Democrats Gather For Melee Over Nomination.

REARST SAID TO BE FIRST CHOICE

Jerome, Mayor McClellan and Sulser of New York and Adam of Buffalo,

BUFFALO, Sept. 24.—Delegates to the Democratic state convention, which opens in this city tomorrow, are arriving from various sections of the state. The 105 delegates from New York county, generally termed the Tammany delegates, will reach here early today and will go into caucus tonight.

Upon the outcome of this caucus depends much as to the situation in the convention when it is called to order While it is acknowledged that Mr. by Cord Meyer, chairman of the Demeratic state committee

Max F. Ihmsen, state chairman of the Independence league, and Lewis Stuyvesant Chanler of Dutchess, the ominee of the Independence league for lieutenant governor, who is a dele Attorneys and Counselors sate to the Democratic convention

rom Dutchess, are here. W. J. Conners of this city, one of the Erie county delegates to the convention, whose proposal to the Independence league that its nominations be deferred until after the Buffalo convention was voted down, has declared that Mr. Hearst has 175 delegates. The entire number of delegates is 450, with 226 necessary for a nomination.

Mr. Conners at Rochester joined Charles F. Murphy, the leader of Tammany Hall, who was en route to this city. Mr. Conners and Mr. Murphy were closeted together in the drawing room of a sleeping car all the way from Rochester to Buffalo. On their arrival here neither would discuss what conclusion, if any, had been argived at Mr. Murphy has been quoted a number of times as saying that be had found plenty of sentiment in Tammany Hall for Congressman Hearst.

District Attorney William Travers lerome of New York county, one of the leading candidates for the gubernatorial nomination, was a conspicuous and was always surrounded by a give bond for \$25,000. Miss Wood did

Mayor George B, McClellan of New York, one of Mr. Jereme's stanchest supporters, is at the Iroquois and also Fire Commissioner John F. O'Brien of New York, who is allied with him.

The supporters of Mayor J. N. Adam of Buffale for the nomination as governer are quite conspicuous. Each wears a blue ribbon badge with Mayor Adam's picture on it. The advocates of Congressman Wil-

iam Sulser were also active, and Sulser badges were numerously displayed.
The fact that some delegates to the convention from Eric county are instructed to vote for Mr. Hearst, provicing he is not the candidate of any other party at the time of their so voting, has brought up the question as the legal status of the nominations made by the Independence league. These nominations are not effective and are not entitled to a place on the official ballot until petitions signed with fifty names in each county are filed with the secretary of state at Albany. So far the petitions have not been completed or filed. Whether or not under the circumstances Mr. Hearst stands as the official nominee of another party remains apparently for the dele-

gates themselves to decide. There is said to be a movement on foet to have the convention declare for William J. Bryan for president in 1908. The fight for the governorship is so engrossing, however, that the question of presidential indorsements will probably not come up until after

that is settled. Congressman William Sulzer, who has been mentioned in connection with the Democratic gubernatorial nomina-

tion, said: "My friends feel confident of my omination for governor, but I have no puffed up vanity in the matter. I want to do my best to bring about Democratic unity and harmony and the success of my party in the interest of better state government for all the people. If the convention nominates me I shall accept and carry the standard to the best of my ability. If it selects another man I will support him

lovally and enthusiastically. "Mr. Hearst and myself have been friends for years, and for my part polities will not sever the friendship. If he is nominated there will not be in all the state a more earnest worker in his behalf than myself, and I sub- formed the minister of public works, mit to the candor of the Democratic delegates and to the electorate of the to grant within eighteen months fiftythe part of Mr. Hearst to say now that if I am nominated he will support me."

This condition came as the result of by negroes. The reports of an even its of Fulton county within the last nine weeks came here Saturday, four attempts at assault being recent.

Flaring headlines in the special editions of newspapers wrought the populace to a high pitch of excitement. The usual Saturday night crowds were largely increased by men and boys who througed the downtown streets. There was no leader and no overt act until late in the evening. About 10 o'clock a negro man shoved a white woman from the sidewalk on Whitehall street, in the center of the town. Almost simultaneously a negro woman made an insulting remark to a white man on an adjoining street, and be

The fire department was called out to disperse the mob in Decatur street, a street most frequented by negroes, and for a time seemed to hold the crowd at bay. The police reserves were called out and will hold the situation until the troops can be mobilized. The mob seemed to lack leadership, and this doubtless prevented great slaughter.

Many reports are being received from the outskirts of the town of rioting and negroes being killed and driven from their homes. Rumors have it that at least twenty-five to thirty or more negroes have been killed, but it is impossible to confirm these reports. A meeting of citizens, bankers and

The beraiding of recent assaults of white women by negroes in flaming headlines in the extras of local papers was condemned in unmeasured terms and the earnest request was made that hereafter no special editions covering these topics be issued. Such "inflammatory headlines" were declared to have been the direct incitement to the outrages.

Resolutions were adopted urging upon the city council the enactment of laws closing low negro dives, in which it was declared, much of the crime among the negro classes has its origin. nas a plan for saving the sovereignty of the Cuban republic. He says he has a tangible scheme, but will not disclose ts exact character. It is not a victory for either political party, but contemplates radical concessions by both.

Secretary Taft and Acting Secretary f State Bacon had a conference with upward of a score of leaders of the evolution, and it was announced that the insurgent chiefs had made certain oncessions for peace.

It is said here that the American plans for peace will include the retenplans for peace will include the reten-tion of President Palma in office, but Dress Goods will provide for the election of a new congress or, in lieu of that, for the reconstruction of the cabinet. Pending a settlement of the Insurrection the American warships in the harbor are ing by easy stages to \$1.50. ready to land men, in addition to those Goods cheerfully shown whether now on shore, up to the number of 4.000 if necessary to protect American lives and property.

Generals Menocal and Gramonte call Bacon on their success in bringing the Moderate and the Liberal leaders to a realfzation of the necessity of each making some concessions.

The veterans evidenced sympathy with many of the principles for which the insurgents took up arms. They suggested that the first basis of the negotiations should be for the revision of the Cuban constitution, alleging that it confers too much power and too little responsibility upon the members of the cabinet. "Cubans are too hot blooded to be given unlimited powers," said General Menocal.

The nearest insurgent camp, near La Lisa just west of Marianao, has been visited by great crowds of Havanese Encouraged by the reports that peac was imminent the people for the first time dared to gratify their curiosity the revolutionary cause.

That the differences of the opposing factions could be reconciled was not believed to be possible until now, when it was announced that the Liberals and the insurgents had agreed to a peace conference with the American mediators. It is evident that the business inter-

ests of the island have no confidence in the ability of the Cubans to rule themselves, and now, when it appears too late, they are openly favoring forch ble intervention and possible annexation. Secretary of War Taft is cognizant of this general opinion that peace cannot last unless it is enforced by an American army, but he considers that it is the duty of the United States to give the republic another chance and believes that it would be bad policy for the United States to keep a force in Cuba longer than was required to supervise the laying down of arms. He said that if the Liberals and Moderates harmonize their differences the United States must regard the compact as made in good faith. That peace will come as the result of the mediation of the United States is now believed by Cubans, regardless of

on terms which will insure permanent tranquillity is questioned. There was considerable commen over the fact that a salute of nineteer guns was given Secretary Taft when he visited the warships. Previously he had been given the usual seventeen guns, to which the secretary of war is entitled. The two extra guns means that he is recognized as an ambassador extraordinary on a special mission with plenary powers from President Roosevelt.
