged stay there. Shortly afterward, he says, a police inspector arrested him without any charge or complaint having been made.

The young man says he protested to the central police commissary, but as he had no papers with him to establish his identity and as he was without money at the time, pending the receipt of a check from the United States, he was held in custody until night, when he was released at the instance of the American consul there.

Secretary Shaw has but one son. His name is Earl, and he is not in Europe, so that the young man is either insane or a fake.

Violent Riots at Grenoble.

GRENOBLE, France, Sept. 18.—Violent strike riots occurred here. A mob tore down the doors of a big factory, carried off the furniture of the establishment, piled it in the street and set it on fire. Then the mob proceeded to the police station, believing that two of their comrades were in prison there, broke into and sacked it and made a bonfire of the furniture and papers. The troops were able to disperse the mob only by the free use of their rifle butts. Re-enforcements of dragoons and cuirassiers are expected to quell the disorders.

Permanent Dentistry

A quarter of a century ago we placed some gold fillings in the teeth of a well known gentleman at present a resident of Sayre. These fillings today are just as bright, firm and useful as the day they were made. We will tell you the name of the party, if you wish to see him yourself.

There are variations in dental workmanship, just as there are differences in the various brands of flour. If you desire the highest degree of proficiency—the skill and knowledge that will make YOUR fillings serviceable twenty-five years from today—come in or phone for an appointment. On the other hand, if you take pleasure in having your teeth filled over and over again every year or two, you should go elsewhere—we do not do that kind of work.
